Dear Ms. Simhauser,

I truly appreciate your attention to this matter.

Through the Freedom of Information Act, I am requesting the following information from the Illinois State Board of Education for the 2011-2012 school year. I am seeking the most recent up to date information you have, hopefully as of December 1st, 2012.

1. A numerical list of all students served in the Chicago Public School (CPS) SES program. Please divide this list by provider, including AIM HIGH. I am most interested in total numbers as opposed to actual student names. The list should only include data for students who actually attended SES classes during the 2011–2012 school year.

2. The attendance percentage for each provider’s program in CPS, including AIM HIGH. (For example, if provider x had 100 students actually being served this school year, did those 100 students attend 70%, 71%, etc..., or some other % of the time?)

3. The total number of hours served for the above (all providers working in CPS, including Aim High)

4. The hourly rate for each (all providers working in CPS, including Aim High)

5. The total number of SES students served in CPS for the 2011–2012 school year (all providers working in CPS, including Aim High)

6. The total dollar amount CPS spent on SES for the 2011-2012 school year.
If you have any questions or if any of my requests are not clear, please email me or call me at 847-494-1990.

Sincerely,

Jim Giovannini
