From: Christopher A. Koch, Ed.D.
State Superintendent of Education

Date: July 11, 2012

Subject: Report on Radon Test Results in Illinois Public Schools

Pursuant to Sections 10-20.48 and 34-18.39 of the Illinois School Code, the Illinois State Board of Education (ISBE) is submitting this report containing radon test results taken from Illinois school districts. It is recommended that every occupied school building of the school district be tested every five years for radon, pursuant to rules established by the Illinois Emergency Management Agency (IEMA). The school district shall report radon test results to the State Board of Education, which shall prepare a report every two years of the results from all schools that have performed tests. A copy of the initial test results and follow-up test results, of districts that have performed testing, is attached. These results have been provided by IEMA through the School Radon Screening Program.

Should you have any questions regarding this report, please contact Deborah Vespa, Division Administrator, School Business Services, at 217/785-8779 or dvespa@isbe.net.
