Hi,
My heat # was 656808

I am requesting information using the freedom of Information Act.

Please sent me information about the # of students with IEPs who also receive ELL services. I would prefer information from Niles Township high schools, but any Illinois data would work. Can I please know what category of disability the students are in. I can see on district report cards the number of students who have IEPs and the number of students who receive ELL services, but cannot tell how many students receive both.

Thank You,
Liz Sylvia
