State and federal laws require public school districts to release report cards to the public each year.
This year, the lllinois State Board of Education has updated the report card to provide a full picture of school performance beyond just test scores. A display of this data designed with parents and communities in mind is available on illinoisreportcard.com. All of the metrics posted on illinoisreportcard.com are also included in this report.

## Partnership for Assessment of Readiness for College and Careers (PARCC)

Each Performance Level is a broad, categorical level defined by a student's overall scale score and used to report overall student performance by describing how well students met the expectations for their grade level/course. Each Performance Level is defined by a range of overall scale scores for the assessment. There are five Performance Levels for PARCC assessments:
-• Level 1: Did not yet meet expectations

- Level 2: Partially met expectations
- Level 3: Approached expectations
- Level 4: Met expectations
-- Level 5: Exceeded expectations
Students performing at levels 4 and 5 met or exceeded expectations, have demonstrated readiness for the next grade level/course and, ultimately, are on track for college and careers. Performance Level Descriptors (PLDs) describe the knowledge, skills, and practices that students should know and be able to demonstrate at each Performance Level in each content area (ELA and mathematics) and at each grade level/course.

## SAT

Each Performance Level is a broad, categorical level defined by a student's score and used to report overall student performance by describing how well students met the expectations for their grade level/course. Each Performance Level is defined by a range of overall scores for the assessment. There are four Performance Levels for SAT:

| Level 1 -- Partially Meets Standards $\quad$The student has only partially met standards \& demonstrates a minimal understanding of the knowledge \& skills <br> needed relative to the Illinois Learning Standards. |  |
| :--- | :--- |
| Level 2 -- Approaching Standards $\quad$ <br> skills needed relative to the Illinois Learning Standards. |  |
| Level 3 -- Meets Standards | The student has met the proficiency level \& demonstrates adequate understanding of the knowledge \& skills <br> needed relative to the Illinois Learning Standards. |
| Level 4 -- Exceeds Standards | The student has exceeded the proficiency level \& demonstrates a thorough understanding of the knowledge \& skills <br> needed relative to the Illinois Learning Standards. | needed relative to the Illinois Learning Standards.

## Dynamic Learning Maps - Alternative Assessment (DLM-AA)

DLM results are not based on raw or scale scores; all data is based on diagnostic classification modeling. Standard setting allows us to look at patterns of number of linkage levels mastered across the tested Essential Elements, to which we can apply cut points to define categories of student performance. This performance are reported using the four performance levels approved by the consortium:

Level 1 -- Entry - The student demonstrates emerging understanding of and ability to apply content knowledge and skills represented by the Essential Elements.

Level 2 --Foundational - The student's understanding of and ability to apply targeted content knowledge and skills represented by the Essential Elements is approaching the target.

Level 3 -- Satisfactory - The student's understanding of and ability to apply content knowledge and skills represented by the Essential Elements is at target.
