Rec'd 8/23/2013

Mary,
You stated in a prior email: 
Specifically, the language in the bill (which became PA-431) requires a district superintendent to notify both the State Superintendent and Regional Superintendent if he has reasonable cause to believe that an individual has committed an intentional act of abuse or neglect as such as defined in Section 3 of the Abused and Neglected Child Reporting Act and that such misconduct has resulted in his resignation or termination.

Please provide all such notifications received by ISBE/the State Superintendent from school district superintendents in Illinois since PA-431 became law.
This email will serve as FOIA.
