Dr. Christopher Koch  
State Superintendent  
Illinois State Board of Education  
100 N. 1st Street  
Springfield, IL 62777

Dear Superintendent Koch:

I am conducting a nationwide survey of State Departments of Education regarding school health regulations and am requesting your assistance. Specifically, I am interested in identifying what physical/mental health examinations/screens are required by each of the State Departments of Education to be documented in student’s files (1) to gain admission to their State’s public school system and (2) to maintain matriculation throughout his/her school years.

If you could provide that information to me with regard to Illinois, I would be most appreciative. If that information is available online and you could provide me with a specific link to it, I would appreciate that as well.

Many thanks for your assistance in this project. In return for your efforts, and if you wish, I would be happy to send you a summary of the information I obtain from the other State Departments of Education.

Yours truly,

[Signature]

Jesse J. Tepper, Ph.D.
