Traumatic Brain Injury	0.00	0.11	0.26
Visual Impairment	1.26	0.45	0.37

## Section Two: Student Performance

In order to protect student's identities, test data for groups of fewer than 10 students (or five students for years prior to 2003) are not reported. A blank cell indicates no data was reported.

### Participation Rate for State Assessments

As reported on the Illinois State Board of Education Report Cards.

		2002		2003	
		Students with Disabilities**	All Students	Students with Disabilities**	All Students
District	Enrollment*	81	944	96	994
	Reading	100.0	100.0	100.0	99.1
	Mathematics	100.0	100.0	100.0	98.8
State	Enrollment*	78,455	610,328	81,924	615,216
	Reading	99.1	97.4	100.0	99.8
	Mathematics	99.4	97.6	100.0	99.7

\*Enrollment in the tested grades on the first day of testing.

\*\*Students with disabilities includes students receiving special education services and students with a Section 504 plan.

### Overall Student Performance

The following table presents the overall percentages of students who scored in the Meets or Exceeds the Illinois Learning Standards performance levels on state assessments. This combines all subjects for all grades tested. The **Illinois Standards Achievement Test (ISAT)** is used to measure achievement of students in grades 3, 4, 5, 7 and 8 for reading, mathematics, writing, science and social science. The **Prairie State Achievement Examination (PSAE)** is used to measure the same achievement for students in grade 11.

	2001		2002		2003	
	Students with Disabilities	Students without Disabilities	Students with Disabilities	Students without Disabilities	Students with Disabilities	Students without Disabilities
District	47.8	81.7	36.8	84.9	35.2	84.0
All H.S. Districts	19.9	65.3	21.0	66.3	21.8	66.3

### Illinois Alternate Assessment (IAA)

The Illinois Alternate Assessment (IAA) is administered to students with disabilities whose Individualized Education Programs (IEPs) indicate that participation in the ISAT or PSAE would not be appropriate. The table below presents the percentages of students who scored in the Progressing or Attaining performance levels.

Grade		Reading	Math	Writing	Science	Social Science

## Student Performance by Subject

The following tables show student performance by subject area for Reading, Mathematics and Writing for the past three years. Each table displays the percentage of students who scored in the Meets or Exceeds performance levels. Grades 3, 5 and 8 use the ISAT; grade 11 uses the PSAE. A blank cell indicates no data was reported.

### Student Performance in Reading

Grade		2001		2002		2003	
		Students with Disabilities	Students without Disabilities	Students with Disabilities	Students without Disabilities	Students with Disabilities	Students without Disabilities

## Section Three: Educational Environment

Educational environment refers to the extent to which students with disabilities receive special education and related services in classes or schools with their non-disabled peers. Research has shown that students with disabilities who are educated in the *least restrictive environment* show increased motivation, higher self-esteem, improved communication and socialization skills and greater academic achievement than those students in a more restrictive, or segregated, environment.

Educational environments can be generally classified into four settings:

1. Students receiving special education or related services outside the regular classroom less than 21% of the time,
2. Students receiving special education or related services outside the regular classroom 21% to 60% of the time,
3. Students receiving special education or related services outside the regular classroom more than 60% of the time, and
4. Students receiving special education or related services in a separate educational facility.

The following information is provided for students ages 6 through 21.

### Percent of Students with Disabilities in Various Educational Environments

	2002				2003			
	Outside <21%	Outside 21-60%	Outside >60%	Separate Facility	Outside <21%	Outside 21-60%	Outside >60%	Separate Facility

Native American	100.0	0.0	0.0	0.0

## Section Four: High School Completion

Progression through and completion of high school are significant in assessing the success of an educational system. Graduation rate is a critical indicator related to high school completion, reflecting the level at which students receiving special education services both remain in school and graduate with a standard diploma, respectively.

### Graduation Rate

The **Graduation Rate** in Illinois is defined as the percent of the original freshman class who graduated with a standard diploma, adjusted for student transfers and deaths.

#### Graduation Rates for Students with Disabilities\*

	2002	2003
District	91.8	68.3
Cooperative	87.0	75.0
State	69.1	71.5

#### Compared to Students without Disabilities

	Students with Disabilities*	Students without Disabilities	Disparity
District	68.3	95.6	-27.4
Cooperative	75.0	93.3	-18.3
State	71.5	86.0	-14.5

\*Students with disabilities includes students receiving special education services and students with a Section 504 plan.
