Most of the information you have requested may be accessed through Teacher Service Record data available at http://isbe.net/research/htmls/teacher_service_record.htm.

The most current information available is for the 2011-2012 school year. Open the Excel file labeled “Full Public Data Set.” The data you seek is listed in several columns:

- Column C – Identifies the school district name
- Column D – Identifies the district address
- Column J – Identifies the school building name
- Column K – Identifies the school building address
- Column P – Identifies staff member’s last name
- Column Q – Identifies staff member’s first name
- Column AP – Indicates position description

Please note that our agency does not collect teacher’s school e-mail addresses and that their personal e-mail addresses are considered private information and are exempt from disclosure pursuant to 5 ILCS 140/7 (1) (b).

Additional contact information for school buildings is available in our Directory of Educational Entities posted at http://www.isbe.net/research/htmls/directories.htm.

The link at the top of the page leads to a directory that’s updated nightly and provides a master directory of all public and non-public entities that provide direct services to K-12 students in Illinois. It includes contact information (address and telephone number), grade
levels served and legislative districts for private and public Schools, public districts and other public units.

If you have questions, please contact Amanda Simhauser at (217) 782-4648 or asimhaus@isbe.net.

Sincerely,
