

Dear Colleagues:

You are receiving this message from the Student Assessment Division at the Illinois State Board of Education.

The conversion charts from the Bridge Study for ACCESS for ELLs is now posted.

You can go to <http://www.isbe.net/bilingual/htmls/access.htm> or www.isbe.net/assessment - click on ACCESS.

The spreadsheets show the Bridge Study conversion charts for each of the local language proficiency tests (LAS, IPT, LPTS and MACII) to the ACCESS for ELLs™ test. These scores only relate to the ACCESS test and not to the screener, the W-APT. Each of the spreadsheets has several conversion worksheets depending on how many test forms each of the local test has and the domain tested.

If you have questions about these charts, please contact Rense Lange at rlange@isbe.net, 217/782-4823 or Lilibeth Q. Gumia at lgumia@isbe.net, 217/782-3950.
