Hello,

I am a part of the Farm to School program, in which we are trying to bring more locally grown foods into schools around the nation. We are conducting a food procurement survey and wish to send it to all of the School Food Service directors of each school district. I was wondering if you could provide a list of Food Service directors in Illinois and their contact information so we that we could contact them about our survey.

Thank You,
Joanna Lloyd
Farm to School Research Intern
