Christopher Koch,

Hello. I am writing to you with a request for information. I would like to request a comprehensive list of all textbooks utilized in the present and past in all classrooms of all schools in the state of Illinois since 1818 as well as their digitized contents.

A conversation with the Department of Education indicated that contacting the chief state school officers of each state would benefit our endeavor to obtain this data which has many benefits to the science and society of the United States. The data shall be of use to didactics, historiography, cognitive science, linguistics, computational linguistics, as well as other fields and multidisciplinary studies.

I thank you for any assistance in this matter which intends to culminate with the composited data from each of the states of the union available online to the people.

Sincerely,

Adam Sobieski
