| D.7. Determination of Prairie Crossing Charter Renewal | Superintendent Koch thanked all of the members of the public who participated in public comment regarding the Prairie Crossing Charter School (PCCS) renewal. He thanked PCCS staff and administration for working diligently to provide Agency staff the information they requested, and he thanked ISBE staff who worked hard at analyzing the information to put together a recommendation. |
Dr. Koch noted that through discussion in the Education Policy Planning Committee, the Board asked that the motion be modified slightly to add additional components regarding fees and exit summaries that the agency will be collecting. The State Superintendent will review the collected information and, as needed, will bring any recommended actions to the State Board on an annual basis. Through this process the Board can be assured that terms of renewal are being evaluated. Dr. Koch noted that there are different timelines for the information being collected.

**Motion**

Dr. Fields moved that the State Board of Education approves the renewal of the charter for Prairie Crossing Charter School for five years, contingent on Prairie Crossing continuing to meet the conditions below throughout the term of the renewal. Further the Board authorizes the State Superintendent and General Counsel to further negotiate with Prairie Crossing the specific terms of the conditions prior to execution of the renewal agreement so that progress can be objectively measured.

Mr. Clark seconded the motion and it passed with a unanimous voice vote.

**CONDITIONS**

Considering all the factors stated above, it is recommended that PCCS be renewed for up to five years contingent on the following items being required in their renewal contract:

i) **Governance:**
   (1) Minutes from meetings must be posted on the PCCS website in accordance with OMA and once posted, the link to the minutes must be sent to ISBE

ii) **Financial:**
   (1) The annual budget and end of school year financial report must be posted on the PCCS website and once posted the link must be sent to ISBE
   (2) The fees collected by PCCS are to be itemized and separated in the school’s annual audit.

iii) **Outreach/Transportation:**
   (1) No later than September 15 each year, PCCS must submit for review and approval to ISBE the following items:
      (a) Outreach materials (translated as much as possible into languages represented in the districts), such as flyers, press releases, newspaper ads, etc. Included in all materials must be references to:
         (i) How transportation is provided and how assistance will be provided if required, especially to low-income and at-risk pupils
         (ii) How fee waivers are determined and a description of the process to obtain them
         (iii) How appropriate services will be provided to Limited English Proficient students
         (iv) How services are available and provided for Special Education
      (b) Listing of when, where, and how the information will be distributed and the contact info for each entity that receives the information
Justification as to why these places were chosen and how this fulfils the outreach requirement to reach the entire geographic and demographics areas of both districts.

(2) By April 1 of each year, PCCS will provide a report summarizing the applicant pool by district and the results of the lottery and comparing these results to their student enrollment demographics. The data from this report is to be used by PCCS to modify, as needed, the outreach activities for the next school year to ensure that efforts are being made to reach all students and families of both feeder districts.

iv) Fees:
PCCS shall demonstrate that any and all fees are comparable to those fees charged by the Fremont and Woodland school districts, and that fee waivers are offered as appropriate.

v) Exit Summaries
Provision to ISBE of all exit interview summaries.

MINUTES OF THE FEBRUARY FINANCE AND AUDIT COMMITTEE MEETING
Motion:
Dr. Fields moved that the minutes of the February Finance and Audit Committee be accepted. Ms. Karon seconded the motion. The motion passed by unanimous voice vote.

COMMITTEE CONSENT AGENDA
Contracts & Grants over $1 Million

1.) *Principal Mentoring Program – Illinois Principals Association Contract Amendments* (Patrick Murphy)

2.) *World-Class Innovations in Developing Assessment (WIDA) Consortium Memorandum of Understanding (ACCESS for ELLs®)* (Joyce Zurkowski)

3.) *Measurement Incorporated – ISAT Writing Contract* (Joyce Zurkowski)

   Dr. Koch stated that he received a letter from a couple of legislators about this contract and that there was discussion from a couple of members that we might see legislation to remove the ISAT Writing Assessment. However, Superintendent Koch indicated that Illinois ranks fairly high with writing proficiencies compared to other states.

4.) *State Career & Technical Education Improvement & Agriculture Education* (Mark Williams)

All items were recommended for consideration in the March plenary session.
REVIEW ANNUAL FINANCIAL PROFILE

Ms. Mitchell stated that the bound Annual Financial Report (AFR) includes a detailed analyses document. Ms. Mitchell indicated that the staff would prepare a list of the “financial watch” districts so the Board would be able to readily see the information.

The financial profile for each school district was prepared this year both with and then without taking into account late payments from the State. The Agency is using as the official financial profile the methodology that took into account the late payments from the State and is introducing legislation to, both retroactive to this profile and moving forward, require the late payments from the State be taken into account.

FY10 BUDGET UPDATE

Ms. Mitchell stated that Superintendent Koch has met with the House on two occasions since the last board meeting. She stated that the questions centered on funding issues related to Hold Harmless, Special Ed and Bilingual. One of the meetings included testimony from the Comptroller’s Office regarding the backlog in payments.

Dr. Koch spoke regarding the American Recovery and Reinvestment Act, explaining that there are three separate pots of federal dollars:

1. Fiscal stabilization funds, for which the Governor’s Office must apply (this amount to approximately $2 billion).
2. Formula funds such as IDEA and Title I.
3. Competitive grants that states will be able to apply for later.

COMMITTEE AGENDA PLANNING AND ADDITIONAL ITEMS

Contracts and Grants over $1M, FY10 Budget update, FY08 Financial Compliance Audit and Special Education expenditures and receipts report.

COMMITTEE WRAP-UP

Dr. Koch summarized the meeting, indicating that the Board reviewed Contracts and Grants over $1M, the financial profile, budget update and General Assembly hearings. The Board also discussed the backlog of payments at the Comptroller’s Office, the favorable reviews from legislators regarding our appropriations testimony and the Board’s approach to the budget process. The Board also heard an update on the stimulus dollars.

Dr. Fields moved for adjournment of the Finance and Audit Committee of the Whole. Dr. Ward seconded the motion, and it passed by unanimously.

1. ROLL CALL
See above.

2. PUBLIC PARTICIPATION
Jack Weust from the Alternative Schools Network spoke on SB 1796. Mr. Weust commented that if this bill is passed with an effective date of July 1, 2009, Illinois would have the most comprehensive plan in the country to address the issue of high school dropouts. Mr. Weust stated that this bill has the support of the community colleges and many legislators.

3. MINUTES OF THE JANUARY COMMITTEE MEETING
Board member Dean Clark made a motion to approve the February Committee meeting minutes and Lanita Koster seconded the motion. The minutes were approved with a unanimous voice vote.

4. LEGISLATIVE UPDATE
Staff informed the Committee that April 3 was the next deadline for the third reading of same chamber bills. Governmental Relations staff gave the Committee a status update on the following education-related legislation that ISBE is tracking.

- **HB 2676:** This bill, sponsored by Representative Eddy, would consolidate provisions for Financial Oversight Panels and School Finance Authorities to create a new Financial Oversight Panel with the combined powers of the three current entities. This bill passed out of the House Elementary and Secondary Education Committee.

- **SB 1828:** This bill creates the Illinois Longitudinal Data System (ILDS), which will allow for critical integration of ISBE student-level data collection systems with student-level data from other parts of the agency and establish the technical and management systems necessary for ISBE and its education partners to manage, link and analyze P-20 education data. This bill passed out of the Senate Education Committee.

- **HB 4322:** This bill, sponsored by Representative Reis, will allow appropriation transfers between General State Aid and General State Aid – Hold Harmless. This bill has been assigned to the Executive Committee and is currently not moving at this time.
- **HB 65:** This bill creates the State Employment Application Act. It will provide that an application for State employment may not contain any question as to whether the applicant was convicted of or placed on supervision for a non-violent criminal offense. The application must contain a question as to whether the applicant for State employment has ever been convicted of a violent offense that is classified as a felony. ISBE opposed this legislation and it failed to receive the requisite number of necessary votes on third reading.

- **HB 374:** This bill creates the Abusive Work Environment Act, which defines “abusive conduct” as conduct of an employer or employee in the workplace, with malice, that a reasonable person would find hostile, offensive, and unrelated to an employer’s legitimate business interests. Abusive work environment is further defined as a workplace where an employee is subjected to abusive conduct so severe that it causes physical or psychological harm to the employee. ISBE has expressed its concerns regarding the court system being prepared to handle this legislation if it was passed. There is no definition of employer in this legislation so any employer would be subject to these provisions, including state agencies, school districts and ROEs.

- **SB 2270, HB 2235 and HB 3771:** These bills would require school districts to variations of salary and benefit information to ISBE, itemized by certificated employee. Each bill requires the submission of different information and different reporting by ISBE.

- **HB 3980:** This bill amends the Illinois State Auditing Act. It provides that if when the Auditor General conducts a performance audit, which includes a program audit and a management or economy and efficiency audit, and determines that an assessment of specified performance factors indicates a significant deficient in program performance, the Auditor General, in conjunction with JCAR, may impose up to a $50,000 fine on any employee(s) responsible for that deficiency. ISBE is opposed to this bill, which has been assigned to the State Government Administration Committee.

- **HB 481:** This bill establishes the Illinois Charter Public School Commission as an independent, State-level, charter school authorizing entity. The Commission would have the ability to monitor and approve charter schools without local school district participation. ISBE has opposed this legislation for several reasons, including a need for local district participation in the process.

- **HB 618:** This bill creates the Lottery Supports Schools Fund. It requires ISBE to distribute lottery funds to school districts based on the amount of sales within the district. ISBE’s concern is that unless you either lower the appropriation for school districts by an appropriate amount (approximately $600M) or you backfill it some other way, you will have a loss in the overall dollar amount for education. Rep. Ford has added an amendment that says this would not be done until ISBE certifies to the Secretary of State and the Department of Revenue that a sufficient new appropriation has been made. This bill has passed out of the Committee on a partisan roll call vote.

- **HB 744:** This bill is an initiative of Representative Kathy Ryg. She has introduced this initiative previously. It stems from a report from the Metropolitan Mayor’s Caucus. The bill makes changes regarding a district’s account audit, the removal of school board members, the interest of a district’s general counsel in contracts, the adoption by a
school board of a formal, written financial policy, the development by a school board of a long-term financial plan and a 5-year capital improvement plan, the inclusion of a user-friendly executive summary as part of a district’s budget, the inclusion of certain items in the full budget document, school board training on financial oversight, accountability, and fiduciary responsibilities, and the establishment of an Education Inspector General. ISBE’s opposition stems from the creation of an Education Inspector General, primarily because of the potential for overlapping of duties.

- **HB 2291**: This bill, which also has an identical bill in the Senate (SB 1645) states that each school board shall require an annual assessment of physical fitness levels of all students in grades 5, 7, and 9. This information must be reported to ISBE and included on the school and district report cards by gender and grade level. ISBE staff has opposed this bill both for financial reasons and staffing concerns. The estimated cost for developing this new assessment is $4 million for the development, infrastructure and staffing needs. The Senate bill was held in committee for cost and the House version got out of the Committee with a promise from the sponsor that the bill would be amended to be subject to appropriation.

- **HB 2448**: This legislation allows a school district, by resolution of its school board, to establish a remote educational program. It defines “remote educational program” as an educational program delivered to students in the home or other location outside of a school building that meets specified criteria. It will provide that days of attendance by students in a remote educational program may be claimed by the school district and shall be counted for general State aid purposes in accordance with the State aid formula provisions of the Code. ISBE’s main opposition to this bill is the lack of development in the bill. Individuals pushing this initiative have been working on an amendment to try and address some of these issues.

- **SB 2277**: This bill amends the School Code and requires the State Board of Education to create a task force to study the impact of carrying and transporting student textbooks on the health of Illinois students. The task force is charged with making recommendations as to any alternatives that may exist or could be created to the standard textbook format. ISBE opposed this initiative, but it passed out of the Committee unanimously.

- **SB1882**: This bill establishes a task force on Streamlining Illinois’ Educational Delivery Systems. It requires the task force to explore and examine all duties of ISBE and ROEs in order to determine which duties and responsibilities could more appropriately and efficiently be delivered to school districts by the ROE.

- **SB1796**: This bill establishes the Illinois Hope and Opportunity Pathways through Education (IHOPE) Program to develop a system to re-enroll high school dropouts in programs in order to earn a high school diploma. This bill passed out of the Senate Education committee and staff has been reviewing it to propose suggested language.

5. **ADJOURN**

Board member Dr. Hall made the motion to adjourn the Committee. Dr. Fields seconded the motion.

4. APPROVAL OF MINUTES
   David Fields moved approval of the minutes of the Committee’s meeting of February 19, 2009, and Dean Clark seconded the motion. It was adopted unanimously, and the minutes were approved as presented.

5. RULES FOR INITIAL REVIEW
   The Chairman turned the meeting over to General Counsel Darren Reisberg, who stated that just one set of rules was being presented for initial review. He noted that the amendments to Part 575 (School Technology Program) represented technical clean-up only. The revisions involved were similar to other updates to cross-references that had been undertaken recently. The Board members had no questions regarding this rulemaking.

6. COMMITTEE AGENDA PLANNING/ADDITIONAL ITEMS
   Darren Reisberg indicated that a considerable volume of rules would be coming forward for review at the April meeting. He highlighted a comprehensive set of amendments to Part 25 (Certification) in which two divisions and numerous staff members had been involved and complimented the thorough work that had been done. He also stated that a new set of rules would be presented to cover the policies and requirements that apply to the voluntary recognition of nonpublic schools. Clear guidance on these matters would be of particular importance because the nonpublic schools had recently become eligible to receive certain public funding.
