**BREAK**

Mr. Baumann commented that Article X, Section 1 of the Illinois State Constitution states in part, “The State has the primary responsibility for financing the system of public education.”

Mr. Baumann moved that the Illinois State Board of Education hereby recommends an increase of $729.9 Million (10.7%) in General Funds appropriations for FY 2016. The increase will provide a sufficient appropriation to fund General State Aid at the Statutory Foundation Level of $6,119, which is $286 less than the FY 2006 Education Fund Advisory Board Recommended Foundation level and is $2,780 less than the recommended Foundation Level of $8,899. He further moved that the Illinois State Board of Education hereby authorizes the State Superintendent to make changes to the “Other State Funds” and “Federal Funds” as appropriate pending actions during the legislative session. The full recommendation for the FY 2016 State Board of Education Budget is outlined in the budget handout dated January 21, 2015.

Dr. Fields seconded the motion and it passed with a unanimous roll call vote.

The following motions were approved by action taken in the consent agenda motion.

**Rules for Initial Review**

**Part 650 (Charter Schools)**

This rulemaking responds to two recently enacted public acts. P.A. 98-783, effective January 1, 2015, adds Section 27A-10.10 to the School Code, which addresses the procedures for the disposition of unspent public funds and other property and assets at the time that a charter school closes. P.A. 98-1048, effective August 25, 2014, amended Section 27A-6(e) of the School Code regarding material revisions to a certified charter school contract.

The State Board of Education hereby authorizes solicitation of public comment on the proposed rulemaking for Charter Schools (23 Illinois Administrative Code 650), including publication of the proposed amendments in the Illinois Register.

**Part 1105 (Procurement by the State Board of Education)**

As a result of statutory changes in the Illinois Procurement Code and an informal opinion of the Illinois Attorney General, the State Board of Education is now under the Chief Procurement Officer for General Services for purposes of procurement, necessitating the repeal of Part 1105.

The State Board of Education hereby authorizes solicitation of public comment on the proposed rulemaking for Parts 650 and 1105, including publication of the proposed amendments in the Illinois Register.

**Rules for Adoption**

**Part 30 (Programs for the Preparation of Principals in Illinois)**

Section 30.70(a) (Candidate Selection) currently limits enrollment in principal preparation programs to only individuals holding professional educator licenses with teaching endorsements. To address the concerns of school support personnel who had been contemplating becoming principals, P.A. 98-917, effective August 15, 2014, provides additional opportunities for school support personnel to enter and complete principal preparation programs by June 30, 2019. Changes in Section 30.70 acknowledge the anticipated participation of school support personnel by modifying admission requirements, including the evidence of experience that these educators would present when applying for principal preparation programs. A technical change was made in Section 30.80 (Program Approval and Review) to include reference to the new superintendent endorsement, the requirements for which are set forth in 23 Ill. Adm. Code 25.355 (Educator Licensure). No public comment was received, although a change was made in response to statutory changes effective December 31, 2014, regarding out-of-state educator experience.

The State Board of Education adopted the proposed rulemakings for Parts 30, including changes made in response to recently enacted legislation, and authorized the State Superintendent of Education to make such technical and non-substantive changes as the State Superintendent may deem necessary in response to suggestions or objections of the Joint Committee on Administrative Rules.
Part 5001 (Access to Information of the State Board of Education under the Freedom of Information Act)
P.A. 98-1129, effective December 3, 2014, made several changes in the Illinois Freedom of Information Act (FOIA) that affect the agency’s rules governing FOIA requests. The proposed changes align the rules to FOIA, acknowledging the special consideration afforded to requests that are considered to be "voluminous" under new Section 3.6 of FOIA (see Section 5001.300 of the rules). The rules also recognize the responsibility of the agency under new Section 8.5 of FOIA to provide records that it has posted online, if the person requesting the records is unable to access them (see Section 5001.210 of the rules).

The State Board of Education adopted the rulemaking for Part 5001, which will become effective upon filing with the Administrative Code Division of the Secretary of State.

LEGISLATIVE UPDATE

Nicki Bazer gave a brief description of bills that have been introduced in the General Assembly for the Spring Legislative Session.

CPS DISCUSSION

Superintendent Koch led a discussion on the ongoing conversation with Chicago Public Schools and their decision to test only a fraction of their students with the Partnership for the Assessment of Readiness for College and Careers (PARCC). The Board discussed their concerns with the district not participating in this assessment and the statewide impact it will have on the collection of data, the NCLB waiver and potential loss of federal funds for all Illinois districts, as well as, the precedent it could set. The Board was in agreement that if CPS does not indicate intent to participate in PARCC to the full extent as required by law, strong and swift sanctions would need to be handed down. Among sanctions the Board discussed was possible loss of recognition of the district. Chairman Meeks indicated the need for continued discussion with CPS so that they fully understand the statewide implications of their actions as well as the sanctions that would be required of the state to impose on the district in the event they refuse to assess students as required by law.

EXECUTIVE ORDERS BY THE GOVERNOR

Robert Wolfe briefly explained the Executive Order that Governor Rauner announced with regard to contract and grants. Nicki Bazer also gave a brief explanation of the Executive Order concerning ethics. The Board questioned the applicability of the Executive Orders to the agency and indicated a desire to cooperate in some way for a limited time. Chairman Meeks suggested clarification be sought from the Governor’s staff regarding the applicability of these orders to the agency.
