Christine,

Can you please forward me the e-mail that you received back from the district with the corrections to the budget? I am still very concerned that changes were made to the budget form that our District Office did not make. Also, can you send a copy of the e-mail that was sent back to the district from the State Board of Education?

Thanks,
Bob

Christine – I am receiving emails from a Karen Siston, she’s wanting all correspondence regarding this matter if you want you can forward it to her but I am not forwarding the districts information out.

Thanks,
Christine

Christine,

Do you know when that was sent back and to who? I am not aware that this document came back to the district.

Thanks,
Bob

Bob – I am not sure about the budget summary, but the cash summary I do know was sent back to the district due to the numerous negative beginning and ending cash balances. These balances need to be positive or zero in order to be processed and displayed by ISBE and are corrected by borrowing from other funds to cover the deficits. This is what was sent back, the balancing...
Due to the discrepancy with your board and ISBE’s website, the budget has been taken down. I was told that you will need to correct all those negative balances and take it back to the board for approval. Once that is done it will need to be submitted to ISBE.

Sincerely,
Christine

Christine,

I received your e-mail indicating that the Lemont-Bromberek CSD 113A budget was received by the State Board of Education on October 2, 2009. I inspected the document that is displayed on the State web site and it appears that the Budget Summary Page is different than the document that I forwarded to you. Can you please explain to me how this happened and why? Thank you for looking into this issue for me.

Sincerely,
Bob Beckwith
