There was discussion regarding a correction in the minutes for agenda item 4.e. Clarification was made that no vote was taken with regard to national standards. The motion to approve the committee minutes, as corrected, passed with voice vote approval.

REVIEW NEW NOMINATIONS FOR RESOLUTIONS OF RECOGNITION.
The Board Operations Committee reviewed a resolution for Grant Seaholm who was recently named a National Distinguished Principal of the Year by USDE and NAESP. Also reviewed was a resolution for Patricia Welch, for being named IPA Principal of the Year.

GUIDELINES FOR PUBLIC PARTICIPATION
Ms. Karon asked that the sign-in sheet be revised to include names of all those attending the Board meetings and those who wish to speak would be able to check a box. Ms. Karon indicated that the Board receives a listing of people who have dialed in to listen by phone, and she would like to have a record of those who are in attendance at each meeting. Ms. Holmes moved to recommend approval of the procedures as well as the revision to the sign-in sheet. Dr. Hall seconded the motion and it passed with a unanimous voice vote.

COORDINATION OF BOARD PRIORITIES WITH COMMITTEE AGENDAS
It was suggested that the Chair of the Board Operations Committee periodically poll members to see if they feel the Board is staying focused on their priorities as determined at the retreat. The mechanism for doing so would be the work sheet Chairman Ruiz developed. Dr. Hall moved that we accept this proposal, Mr. Ruiz seconded the motion and it passed with a unanimous voice vote.

COMMITTEE AGENDA PLANNING/ADDITIONAL ITEMS
Chairman Ruiz asked members if they are interested in participating in the NASBE Study Groups they are in the process of pulling together.

**NASBE Annual Meeting Report**

Dr. Hall took the opportunity to thank the members of the Board for renewing membership in NASBE. She indicated that the annual conference was terrific with a myriad of discussions.

The topics for the 2007 study groups were:

- *Models of Success: The State’s Role in Improving Schools in Corrective Action and Restructuring under NCLB* (Dr. Chris Ward served on this study group)
- *E Pluribus Unum: English, Language Education, and America’s Future* (Dr. Vinni Hall served on this study group)

At this year’s conference, Dr. Hall served on the panel presenting the findings of the report on Language and Learning. The session was well attended and was moderated by NASBE President-Elect Ken Willard. The study group’s findings centered on two important concepts: 1) It is essential that every student, not just immigrant students, learn how to speak, read, write and comprehend the English language in order to live, thrive, and contribute to American society. 2) There is a need to nurture and preserve students’ native languages. Not only are these languages important components of a student’s identity, but they can also be assets in an ever-growing global economy.

Dr. Hall indicated that the session on the second study group on Restructuring was also very well attended. She encouraged staff to read both reports.

Mr. Reisberg commented that he, too, appreciated the opportunity to attend the conference to interact with his counterparts from other states and see how other attorneys are dealing with common issues.

**Committee agenda planning**

Budget Hearing
Wednesday, October 17, 2007
4:00 p.m.
Core Room, Primary Center
Mt. Vernon City Schools
401 North 30th Street, Mt. Vernon, Illinois
Meeting was called to order by Brenda Holmes at 1:20 p.m.

1. **ROLL CALL:** Dean Clark and Chris Ward were absent.

2. **BOARD MEMBER PARTICIPATION BY OTHER MEANS:** None

3. **PUBLIC PARTICIPATION:** Paula Purdue and Deborah Wolf, representing the Illinois Association of Health Physical Education Recreation and Dance (IAHPERD) spoke to the Board regarding the new philosophy for physical activity and the strong link between this and academic performance. They were also concerned about what is rational regarding new amendments for waivers, the importance for data to be collected, and the physical education policy and House Bill 1839.

4. **MINUTES OF THE SEPTEMBER JOINT FINANCE AND AUDIT AND GOVERNMENTAL RELATIONS COMMITTEE OF THE WHOLE:** The motion to accept the minutes, made by Jesse Ruiz, was seconded by David Fields. The motion carried.

5. **LEGISLATIVE UPDATE:** The Committee discussed House Resolution 749, House Bill 4149, and House Bill 1647. They also talked about adding a section to the ISBE Budget book that describes Agency staff impact/cost of new legislation. Board Member Andrea Brown asked what ISBE needed to do to implement SB 543 and what the legal ramifications will be if the legislation is challenged legally. General Counsel Darren Reisberg told the Committee that he would follow up with the Board regarding his findings.

6. **LEGISLATIVE PROPOSALS UPDATE:** Board members reviewed changes to the school holidays section of the School Code, parent-teacher conference requirements and the driver’s education fee as potential Board legislative proposals. The Committee members agreed that proposals for school holiday waivers and parent teacher conferences should go forward similarly to the recommendations made in the Cumulative Waiver Report. The Board also agreed that a proposal to increase the maximum allowable driver’s education fee up to $250 should more forward in the spring legislative session.

7. **BUDGET PROCESS**
   **A. FY 08 BUDGET UPDATE**
   Linda Mitchell stated that since July 2007, ISBE has paid General State Aid (GSA) at the FY2007 level. Disbursements have been made at 1/24 of the FY2007 GSA amount. Since updated EAV and average daily attendance information is now available, ISBE must revise the calculation to reflect that information. This results in a decrease in the GSA payment for over 700 school districts. ISBE will have to start paying based upon the prior year foundation level of $5,334. ISBE will not be able to make the payments based on the new $5,734 amount approved by the
General Assembly because the new budget implementation legislation has not yet passed. Payments will be reduced beginning with the November 10 GSA payment.

Ms. Mitchell stated that ISBE will be making the new foundation level payment once the budget implementation legislation has been approved. There will be an adjustment made to "true up" the payments so that each district receives what they would have gotten had the budget implementation legislation been passed at the same time as the increase in GSA was approved.

B. FY 09 BUDGET HEARINGS: Linda Mitchell stated that ISBE is planning on having eight hearings this year. Ms. Mitchell indicated that the first hearing is immediately following today's committee meeting. Most of the board will be present at this Mt. Vernon hearing as well as the hearing to be held in Springfield in conjunction with the November Board meeting. The Finance and Audit Committee Chair, Dean Clark, will attend most of the hearings. Other members will attend depending upon the location of the hearings. Ms. Mitchell will provide the board with a summary of testimony received at all of the hearings.

8. CONTRACTS & GRANTS OVER $1 MILLION: The following contracts and grants were reviewed by the Joint Committee. The Committee will recommend approval during the plenary session on Thursday.
   a. (revised recommended motion): Technology Immersion Pilot Project contract amendments with Apple and Gateway
      Darren Reisberg recommended revising the motion for these contract amendments as follows: "The State Board of Education hereby authorizes the State Superintendent of Education to enter into contract amendments with both Apple Inc. and Gateway Inc., with the amount of each amended contract being no more than $1,770,992 and $2,279,288 respectively for FY 2008."
   b. ELL Math Test Development: federal (ONPAR) Grant with University of Wisconsin (recommend approval as presented in packet)

9. COMMITTEE AGENDA PLANNING/ADDITIONAL ITEMS FOR FINANCE AND AUDIT COMMITTEE: Linda Mitchell stated that as in prior years, the board will have a presentation on tax revenue projections from Commission on Government Forecasting & Accountability in December. The board will also receive an update on the status of districts in financial difficulty.

10. P.E. WAIVER POLICY DISCUSSION: Winnie Tuthill and Shelley Helton provided background information on the history of the Board's physical education waiver policy and changes that have taken place with the Illinois Standards Achievement Test (ISAT) that make it difficult for districts to submit assessment data. Staff explained that ISBE simply reviews that the assessment material as submitted. There is no further check of the appropriateness, validity or alignment with the Illinois Learning Standards due to both a lack of time and expertise by ISBE staff. Board members also questioned the purpose of the policy and the disconnect with action of the General Assembly, which has reviewed a total of 415 waiver applications for physical education but denied only seven applications. The Committee then asked staff to come back in November with recommendations on how to proceed with revising, maintaining or eliminating the current P.E. Policy.

11. COMMITTEE AGENDA PLANNING/ADDITIONAL ITEMS FOR GOVERNMENTAL RELATIONS COMMITTEE: The Board will receive an updated public act chart that includes requested information on the fiscal and staffing impact on the Agency as a result of new public acts.

12. ADJOURN: A motion to adjourn was made by Jesse Ruiz, and was seconded by Vinni Hall. The meeting adjourned at 3:29 p.m.

4. APPROVAL OF MINUTES: Joyce Karon moved approval of the minutes of the September 19, 2007, meeting. David Fields seconded the motion. It was adopted unanimously and the minutes were approved as presented.

5. RULES FOR INITIAL REVIEW: General Counsel Darren Reisberg introduced the set of amendments to Part 1 that was being presented, noting that it included a number of provisions not related to one another. He indicated that Division Administrators Randy Niles, Chris Schmitt, and Mark Haller were available for the discussion.

PART 1 (Public Schools Evaluation, Recognition and Supervision)

Rules Coordinator Sally Vogl provided an overview of the revisions being proposed in Section 1.100 as a result of P.A. 95-223, which established limits on waivers and modifications of Section 27-6 of the School Code with respect to daily physical education. She noted that there was no acknowledgment in the law of waivers and modifications approved prior to January 1, 2008. However, because the law is not retroactive, she indicated that the proposed rule would “start the clock” as of that date. That is, the first waiver or modification to be counted for each applicant would be the first one approved on or after that date; each subsequent request would be considered a renewal; no more than two renewals would be permitted per applicant; and no more than six cumulative years of approval could be granted.

Moving to Section 1.245, Waiver of School Fees, Ms. Vogl outlined the overlap between students’ eligibility for fee waivers and their eligibility for free and reduced-price meals and identified the challenge now faced by districts connected to verifying that eligibility. She explained that new limits on verification of eligibility for the meals programs had been established at the federal level and that these would have an effect on how districts approached verifying eligibility for fee waivers as well. The purpose of the revision in Section 1.245 was to clarify this matter for districts.

Mr. Reisberg noted that the updating in Section 1.310 was straightforward and did not require discussion. Sections 1.430 and 1.440 were being revised in response to questions from the field regarding whether a “Constitution test” was required for graduation from the eighth grade and/or high school. Division Administrator Randy Niles stated that clarification had also been requested.
as to whether an exam *per se* is required or whether any other type of evaluation would suffice. Sally Vogl highlighted the need to review several different statutory provisions and determine their applicability to eighth grade and high school graduation. Specifically, there is no single “Constitution test” that is required by the State. An entire list of topics is required to be covered, and an examination is required for both eighth grade graduation and high school graduation. The examination would need to be broader than simply addressing the U.S. and Illinois Constitutions. She concluded by indicating that, when it becomes clear that the language of a rule does not make clear what is required, a change is warranted.

As a former history and government teacher, Brenda Holmes validated the need for stating these points clearly. Sally Vogl contrasted the “examination” referred to previously with the requirement for “evidence of comprehensive knowledge” in connection with U.S. history, illustrating how the two could easily be confused. Darren Reisberg mentioned that a reporter had raised this question with the Public Information office also.

Ms. Vogl then explained the origins of the amendments to Sections 1.510 and 1.515, both of which dealt with transportation. She stated that Section 1.510 needed to acknowledge the new requirements put in place by P.A. 95-260 to prevent children from being left on school buses. That Act is very explicit and, in and of itself, would not require rulemaking, but because an existing rule covered supervision of passengers, that rule would now be incomplete without a reference to the new requirements. She added that discussing this rule change with Division Administrator Tim Imler had prompted him to identify the need for the proposed change in Section 1.515 regarding recent first aid training for the individuals who train the instructors who, in turn, train school bus drivers.

Finally, Darren Reisberg explained the origins of the proposed revision to Section 1.420(o), Media Programs. Questions from the field had led to a review of the compliance probe and, in turn, to the realization that the points covered in that document did not actually correspond to the rule because the rule provides no specifics. Regional superintendents voiced the concern that districts should not be cited for failure to meet requirements that were not specifically stated, so it was decided to review this area and determine what really should be included in these programs.

Randy Niles discussed the survey that had been sent to regional superintendents in an effort to gather information on how districts around the state were currently providing library media services. There had been wide variety in the responses, which was not surprising given the questions that had been raised in the field. An advisory committee had then been convened for the purpose of developing recommendations for what the required program of library media services should entail. Those recommendations were reflected in the rule being presented for consideration, and Mr. Niles indicated that there were some significant changes included. He acknowledged that districts currently have difficulty securing the services of qualified personnel and that more preparation programs would likely be needed to satisfy the demand.

Joyce Karon, who had been instrumental in convening the advisory committee, commented that, although she had stepped away from the deliberations after delivery of the charge to the group, she felt that what had come out of the work would resolve the conflicting interpretations and vacillation in this area that had prevailed for the many years she had been involved. In her view, it was also significant that questions from the field in general were being broadly viewed and steps taken to address areas of inconsistency or insufficiency. She stated her appreciation for these efforts.

Andrea Brown voiced her concern for understanding the requirements for library media specialists, the three-year phase-in of the proposed requirements, and their effects on small school districts. She wanted to ensure that the agency had measured their impact and identified what services would be available in the various parts of the state. She noted that staff currently serving in some school libraries hold differing credentials and that some do not hold master’s degrees. Further, she expressed the hope that responses from the field would be forthcoming.
during the comment period so that the implications of the proposal could be well understood. Of particular concern was the question of whether three years would be enough time to allow the requirements to be met. Randy Niles agreed with Dr. Brown’s concern for the reality of the situation in districts and indicated he thought the comments would improve the agency’s understanding of what would be feasible to require, particularly in small rural districts.

Sally Vogl offered the clarification that staff who met previous versions of the required qualifications for library positions would continue to be considered qualified and that use of the newer term “library information specialist” did not mean individuals with older endorsements would become ineligible. The long-standing agency policy had been “once qualified, always qualified”, and this field would be no exception. The other personnel-related aspect of the situation would involve the appropriate role and functions of non-certified individuals who assist in the library media program. Ms. Vogl also noted that various requirements stated in the proposed rule could be seen as “movable parts” to which appropriate exceptions or alternatives could be identified via public comment.

6. COMMITTEE AGENDA PLANNING/ADDITIONAL ITEMS: Darren Reisberg noted that a number of pieces of legislation enacted in 2007 would require rulemaking and that the process of identifying those was ongoing. Sally Vogl identified several specific items that had been drafted and would be coming forward in the next several months, including updates to the rules for special education and driver education arising out of legislation.

7. ADJOURNMENT: Brenda Holmes moved that the meeting be adjourned. David Fields seconded the motion, and the meeting was adjourned at 9:00 a.m.
