Reason for No Valid Test Attempt (RNVTA)

- Updated for IAR, SAT, PSAT 10, PSAT 8/9, and DLM-AA: www.isbe.net/Documents/reason-no-valid-test-attmpt.pdf
- Enter the RNVTA codes **in SIS** for students after your test window has ended for any student who was enrolled during any part of your test window but did not test.
- RNVTA codes are **not** captured in any of the test vendors' systems.
- If a test score is generated for a student, the RNVTA code will be removed when scores are posted in the summer.

Reason for No Valid Test Attempt (RNVTA)

Retired RNVTA Codes			
Code	**Value**	**Description**	**Notes**
05	Not Enrolled (Retired)	Student was not enrolled during the local testing window (exited prior to the start of the local testing window).	Edit the exit date in the SIS enrollment record to remove the student from the correction report. If the student was enrolled during the local testing window but transferred out before having the opportunity to test or transferred in too late for testing to be feasible, use RNVTA code 07 or 08, as applicable.
06	Not In Valid Grade or Course (Retired)	Student was erroneously classified during the time of testing as being in a grade in which a state assessment is given. This code also applies to records with the incorrect test identified (i.e., shows IAR or SAT but should be DLM-AA or vice versa).	Edit the grade in the SIS enrollment record to remove the student from the correction report or move the student to the correct assessment, as applicable.

Reason for No Valid Test Attempt (RNVTA)

District-Applied RNVTA Codes

Code	Value	Description	Notes
01	Medically Exempt	Student (a) was hospitalized because of medical emergencies or procedures (e.g., because of a motor vehicle or other type of accident, surgery, psychiatric emergency) during the time of testing or (b) was participating in residential programs that provide psychological treatment or treatment for drug or alcohol abuse during the time of testing and it was not feasible to schedule makeup testing (contact ISBE for guidance in determining feasibility).	Student is excluded from participation and proficiency calculations.
02	Homebound	Student was homebound during the time of testing, and it was not feasible or appropriate for the student to be tested due to their medical condition.	Student is excluded from participation and proficiency calculations.
03	In Jail/Locked Facility	Student was in jail or a locked facility during the time of testing and it was not feasible to schedule makeup testing (contact ISBE for guidance in determining feasibility).	Student is excluded from participation and proficiency calculations.
04	Out of State/Country	Student was residing in or attending a facility located out-of-state or out-of-country during the time of testing. This includes any Illinois student in a foreign exchange program.	Student is excluded from participation and proficiency calculations.

Reason for No Valid Test Attempt (RNVTA)

District-Applied RNVTA Codes

Code	Value	Description	Notes
07	Transferred Out Prior to Testing	Student transferred out (exited) prior to the end of the local testing window but had not started testing.	Student is excluded from participation and proficiency calculations.
08	Transferred In After Test Administration	Student transferred in (enrolled) during the local testing window after starting or completing testing at his/her previous school. This code also applies to students who transfer in during the local test administration window too late for testing to be feasible (contact ISBE for guidance in determining feasibility).	Student is excluded from participation and proficiency calculations.
09	Deceased	Student died prior to testing or during the time of testing.	Student is excluded from participation and proficiency calculations.
10	Absent from Testing	Student should have tested, and other definitions do not apply.	Use of this code will affect participation and may affect proficiency rates.
15	Refusal but Present to Test	For IAR, student was presented with a test booklet or an online test ticket but refused to engage with the test. For DLM-AA, student was presented with testlet(s) but refused to engage with the test. For SAT, PSAT 10, or PSAT 8/9, student was presented with a test booklet but refused to engage with the test.	Use of this code will affect participation and may affect proficiency rates.

Reason for No Valid Test Attempt (RNVTA)

ISBE-Applied RNVTA Codes

Code	Value	Description	Notes
16	Part-Time Enrollment	This code applies to students who are enrolled only part-time in a public school and are homeschooled or attend a private school part-time. Students who are receiving instruction from the public school in a tested content area must participate in that content-area test. This code should be used for all other content-area tests in which the student is not receiving instruction from the public school.	Student is excluded from participation and proficiency calculations.
18	PSS-SIS Use Only	This not tested reason is applied automatically to any SIS enrollment record having YES for the Private School Student (PSS) Indicator. Districts may use code 16 for students whose Private School Student Indicator was erroneously set to NO.	Student is excluded from participation and proficiency calculations.
19	Reserved for Internal Use-SIS Use Only	This RNVTA is applied by Student Assessment in cases where participation credit should not be given.	Use of this code will affect participation and may affect proficiency rates.
21	Reserved for Internal Use-Scale Score for Content Area Exists in Another School	Student has scale score for the content area in another home school, so SIS applies code 21 automatically when the RNVTA is blank for the home school without the score.	Student is excluded from participation and proficiency calculations.

Reason for No Valid Test Attempt (RNVTA)

ISBE-Applied RNVTA Codes			
Code	**Value**	**Description**	**Notes**
22	Reserved for Internal Use-SIS Use Only	This RNVTA is applied by Student Assessment in cases when the student is excluded from participation and proficiency calculations.	Student is excluded from participation and proficiency calculations.
23	Reserved for Internal Use-SIS Use Only (First Year in U.S. School)	This RNVTA is applied by SIS after the data corrections window closes to a record having YES for the First Year in U.S. School Indicator. *Note: This is applied only to records with scores.*	Student is excluded from participation and proficiency calculations.
25	Reserved for Internal Use- Assessment Use Only (Grade 11 No Participation Credit)	This RNVTA is applied by Student Assessment to a grade 11 record in cases when participation credit should not be given (e.g., the student does not have a score or has a score that was invalidated by the College Board due to a misadministration). The student is not required to test if still enrolled in grade 12 in any subsequent year.	Use of this code will affect participation and may affect proficiency rates.

Reason for No Valid Test Attempt (RNVTA)

ISBE-Applied RNVTA Codes
(Grade 12 Records)

Code	Value	Description	Notes
50	Reserved for Internal Use SIS Use Only (Grade 12 Exempt- Programming)	This RNVTA is applied by SIS to a grade 12 record when evidence of a test exemption exists and was found by programming. The student is not required to test if still enrolled in grade 12 in any subsequent year. www.isbe.net/Documents/Grade_12_Testers_Flow_Chart_2019.pdf	Student is excluded from participation and proficiency calculations.
51	Reserved for Internal Use Assessment Use Only (Grade 12 Exempt- SIS Evidence)	This RNVTA is applied by Student Assessment to a grade 12 record when evidence a test exemption exists in a SIS enrollment record. ISA Students w/o Course Assignments

- ISBE will add students to your ISA roster using the following logic:
  - Enrollment home school is in our 2019 ISA organization list
  - Enrollment is for high school
  - Enrollment time intersects with ISA test window (3/1 – 4/30)
  - Enrollment is not flagged as erroneous
  - **Enrollment does not have course assignments associated with it (blank course assignment data)**
  - Student does not already exist in our current roster for 2019
  - Student does not have previous credit (same logic as our rostering)
  - Student does not have DLM-AA (same logic as our rostering)

- These students will require a RNVTA and may impact your participation rates.

DLM-AA

(DYNAMIC LEARNING MAPS-ALTERNATE ASSESSMENT)

DLM-AA: Correction Window

- DLM correction window is open in SIS.
- Any student who did not test will need to be given a reason for no valid test attempt.
- Serving schools **need** to communicate with the home district the reason for no valid test attempt for the student(s) who did not complete testing.
- Reason for no valid test attempt codes can be found on the provided link below:

  www.isbe.net/Documents/reason-no-valid-test-attmpt.pdf

DLM-AA: Corrections

- DLM-AA corrections report includes corrections and scores.
- Scores will be available in SIS on June 14.
- Home Districts will need to pull the DLM-AA Correction and Score Report to fix the error codes that will appear.
- Home Districts will also need to check for any unassigned records in SIS to fix the issues.

DLM-AA: Data Extract Reports

- Districts will need to download and save the following reports for reference:
  - Training Status report - this will be helpful to determine who will be taking returning or new training for next year.
  - DLM Test Administration Monitoring report - this report will be helpful to determine which students will need a reason for no valid test attempt during corrections.

DLM-AA: 1% Exception

- Preliminary data is being pulled to determine the districts who exceeded the 1%.
- Data will be compared to last year to determine if districts had increases, decreases, or stayed the same.
- Information regarding the 1% process will be provided in the next few weeks.

SAT Suite of Assessments Data Workshops

- The College Board, in partnership with the Illinois State Board of Education (ISBE), is excited to announce upcoming interactive workshops to be held in June 2019. These 2.5 hour workshops will enable educators to effectively understand the data from the PSAT 8/9, PSAT 10, and SAT School Day spring administration. The workshops will also engage participants in how to access the Online Score Reporting Portal and how to use the features of the portal to effectively utilize the data and reports.

- For more details including dates, times, and locations and to register, visit https://www.isbe.net/Pages/sat-psat.aspx and click the following link under "Presentations and Webinars."

June 2019: SAT Suite of Assessments Score Data Workshops

SAT/PSAT Correction

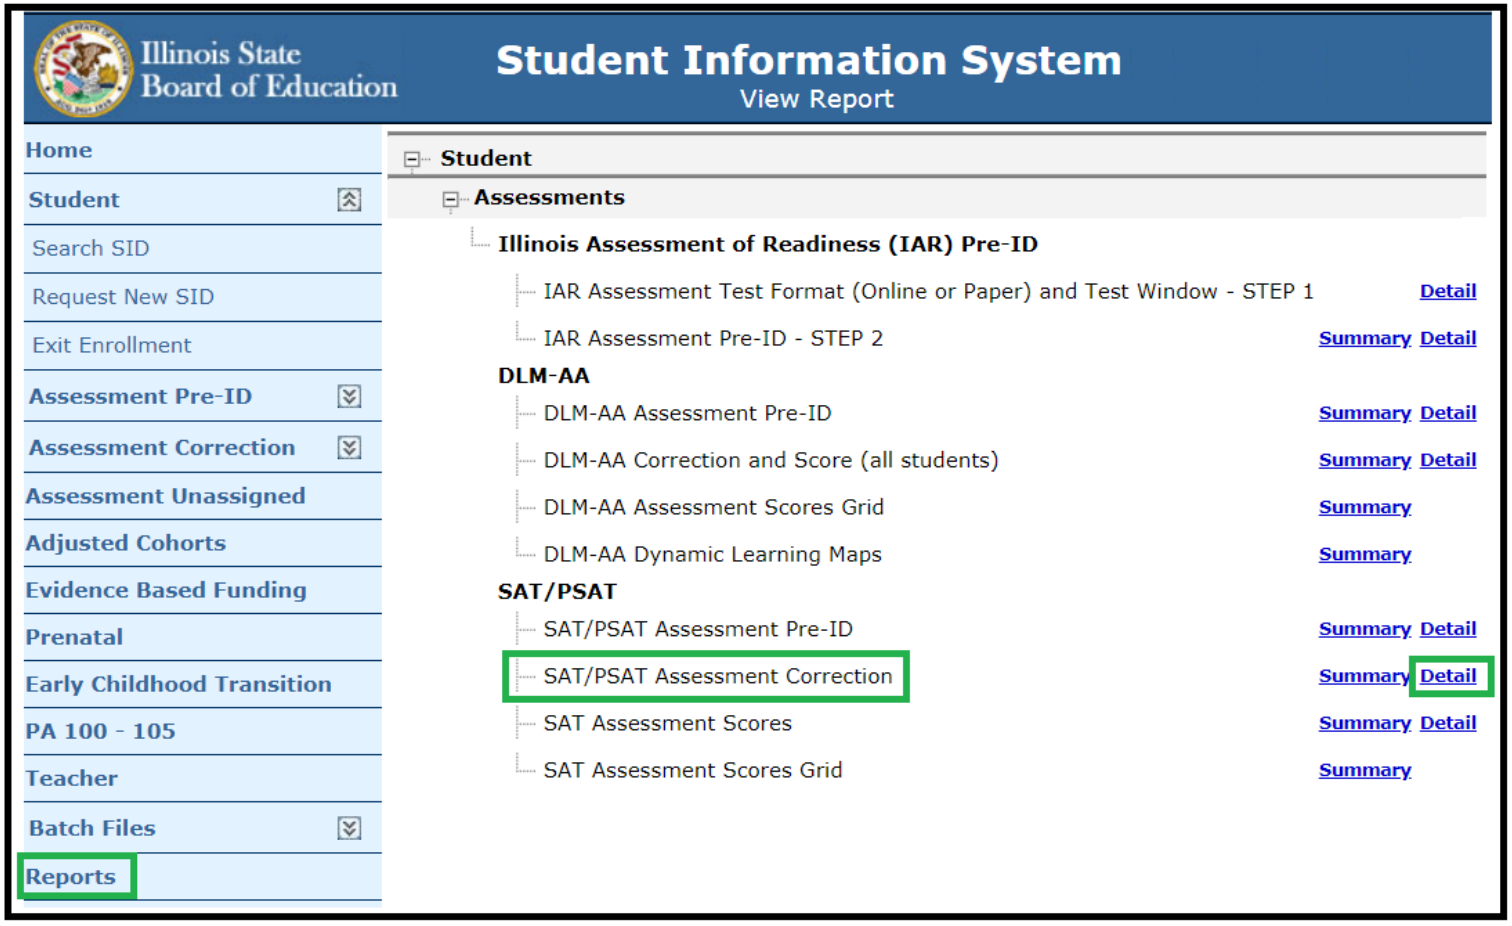
- A new document is posted to help guide your review: https://www.isbe.net/Documents/SAT-AC-Announcement.pdf

- Students are grouped on the SAT/PSAT Assessment Correction (Detail) Report by a combination of their Home School and Testing School. For most students, their Home School is the same as their Testing School.

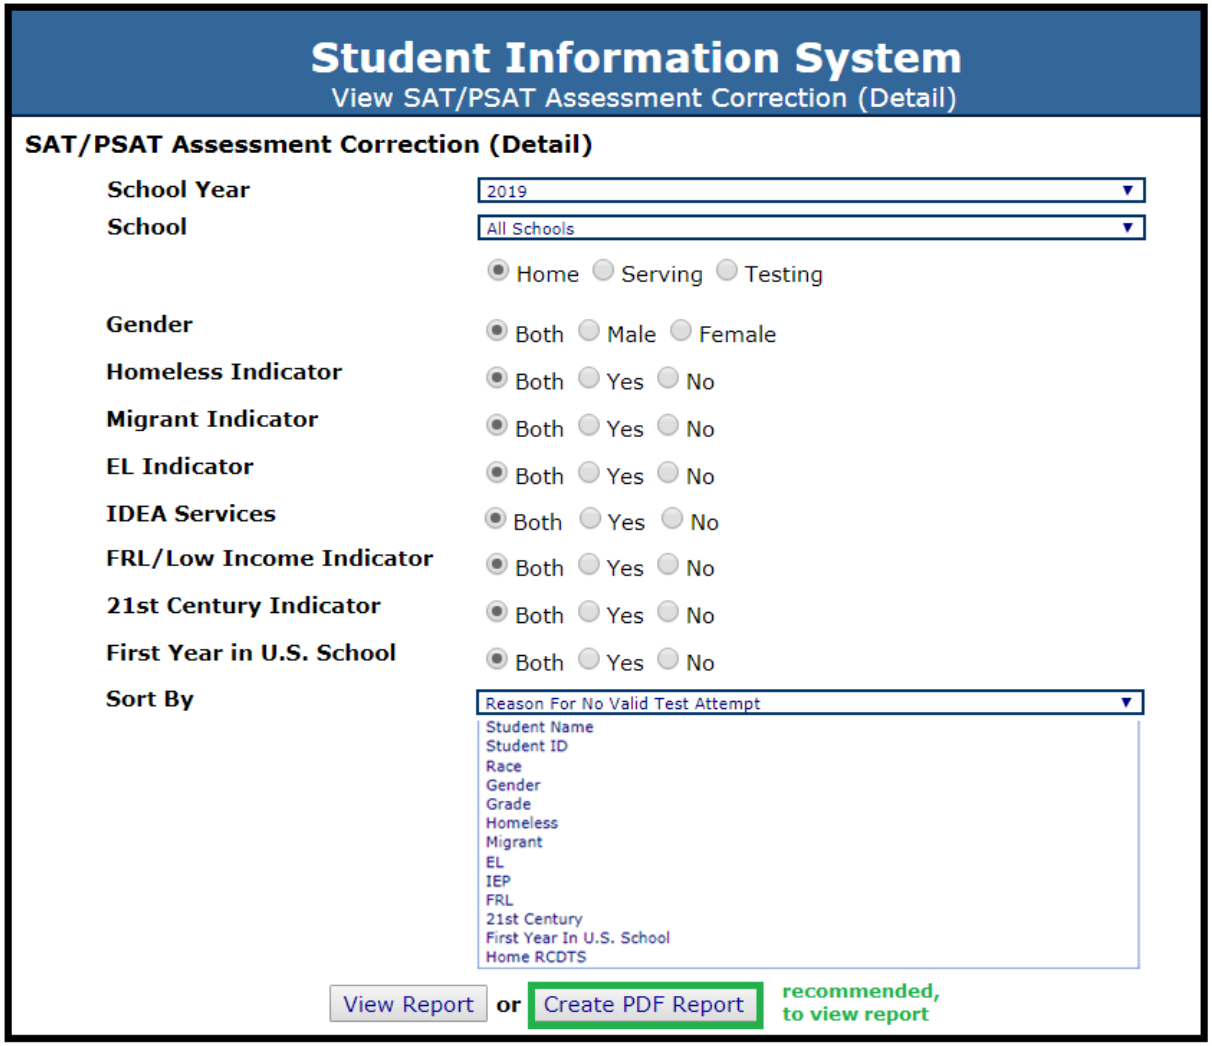
- Students in grades 9, 10, 11, and some in grade 12 are included in the Assessment Correction Report when the date of their SIS enrollment contains any date within the window from **April 9-23, 2019**, and they are not included on the DLM-AA Assessment Correction and Scores Report instead.

SAT/PSAT Correction (Detail)

- SAT/PSAT corrections opened in SIS April 10 and will close August 16. Do not wait until scores are posted in July to begin your review!



SAT/PSAT Correction (Detail)



View your SAT/PSAT Assessment Corrections (Detail) report, which will show students grouped by the combination of their home and testing schools.

SAT/PSAT Correction (Detail)

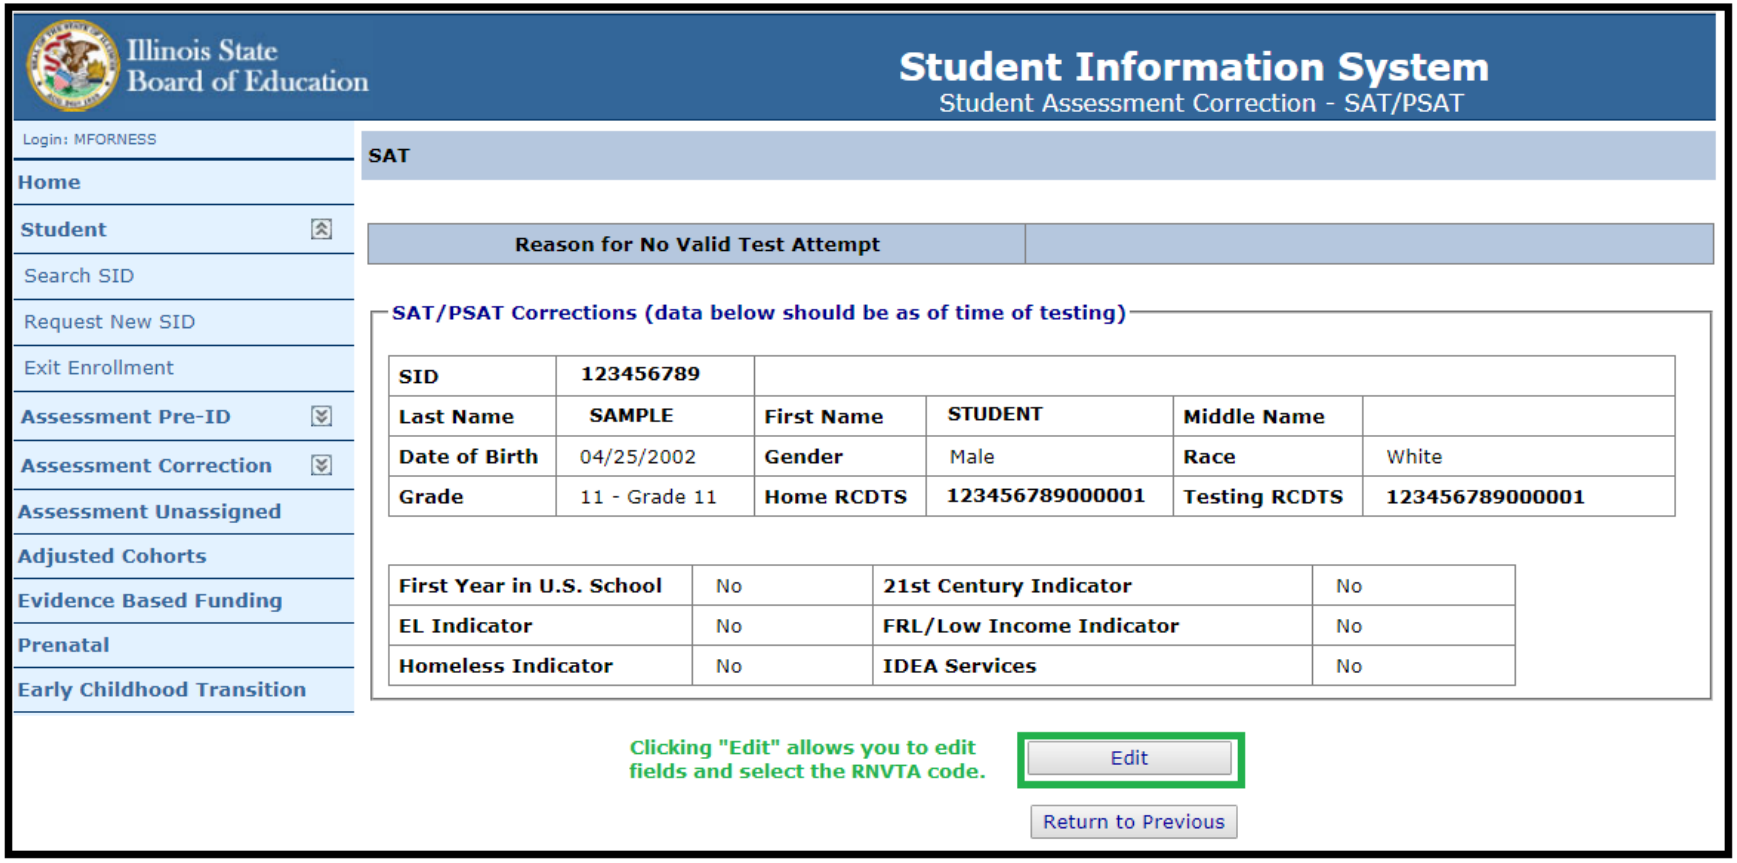
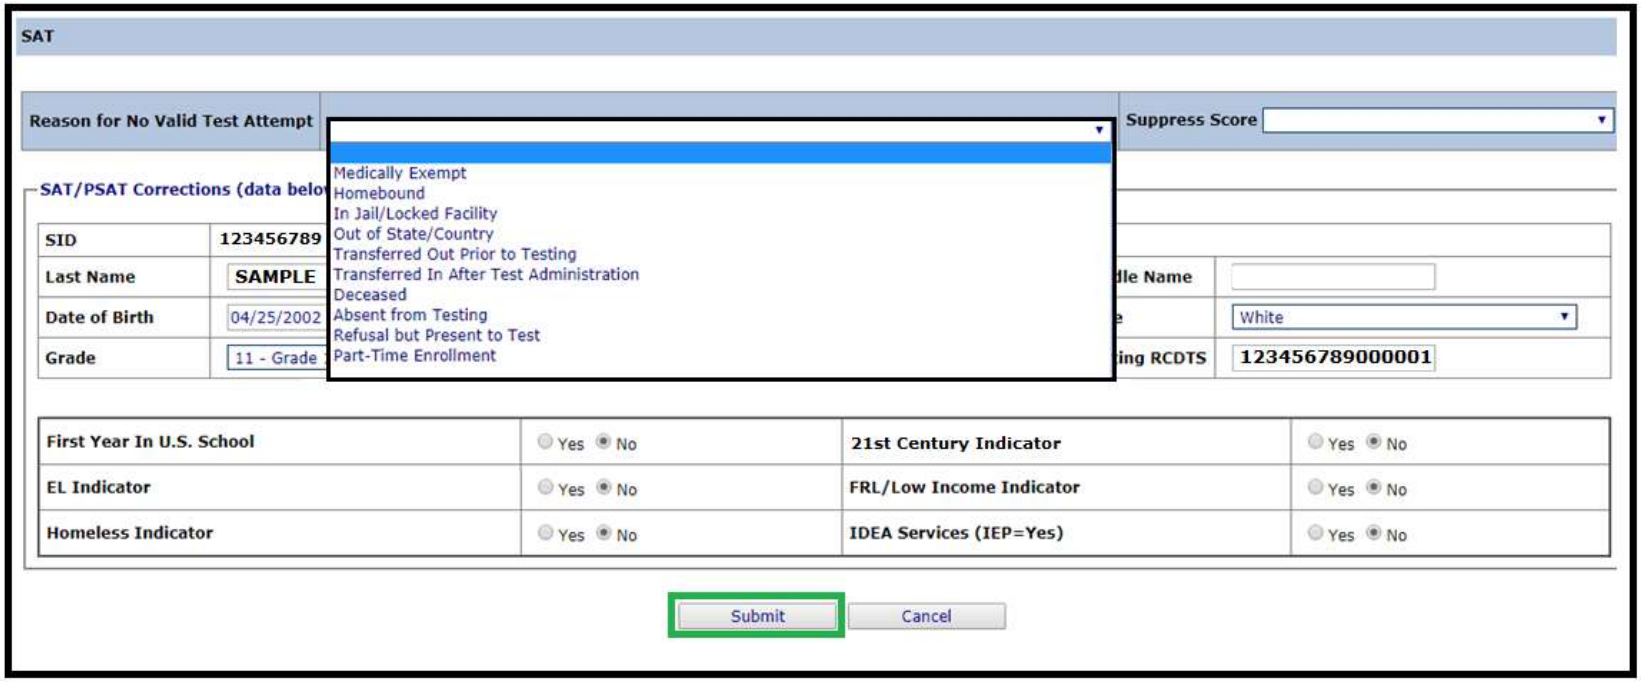
- To open fields for editing, click Edit.



SAT/PSAT Correction (Detail)

- Edit as needed and click Submit.
- IMPORTANT: If you need to edit the student's grade level, you must also do this in the SIS enrollment for consistency.
- Contact the SIS helpdesk at 217-558-3600, option 3 if you are unable to access the SIS enrollment (e.g., student moved after testing).



IL School Code and Participation in Testing

- The IL School Code requires that all Illinois public school students participate in the state's accountability assessments, unless exempt.

- Additionally, the IL School Code requires that all Illinois public school students participate in the state's ***final*** accountability assessment or its approved alternate assessment in order to receive a regular high school diploma.

Students Who Did Not Participate in the State's Final Accountability Assessment (i.e., SAT or grade 11 DLM-AA)

- **Grade 11 Students**
  - If a grade 11 student did not test in spring 2019, districts must enter the RNVTA in SIS no later than August 16, 2019.
  - Unless exempt, the student will be rostered to test in spring 2020 if still enrolled in an Illinois public school in either grade 11 or 12.
  - Note: Participation in a national SAT **DOES NOT** satisfy the diploma requirement currently in the IL School Code. ISBE cannot access self-funded SAT data for its accountability use.

- **Grade 12 Students**
  - If a grade 12 student who was/is not exempt did not test in spring 2019, the district must enter the RNVTA in SIS no later than August 16, 2019.
  - If the grade 12 student is scheduled to receive a regular high school diploma *before* the spring 2020 administration of the state's final accountability assessment, districts may submit paperwork that will allow a regular high school diploma to be awarded to the student who has not yet tested.
