• ISBE Student Information System (SIS) – Source of student data – as always, keep SIS updated!

• ISBE ISA Import Wizard – User interface used for ISA to transmit student information from SIS to ISBE Teach
• ISBE loaded initial user accounts
  • When? – 2/14/2019
  • Who? – ISBE used district and school level EPS data for each RCDTS code:
    • Primary Contact
    • ISA Coordinator
    • If school districts entered ISA Coordinator data, then the result will be two user accounts for each RCDTS code in IWAS.
  • Why? –
    • EPS has the official administrative contact person and ISA test coordinator for each organization. ISBE purges the ISBE-Teach users accounts each year as part of system security procedures.

No
• ISBE performed a statewide sweep to roster students for ISA

• This resulted in students being loaded with default Test Sections and test locations (testing schools)

• Why?
  • The initial student load saves processing time and allows us to load student data and then assign tests.
  • Next, we started the Delta Process (automatically exiting and enrolling triggered by actions taken in SIS)
  • Completes the work for district if you do not want to customize your sections and test locations
