Hi Mary, Amanda,
Can you tell me if any certification action, including suspension, has been taken against educator Susan S. Battersby? She was originally certified in May of 2008, according to ISBE’s online certification database. If any action was taken of any kind, can I please get any and all records related to the case/cases? In addition, I’d like to know of any complaints or investigations of Ms. Battersby, whether or not certification action resulted.
Ms. Battersby was hired as a certified teacher in Westchester SD 92-5 and began in August 2008. She submitted a letter of resignation in March 2009 and left the district in June 2009. The very next school year, she was hired as a noncertified employee in Riverside SD 96. She also got approval in August 2009 to be a state and NCLB approved paraprofessional.
There are no Teacher Service Record earnings for her in 2009-10. In 2010-11, she is once again listed as a certified teacher in Teacher Service Records, working in the Riverside district.
If necessary, please consider this email a FOIA request.
Diane
