Rec’d 4/9/2012

This is a separate request that is supplemental to the FOIA request I made Friday (and modified today). Both relate to students who receive accommodations to take the ACT on Day 1 of the Prairie State Achievement Examination.

Please provide:
/ The total number of students, by year, who took the ACT with accommodations on Day 1 of the PSAE, over all years that the ACT has been administered as part of the PSAE. (I believe the ACT became part of the PSAE in 2001? so the state should have at least 10 years of data).
/ The total number of students who took the ACT on Day 1 of the PSAE, each year, over the same period of time.
