Mr. Grode said that each year the CSO provides approximately nineteen arts education programs to more then 100,000 children and families in Chicago and surrounding areas. Despite all these efforts there are still hundreds of thousands more children who have uneven access to arts education. To begin reaching these children the Institute will offer three new initiatives to supports arts learning: Orchestra Explorers K-3 grades, Dream Out Loud ages 9-17, and Chicago Young Musicians Initiative will launch in April 2009. with $950,000.00 to operate the center and school but the Comptroller has only released $300,000.00 from July to October. The facility is operated on a grant-funded basis only. Ms. Lechnick indicated that they have explored other options but they have been unable to secure a loan from the local banks. Keeneyville School District of DuPage County acts as their fiscal agent and they are attempting to explore their options through a possible district loan.

Dr. Brown and Mr. Clark asked if Ms. Lechnick if she has spoken to her legislator. Ms. Lechnick said that she had not, but that she certainly would do so. Chairman Ruiz also recommended that she encourage her parents to lobby their legislators to advocate on behalf of the school and center.

Mr. Reisberg stated that Superintendent Koch has been contacted by Dr. Carol Auer of Keeneyville School District #20 looking for a solution in the event that they would need to borrow the money. Mr. Reisberg indicated that staff is considering the issue and Superintendent Koch agreed to keep the Board updated.

Joanna Brown of the Logan Square Neighborhood Association talked about the community neighbors centers that are funded by ISBE. Ms. Brown testified at the budget hearing in Chicago and wanted to clarify questions that were raised. She commented that the centers are located in Latino immigrant communities and have been around for about fifteen years. The centers depend primarily on the State Board for funding their community center and parent mentor programs. Ms. Brown stated that they would like to further develop their parent mentor program, should funds be available. She invited the Board members to attend an open house in January where they will be showcasing all of their programs at one of their community centers.

Patricia Gonzalez, Assistant Principal at Burroughs School addressed the Board to request changes in 21st Century Community Learning Center Application process. Ms. Gonzalez asked that the State Board of Education remove the competitive priority for schools that are reapplying and are not meeting the state performance standards. She also asked that the Board give competitive priority to schools in the reapplication process that have used the funding effectively and have met or are exceeding the performance standards. Schools should be rewarded for good stewardship of these precious resources, not be penalized for succeeding. Ms. Gonzalez requested the Board’s consideration of her suggestions prior to the next RFP opportunity for the 21st Century Community Learning Center Grant.

Superintendent Koch commented that the Board struggles with this funding because there are many schools in need of it. Dr. Koch stated that the 21st Century Grant is a very valuable program and we will continue to review the policy as we progress.

**END OF THE CONSENT AGENDA**

**Bilingual Transition to Teaching Resolution**

Dr. Ward moved that the Illinois State Board of Education hereby adopts the resolutions on pages 3-22 recognizing Jacqueline Aguilera, Juan Sanchez, Mark Clark, Michelle Everson, Marilinda Kustec, Silvia Acevedo, Claudia Alamirano, Carmen Andrade, Angel Avalos, Adriana Cardenas, Maria Carmona, Crystal Dominguez, Christian Drogos, Patricia Maxwell, Patricia Orozco-Rosas, Marisa Rodriguez, Carlos Santoyo, Esmerlada Velasco, Emma Walsh and Jennifer Wood. These teachers are recognized for making a commitment to provide a quality education to, and provide services for, high-need bilingual students in Illinois. Ms. Holmes seconded the motion and it passed with a unanimous voice vote.

**Preliminary Discussion of FY10 Budget**

Mr. Clark stated that there is only one budget hearing left and it will be held in Wheaton at the Briar Glen Elementary Learning Center on December 3, 2008. Mr. Clark stated that they have heard testimonies from 113 people for funding issues.

Mr. Clark then turned the discussion over to Superintendent Koch and Linda Mitchell to discuss the preliminary structure of the budget.

Superintendent Koch said that he, Chairman Ruiz, and Linda Mitchell met with the Governor’s Office of Budget and Management (GOMB) following the press release of the Governor. GOMB reviewed with them the Governor’s proposal to balance the budget. Dr. Koch said that it is his understanding that the General Assembly will be acting today on the proposal of an 8% decrease for the General Revenue Fund. This would mean a potential $600 million dollar decrease to the State Board of Education budget. This is of great concern and is being reviewed by our budget division.

Ms. Holmes asked if this is 8% of the of the $7.4 billion dollar state budget. Dr. Koch and Linda Mitchell responded that is correct. Ms. Holmes also asked if we will have any input to where the initial budget cuts would be made and had they done any scenarios. Dr. Koch indicated that at this point they do not know where the initial cuts will be made or if we will have input, and they had not done any scenarios yet. Chairman Ruiz stated that if you look at the Governor’s proposal it would give him complete latitude to decide where the cuts would be.

Chairman Ruiz stated that if you look at the Governor’s proposal it would give him complete latitude to decide where the cuts would be.

Ms. Holmes recommended that the State Board be prepared to suggest where the budget cuts might be made. She commented that she does not think the reality of the FY09 budget in its current form is going to continue to be reality, and that she would prefer to have a reduction plan ready.

Ms. Mitchell suggested that today’s agenda is to discuss the Board’s FY10 priorities. She noted that the Board has been very clear on its priorities concerning General State Aid, Mandated Categoricals, Early Childhood and the operations of the agency. Those items are where the largest share of the funding is in our budget, and if those are our priorities it does
not give us a lot of opportunities to bring about any type of reductions.

Chairman Ruiz requested that we have a recommendation for our current budget and the FY 2010 budget.

Ms. Mitchell provided an update on the Comptroller’s cash flow situation and its affect on the agency and outside programs funded by the agency. The Governor’s Office and the State Board are working with the Finance Authority to see if there is a program that could assist these school districts with some short term financing.

Linda Mitchell reviewed with the Board the budget background information provided to the Board. The information shows a categorized budget that reflects the priorities of the Board and our new Strategic Plan Initiatives.

Ms. Karon requested that we have state level indicators for what a school or district should be. Ms. Karon feels that this would give the Board the necessary information to help them target their budget funding. Susie Morrison commented that other states have adopted Quality School Indicators at the school level and Quality School System Indicators for districts. These indicators lay out the expectations for a school and district of what a quality school should be, and they benchmark themselves against those quality indicators. Ms. Karon suggested that this be a work study session.

Dr. Koch pointed out that many states are in the same budget crisis we are in, if not worse. Various state boards are handling their budgets differently; some know that they will be getting less funding and request larger amounts. Dr. Koch noted that it is very important that we create a better prioritization. We need to be clear about where our priorities are, and where they are not. Dr. Koch commented that we will not reach the $600 million dollar reduction by doing away with the small items, and if we want to leave General State Aid intact, then we will have to look at Mandated Categoricals. Scenarios of this kind could be run for the Board’s review. The Board members discussed the possibility of a special meeting to review the scenarios they requested.

Chairman Ruiz introduced Dr. Proshanta Nandi who joins the Board meetings as a representative from the Illinois Board of Higher Education (IBHE). Dr. Nandi stated that the IBHE met on Tuesday, October 7th, on the campus of Kennedy King College in Chicago. On the afternoon prior to the Board meeting, the Public Agenda Task Force convened its fifth meeting. Dr. Nandi stated that prior to the fifth task force meeting; working groups were formed around the four goals of the Public Agenda. The working groups developed draft documents that identified central issues and a set of recommended strategies believed to address these issues. At the October 6th meeting, the task force members reviewed the draft documents. The task force will meet again on November 21, at which time a final draft should be ready for review and adoption.

Highlights of the October 7 IBHE meeting included the following:

- Representatives of the IBHE’s Proprietary Advisory Committee addressed the Board. They highlighted the contributions of the for-profit education sector to Illinois’ economy as both a consumer and as an engine of individual advancement.

- Illinois Student Assistance Commission Executive Director Andy Davis spoke about affordability and the efforts of ISAC to both increase available funding and to make more efficient use of current funding. Mr. Davis pointed to the goals of the Public Agenda to reduce repetition and remediation and to increase completion rates as being viable ways of improving student assistance efficiency.

- The Board reviewed the work of the Public Agenda task force and discussed the draft documents presented the day before. Several board members commented about the underlying need to revise education funding if we are to realize any of the goals of the Public Agenda.

Dr. Nandi’s General Observations:

- Most colleges and universities are aligning their priorities with this public agenda.

- IBHE has no indication as yet of the 2010 budget although indications are toward a grief situation.

- There have been six public hearings around the state in regard to the Public Agenda.

- Illinois is the 34th state to join the American Diploma Project Network.
