Mr. Wancket,

My name is Jennifer Turnbow and I am a school psychology student at Eastern Illinois University. I was instructed to contact you for information to complete my thesis. I am conducting a case study exploring the trends in LD eligibility practices throughout the past 20 years. As part of my study, I would like to compare the prevalence rates in my target schools to the state rates. I am employed by Livingston County Special Services Unit and I have been focusing on the schools within Livingston County.

LCSSU currently has 11 member districts: Woodland #5, Tri-Point #6J, Prairie Central #8, Flanagan-Cornell #74, Pontiac #90, Dwight #230, Dwight #232, Rooks Creek #425, Cornell #426, Odell #435, and Saunemin #438. Pontiac #429 left the cooperative after the 2008-2009 school year, but I would like to include them in my data.

For the purposes of my study, I would like to have the number of LD students in each of the aforementioned districts for the years 1990-2010 (or most current). I also need the total number of special education students for each of those schools during each of the specified years.

If it is available, it would be helpful to have the total enrollment of each school. For comparison, I would like each of those figures for the entire state.

Thank you for your time. I appreciate your assistance. If you have any questions or need further clarification, please contact me at jturnbow@lcusu.org.

Sincerely,
Jennifer Turnbow
