Rec'd 4/23/2014

Dear Megan Griffin,

This request is per the **Freedom of Information Act** posted at:  

We are an early stage startup that explores an opportunity to provide an educational (K to 12) insight to parents.

We would like to request in electronic format (CSV), a set of raw data files from the State of Illinois pertaining to all information after the year 2010 or at whichever year electronic records are available, for the history of all final grades issued for each class in each school. This data would ideally include School District, School, Class Code, Class Name, Anonymized Teacher ID, Anonymized Student ID (no names in order to protect identity), grade given for the course, grade level K-12, session of the class (Q1/Q2/Q3/Q4) and year of the class, subject categories if available (science, math, english, arts, pe, etc.).

We have created a detailed spec and sample csv files to display how we ideally would like this data to be formatted and to make it easier for your programmer to understand what the requirements are.

Please let me know if this available in this format and if there is anything else I can do to provide additional information to help fulfill this public information request.

Thank you!

Ronen Naor
