Rec’d 8/11/2014

Hello Mr. Gibbs,

I am contacting you from the Goldwater Institute in Arizona. We are a nonprofit think tank, and our education division is doing a comparison of the Arizona Department of Education with various others around the nation. The Institute is hoping you or a colleague can provide a list of positions within your department, their corresponding salaries, the majority funding source (state or federal) for said salary, and what percent of funding that source represents for the position.

I realize you may not be able to provide me with this data, but I am hoping you can point me in the right direction. If there is any other information you need or any questions you have, please let me know.

Thanks for your help!

Ashley Colburn
