Middle Level Standards/Certificate

The Chairman called for Agenda Item, “No Child Left Behind” Progress Report.

The Chairman reported that the issue of certification requirements for middle school teachers has been before the Board on several occasions over the past two years. He indicated that the Board hopes to bring closure to these discussions by taking action on the recommendations presented by the Superintendent.
The Superintendent reported that following the last Board meeting discussion of this topic, staff met with a committee of regional superintendents to discuss their concerns. He also commented that several Board members have held focus group meetings with local educators to determine their reaction to the proposed middle level certification. He explained that as a result of these discussions, staff has developed a slightly modified proposal that provides a hold harmless provision for current middle school teachers, and an extended timeline for transition from the current endorsement to the new certificate.

Superintendent Vazquez reported that the regional superintendents believe that this plan is reasonable and adequately addresses their concerns. He noted that the proposal before the Board today would put Illinois on the road to assuring the appropriateness of the training provided for middle school teachers. He indicated that at the same time, the proposal takes into consideration concerns about teacher shortage and the need for a transition period that will not put schools or teachers in untenable positions.

The Superintendent commented that some Board members heard from constituents that they were unaware of this proposal. He indicated that the State Board had sent out thousands of announcements and requests for reactions. He said that if the Board adopts this proposal, whose main component creates a new middle level certificate and the concurrent redefinition of the grade levels of the current K-9 and 6-12 certificates, we will need to secure a change in the law. He explained that this means that the other elements of the proposal are dependent on the General Assembly’s decision.

Discussion followed for clarification purposes and Board members’ input. Dr. Debra Curtis, from Illinois State University, and staff members Chris Koch and Mike Long assisted in responding to questions.

Rules Overview

The Chairman called for Agenda Item, Rules Overview, Part 23: Standards for School Service Personnel; Part 252: Driver Education; and Part 375: Student Records.

The Chairman reported that there were three sets of rules to consider at today’s meeting – two for final adoption at tomorrow’s meeting and one to be sent out for public comment.
The Superintendent indicated that the first set of rules deal with the standards for certification of school service personnel. He noted that the State Board did receive some public comment on these proposed rules. He said that the driver education rules were ready for final Board action, and the last set of rules to be considered deal with student records.

Discussion followed for clarification purposes and Board members’ input.

**YouthBuild Charter School**

The Chairman called for Agenda Item, YouthBuild Charter School.

Chairman Gidwitz indicated that the Rockford YouthBuild Charter School proposal was denied by the Rockford School District and then appealed to the state level. He noted that during the Board’s initial discussion of this issue, questions were raised which required additional information. He said that the fact-finding process has now been completed, and the Superintendent is ready to make his recommendation.

The Superintendent commented that the state level appeal panel found that the reasons for the denial of the Rockford YouthBuild Charter school proposal were without merit, the proposal is in compliance with the charter school law, and the proposal is in the best interests of the students it is designed to serve. He noted that he had independently reviewed all of the evidence presented in this case, and he said that he concurs with the appeal panel. He said that he was recommending that the Board overturn the denial of this proposal and award a charter school to the Rockford YouthBuild Charter School.

Discussion followed for clarification purposes and Board members’ input. Staff members David Wood, Gary Anderson, and Janet Allison assisted in responding to questions.

**Spring Lake Decertification**

The Chairman called for Agenda Item, Spring Lake Financial Decertification.

Chairman Gidwitz reported that it was gratifying to take up a “good news” agenda item. He noted that the Spring Lake School District has been able to get its financial house in order well enough to petition for removal of its designation as a district “in financial difficulty.” He commented that the Board will officially take action on the Spring Lake petition at tomorrow’s meeting.

Discussion followed for clarification purposes and Board members’ input.
