**A truant is a student subject to compulsory school attendance and who is absent without valid cause for a school day or portion thereof.**

**A chronic truant is a student subject to compulsory school attendance and who is absent without valid cause for 5% or more of the previous 180 regular attendance days.**

**This is a subset count of truants - the number of chronic truants cannot be higher than the number of truants.**

**A truant minor is a chronic truant to whom supportive services, including prevention, diagnostic, intervention and remedial services, alternative programs and other school and community resources have been provided (or offered and refused), and have failed to result in the cessation of chronic truancy.**

**This is a subset count of chronic truants - the number of truant minors cannot be higher than the number of chronic truants.**

\*The total number of truant students calculated for districts with incomplete data may not be fully representative. Data were determined to be incomplete if an entered subset count (i.e. chronic truants, truant minors) was higher than its parent count for a given gender category, pursuant to the above definitions.

**Questions regarding your district's data may be directed to Jenna Chapman in the Data Analysis & Accountability division (217-782-3950).**

**A truant is a student subject to compulsory school attendance and who is absent without valid cause for a school day or portion thereof.**

**A chronic truant is a student subject to compulsory school attendance and who is absent without valid cause for 5% or more of the previous 180 regular attendance days.**

**This is a subset count of truants - the number of chronic truants cannot be higher than the number of truants.**

**A truant minor is a chronic truant to whom supportive services, including prevention, diagnostic, intervention and remedial services, alternative programs and other school and community resources have been provided (or offered and refused), and have failed to result in the cessation of chronic truancy.**

**This is a subset count of chronic truants - the number of truant minors cannot be higher than the number of chronic truants.**

\*The total number of truant students calculated for districts with incomplete data may not be fully representative. Data were determined to be incomplete if an entered subset count (i.e. chronic truants, truant minors) was higher than its parent count for a given gender category, pursuant to the above definitions.

**Questions regarding your district's data may be directed to Jenna Chapman in the Data Analysis & Accountability division (217-782-3950).**
