Dear Megan Griffin,

This letter is to request special education school level data for all schools that belong to Chicago public schools (SD 299) for the year 2013-2014. Last year your team sent us these data for prior school years. The present request will provide us with updated data.

We are requesting the following variables for all CPS schools for the school year 2012-2013. We ask that that cells with less than 10 will be marked with an * and cells whose actual value is 0 be identify with a 0. We also ask that all schools be identified with their name AND RCDTS number.

TOTAL number of IEPs in each school

Total Number of IEPs by disability category in each school

Total Number of IEPs by racial category in each school

Thanks for your help,

Regards,
