

# Illinois State Board of Education

## How to Interpret and Communicate Your 2022 Summative Designation

Illinois State Board of Education

October 3 & 4, 2022

# Agenda

2

- ❑ Brief Overview of Summative Designations
- ❑ Timeline to 2022
- ❑ Count Down to the Release
- ❑ Communication Fundamentals
- ❑ Practitioner Perspectives: Rockford Public Schools 205
- ❑ Practitioner Perspectives: Flora Schools CUSD 35
- ❑ Interpreting the 2022 Designation
- ❑ Changes to Accountability in 2022 (that would have impacted interpretation)
- ❑ Eligible for Early Exit
- ❑ Helpful Resources
  - ❑ Using Summative Data to Tell Your Story
  - ❑ Educator Preview & Report Card Narratives
  - ❑ [www.isbe.net/summative](http://www.isbe.net/summative)

# What is an Annual Summative Designation?

3

- **Multiple measures** index of academic achievement and student success
- Given **annually\*** and based on the prior year's performance
- Designed to **identify schools** for support by placing them in **school improvement status**
  - Including schools with student groups needing support in otherwise reasonably performing schools
  - A school **in school improvement status remains in status** for 4 years, regardless of changes to its annual summative designation during those years in order to encourage sustainability of progress

# Four Annual Summative Designations

<p><b>Exemplary</b></p>	<ul style="list-style-type: none"> <li>Overall performance in the top 10% of all schools</li> <li>Must have no targeted student groups at or below the “all students” group of the lowest-performing 5% of schools</li> <li>High schools must have a graduation rate higher than 67%</li> </ul>
<p><b>Commendable</b></p>	<ul style="list-style-type: none"> <li>Overall performance not in the top 10% of all schools</li> <li>Must have no targeted student groups at or below the “all students” group of the lowest-performing 5% of schools</li> <li>High schools must have a graduation rate higher than 67%</li> </ul>
<p><b>Targeted Support</b></p>	<ul style="list-style-type: none"> <li>One or more student groups performing at or below the “all students” group of the lowest performing 5 percent of schools; groups must have at least 20 students in at least five of eight indicators, one of which must be non-academic</li> </ul> <div style="display: flex; justify-content: space-between;"> <div data-bbox="853 625 1363 939"> <p><b>STUDENT GROUPS</b></p> <p><b>Demographics</b></p> <ul style="list-style-type: none"> <li>American Indian or Alaska Native</li> <li>Asian</li> <li>Black or African American</li> <li>Hispanic or Latino</li> <li>Native Hawaiian or Other Pacific Islander</li> <li>Two or More Races</li> <li>White</li> </ul> </div> <div data-bbox="1472 659 1949 839"> <p><b>Programs</b></p> <ul style="list-style-type: none"> <li>Children with disabilities</li> <li>Economically disadvantaged students</li> <li>English Learners</li> <li>Former English Learners</li> </ul> </div> </div> <p><b>A Targeted Support designation initiates targeted school improvement status and the school begins a four-year cycle of school improvement.</b></p>
<p><b>Comprehensive Support</b></p>	<ul style="list-style-type: none"> <li>Overall performance in the bottom 5 percent of Title I-eligible schools statewide</li> <li>All high schools with a graduation rate below 67 percent</li> </ul> <p><b>A Comprehensive Support designation initiates comprehensive school improvement status and the school begins a four-year cycle of school improvement.</b></p>

# 2022 Indicators and Weights

## Elementary/Middle Band (ES)

## High School Band (HS)

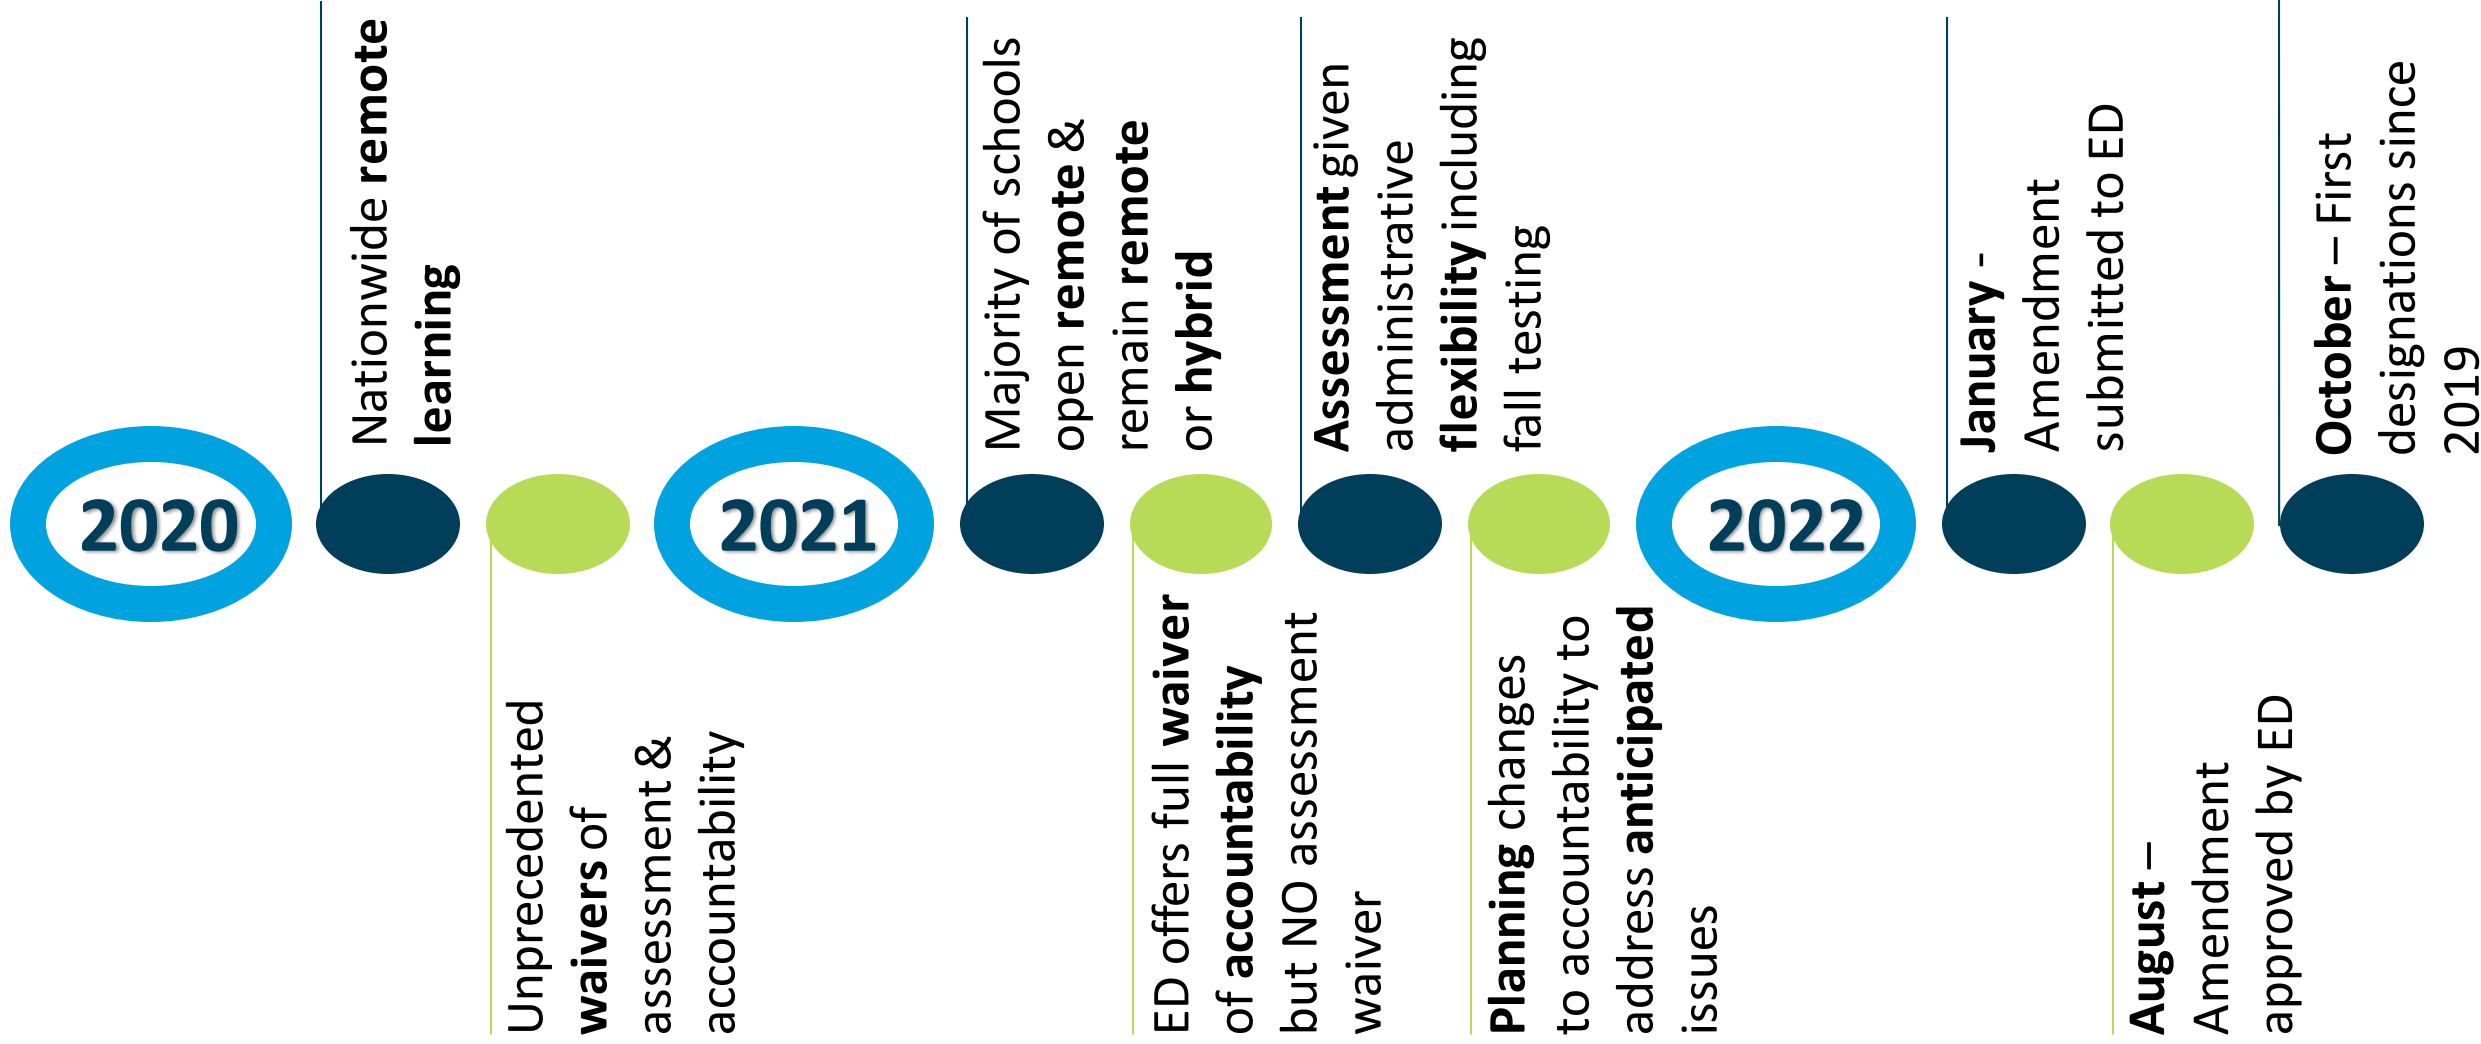

### 2022 Data

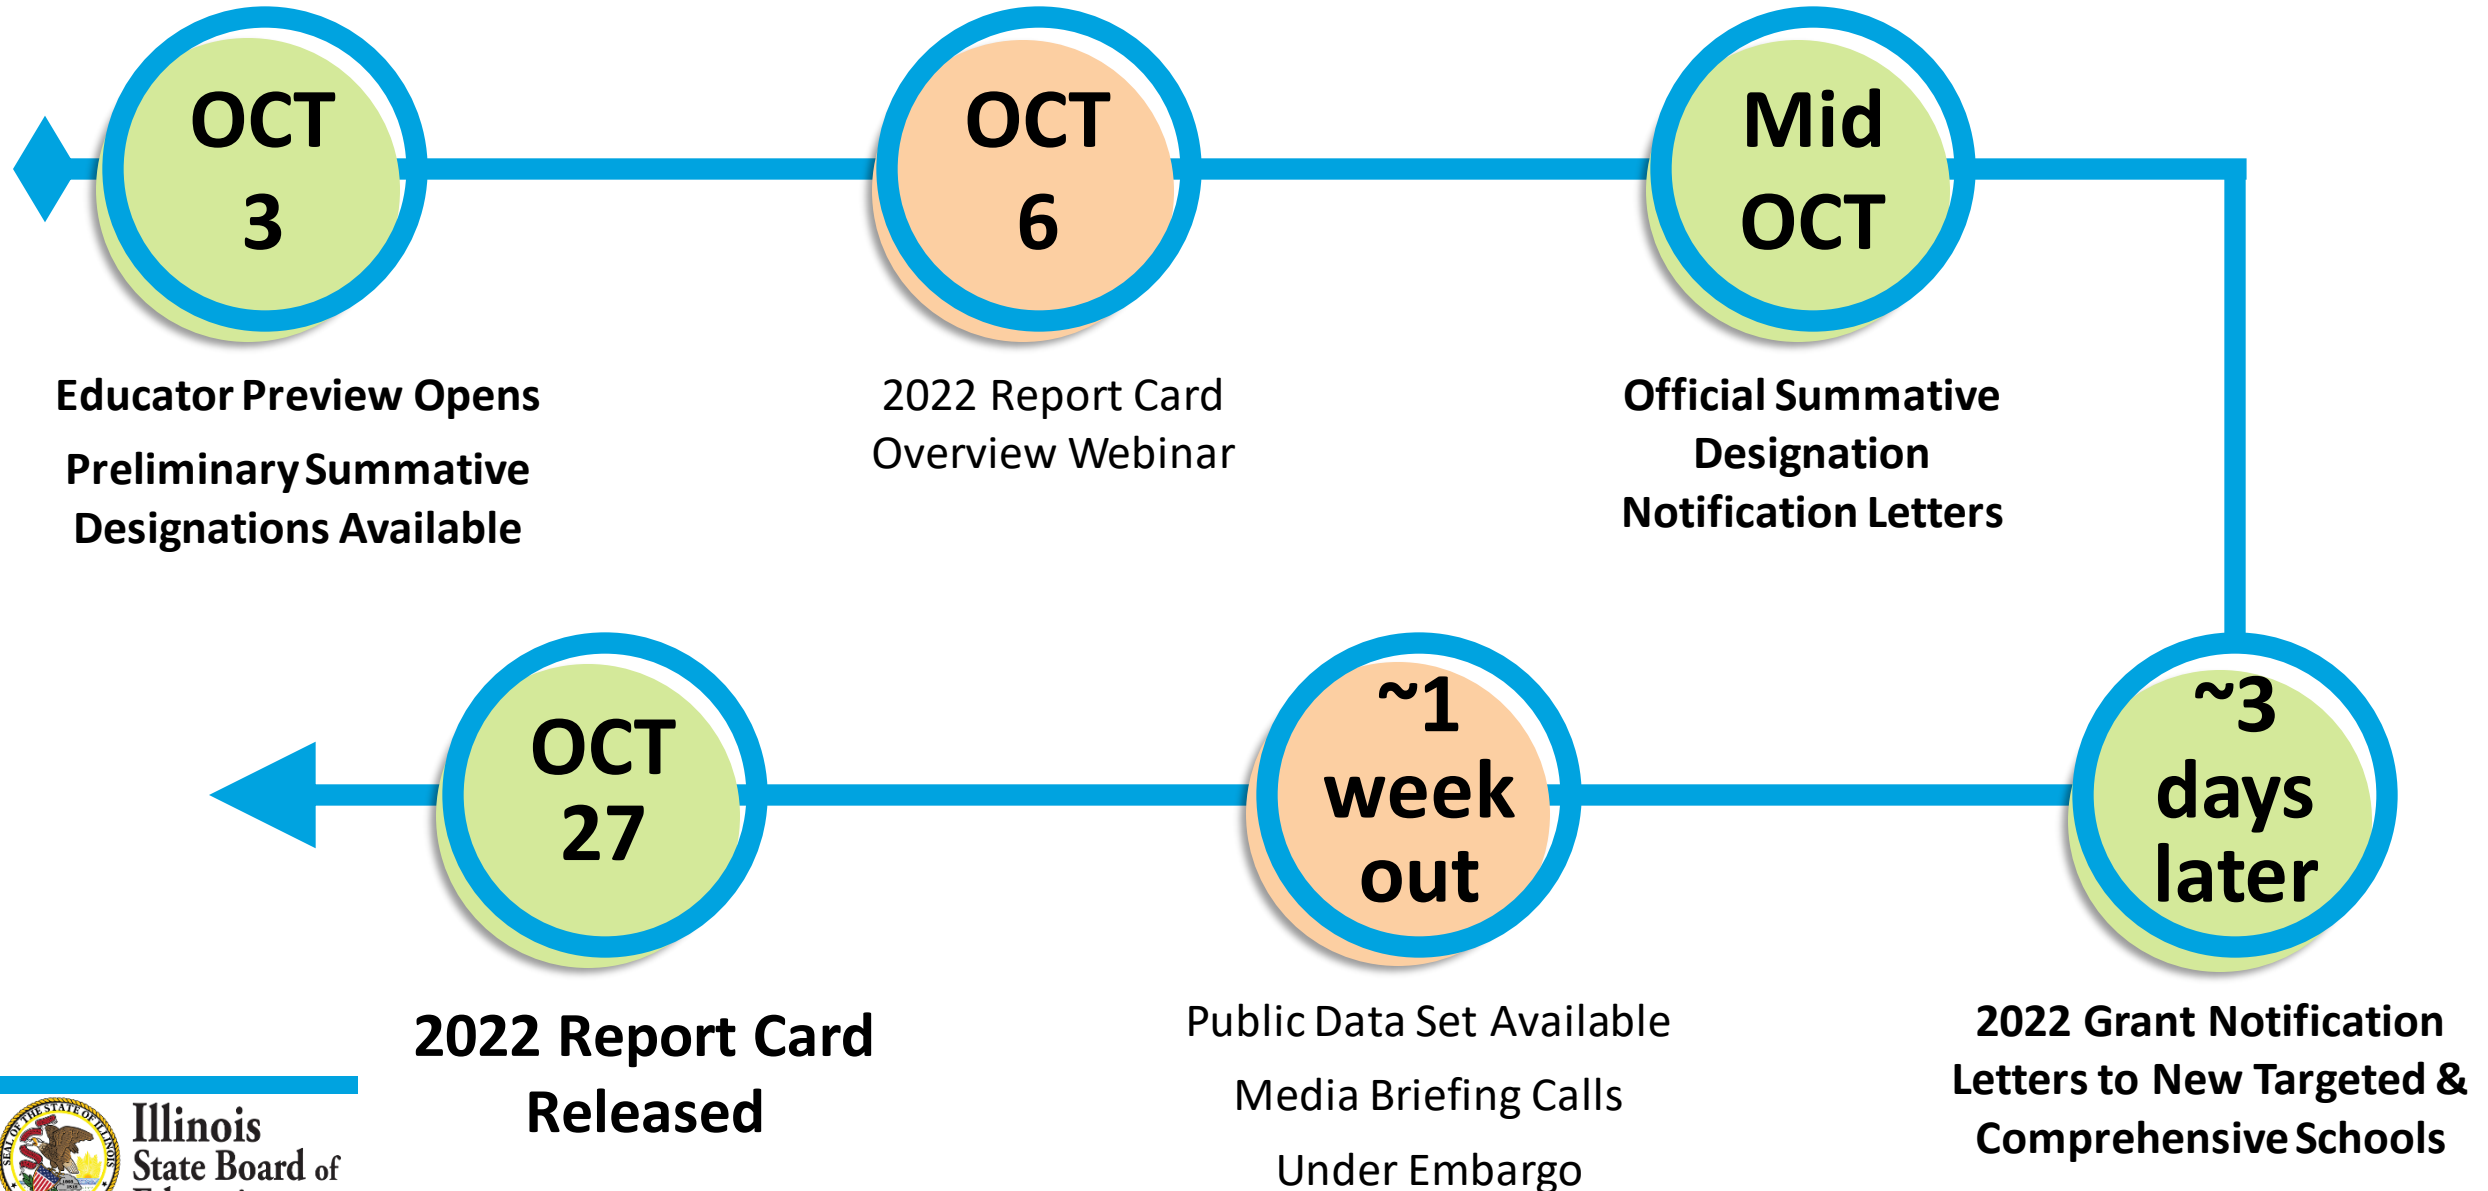

(ELPTP)  
English  
Learner  
Progress to  
Proficiency

# How Did We Get to 2022?

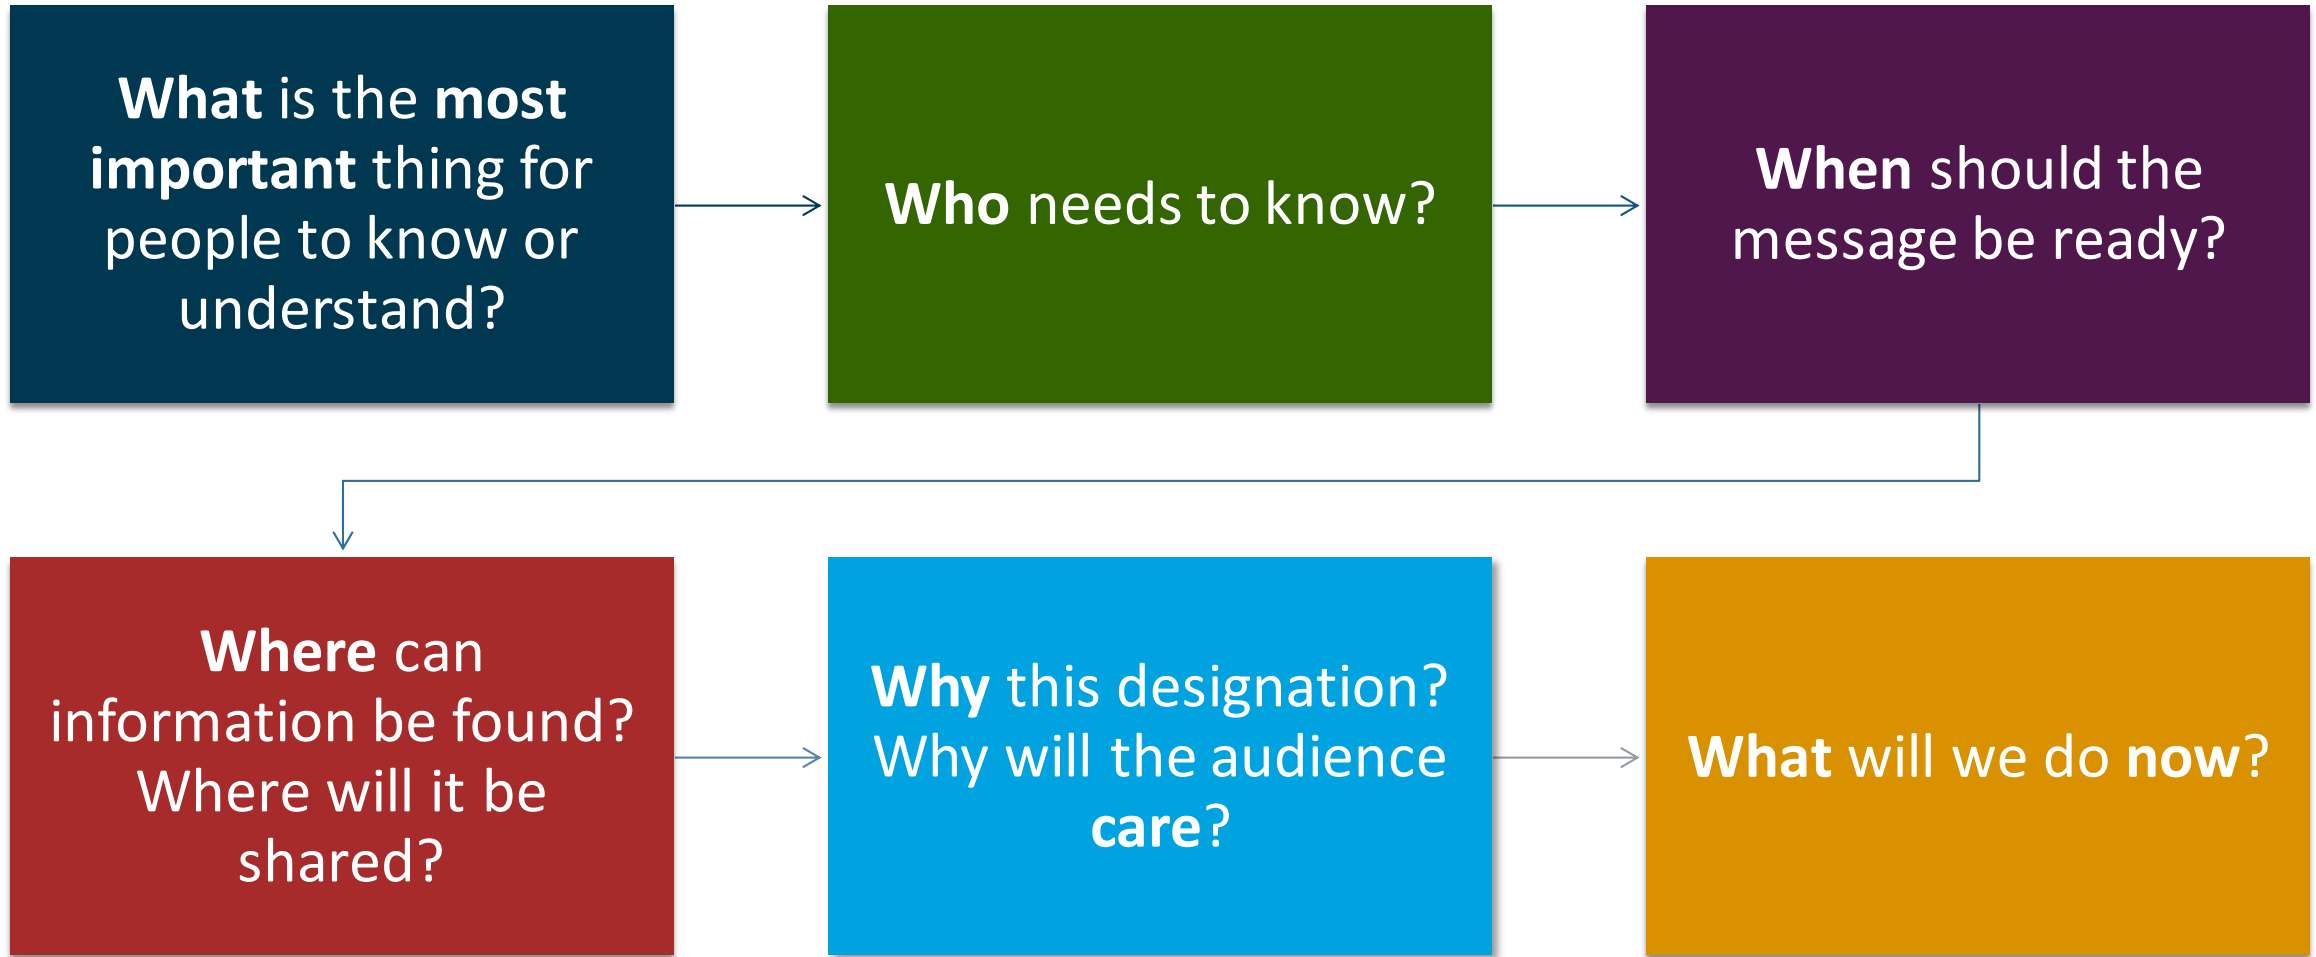

# Count Down to the Release

# Six Ws of Communication

8

# The hard part of initial communications

1. The original titles of the two lower performing designations
2. Technical Aspects
  - a. Breadth of the summative score metrics
  - b. Underperforming subgroups and the 5% line

# Communicating with Various Groups

- School Leaders: Building-based (site specific and summative report) and District-level (chart of all designations with supports and tasks)
- Board of Education and the media (chart of designations, supports, and ISBE's documents)
- All of the above received links to ISBE resources including handouts and webinars
- Parents and Families showed little broad-based interest

# Lessons Learned

- Schedule follow up sessions to understand materials and summative scores
- Pre-release communications were too dependent on independent work
- Thinking patterns were deeply ingrained from NCLB and the comprehensive nature of the ESSA accountability system was not yet prevalent
- The action steps to improve results should have been connected to the release of the designation information and less dependent on the IL Empower process

# Communicating and 2022's Actions

- Highlighted and promoted ISBE-provided materials, including access to in-person sessions
- Chart of designations (funded and current) and supports is included with more topics covered for each school
- We're not assuming that anyone read anything – training will be more frequent and more personalized
- Focus on what the District is doing about the status rather than the mechanics of earning the designation
- Look for ways to humanize the messages at schools and the districts

# Communication about state status

Amy Leonard, Principal Floyd Henson Jr. High

Jackie Kreitler, ELA Floyd Henson Jr. High

Ashley Harrington, ELA Floyd Henson Jr. High

# • Hardest part of communicating status •

<b>First year of designation</b>	No one really knew what was going on so communicating about the bottom 5% (now Comprehensive) was difficult because it was all new.
<b>Embarrassment</b>	We had become quite lackadaisical about the state testing and relevance or consequences. Admitting to the administration that level of apathy caused the staff to really face reality.
<b>Not knowing</b>	Because our designation was the first year, it was difficult to talk to staff, administration, and public about what was going to happen next.
<b>Public not aware of changed</b>	Parents have never been completely aware of what the state testing measures for the schools. Now that the state was assigning designations for each school, the parents didn't understand or care to understand.
<b>Whispers among other buildings in the district</b>	This kind of relates back to the embarrassment issue. Since the other 2 buildings in our district were commendable, there was pressure and "side eye"

## Who did we communicate with?

**Staff—This is here to stay. We need to change.**

**Superintendent—He was our go-between for all groups except students.**

**Board of Education—Superintendent kept them informed in their briefings.**

**Students—We were very direct with the students to have them become active participants**

# **Managing their reactions--strategies/lessons learned**

**Board of Education--supportive and willing to utilize the assistance**

**Staff--became more collaborative, encouraging, and focused in lessons (eliminated bell and whistles, fluff, entertainment)**

**Lesson learned--Don't beat yourself up. This was the best thing that has happened for our building, kids, and staff**

**Lesson learned--Get the kids involved as much as possible with local testing scores, grade goals, and lessons (ELA away from textbook)**

## **Communication changes**

**\*\*Need top down starting at the state...This is not easy. Be flexible as possible.**

**\*\*Email local assessment scores to entire building 5 times throughout the year so all staff know where our students are scoring.**

**\*\*Incorporated a common study hall period so all teachers work with students to improve ELA and Math**

# Questions For Colleagues

# The Data ≠ The Answer

19

*“The data don’t tell you the answer.  
The data just tell you where to start asking questions.”*

- ❑ Look for patterns and deviations from the patterns
- ❑ Look to multiple sources of data
- ❑ What story do the data tell about being a particular kind of student at your school?
- ❑ **When in doubt, schedule a data review – (217) 524-1817**

# Resist Comparing the 2022 Designation to the 2019

20

- ❑ **Resist comparing** the 2022 designation to the 2019 designation
  - ❑ Changes with varying degrees of impact to nearly every indicator
  - ❑ Comparison assumes similar conditions & context between the years
  
- ❑ **Do not over interpret** the designation or the data – gauge comparability in context
  - ❑ Did you have high rates of assessment participation in BOTH 2021 and 2022?
  - ❑ Did you make changes to attendance tracking in either 2021 or 2022?
  - ❑ Did you make changes to instructional practices or graduation requirements?

The **more stable** your circumstances stayed across time, the **more comparable** your designations are. However, even if your circumstances stayed the same, other schools' circumstances did not, and the accountability system is to **some degree relational**.

If your designation changed, you should **carefully consider other sources of data**, particularly ones taken from the current academic year (SY2023) to determine whether you believe this change to be indicative of a **persistent trend**, or an **anomaly** related to conditions in 2021 or 2022.

# How to Interpret 2022 Without Comparing to 2019

21

- ❑ If my 2022 designation is not highly comparable to my 2019 designation, how can it be interpreted?
  - ❑ The designation is still a common measure of performance across the state on multiple measures of student success
  - ❑ Students in Exemplary and Commendable schools experience similar levels of success to their peers on the whole, regardless of demographics or program status
  - ❑ In Targeted schools, the performance of one or more student groups is substantively different from their peers
  - ❑ Comprehensive schools need support

# How to Interpret 2022 Without Comparing to 2019

22

- ❑ My designation changed positively, but my overall performance on key indicators is flat or has declined. How do I explain that?
  - ❑ Multiple changes were made to the accountability system to account for the impact to schools and students from COVID-19
  - ❑ The purpose of the accountability system is to identify the schools and students most urgently in need of support
  - ❑ A positive change to the designation with flat or declining performance on specific metrics reflects needs changing throughout the state

# Changes in 2022 Summary

# Changes in 2022 Summary – 1 of 5

24

- New ELA & math proficiency targets
  - Baseline of 2021 state average performance
  - Three **grade groups** at the 3-8 level – [3 & 4] [5 & 6] [7&8]
  - <https://www.isbe.net/Pages/Accountability-Indicators.aspx>

## Resources:

- ELA and Math Waiver Cohort Baseline and Annual Proficiency Targets and Long-Term Goals
  - Grades 3 and 4 
  - Grades 5 and 6 
  - Grades 7 and 8 
  - Grade 11 
  - All Grades 
- Science proficiency replaced with **participation rate 2022 ONLY**

# Changes in 2022 Summary – 2 of 5

25

- Two student growth percentiles (SGP) calculations, using the one with the higher statewide mean
  - Standard **cohort SGP** – compares students to their academic peers from the same grade & subject in the same academic year (i.e. 2022)
  - New **baseline SGP** – compares student to their academic peers from the same grade & subject in a prior baseline academic year (i.e. 2019)
  - Only interesting when they're different
- One scoring formula for composite 4-, 5-, & 6-year cohort graduation rate
  - [Composite weighted cohort graduation rate \* 3.7975) – 253.16456]
  - A weighted composite graduation rate  $\geq 93$  is 100 points and a weighted composite graduation rate  $\leq 66.667$  is 0 points.

# Changes in Summary – 3 of 5

26

- English learner progress to proficiency (ELPtP)
  - Every EL student in SY2020-21 gets **1 additional year** to their timeline (as a “partial year”)
  - Using **2020 as the prior** score for scale score gain calculation
  - Functionally excludes students **newly identified as ELs in 2021**
- **Differentiated scoring bands** for chronic absenteeism
  - 2022 less than 2021 by more than 7.5 percentage points = 1.25 multiplier
  - 2022 less than 2021 between 5.01 – 7.5 = 1.2 multiplier
  - 2022 declined between 2.51 – 5 = 1.15 multiplier
  - 2022 declined between .01 – 2.5 = 1.1 multiplier
  - 2022 no more than 5 percentage points = 1.05 multiplier
  - All else = 1.0 multiplier

# Changes in 2022 Summary – 4 of 5

27

- **Meta-indicator implementation delayed until 2025**
  - Includes college and career readiness, P-2, elementary/middle and fine arts indicators.
  - Will validate indicators using 2022, 2023 and 2024 data.

# Changes in 2022 – Eligible for Early Exit – 5 of 5

28

- 2022 holds many uncertainties and changes from the norm
  - Are rates of chronic absenteeism a persistent trend?
  - How were growth calculations impacted by missing 2021 priors?
  - How will going back to 2020 for a prior score for ELPtP impact schools with this population?
- 2022 data simply wasn't available in time before amendment had to be submitted to ED
- To insulate schools from the effects of these uncertainties, groups of schools will be eligible for early exit from school improvement status in 2023.

# Eligible for Early Exit Continued

29

- In order to be eligible for early exit in 2023 a school must:
  - Have a designation of **Commendable or Exemplary in 2023**
  - Have 2023 **assessment participation rates ≥95% in ALL SUBJECTS**
    - For the “all students” group and any Targeted student groups
  - Not already be in school improvement status (i.e. not identified as Targeted or Comprehensive on Report Card 2018 or 2019).
- Be in one of 3 eligibility groups
  - Schools missing ≥30% of 2021 data
  - Schools in the top 30% in the state by 2019 index score
  - Schools where a student group population has shifted by 30% since 2019 [i.e.  $\geq(2019 * 1.3)$  or  $\leq(2019*0.7)$ ]
  - Check [www.isbe.net/summative](http://www.isbe.net/summative) for a list of eligible schools\*

# Eligible for Early Exit Continued – Missing Data Example

30

	School A	School B	School C	School D
<b>2021</b>	All Participation: 66.38% Student Groups: < 95%	All Participation: 45.82% Student Groups: < 95%	All Participation: 52.69% Student Groups: < 95%	All Participation: 75.76% Student Groups: < 95%
<b>2022</b>	Targeted for CWD	Comprehensive	Targeted for ELs	Targeted for Low Income
<b>2023</b>	All Participation: <b>95.15%</b> Student Groups: most >95%, CWD <95%	All Participation: <b>95.33%</b> Student Groups: most >95%, Low Income >95%	All Participation: <b>96.43%</b> Student Groups: > 95%,	All Participation: <b>98.27%</b> Student Groups: most > 95%, ELs <95%
	Targeted for CWD	Targeted for White	Comprehensive	Commendable
<b>Exiting?</b>	<input checked="" type="checkbox"/> Not Exited	<input checked="" type="checkbox"/> Not Exited	<input checked="" type="checkbox"/> Not Exited	<input checked="" type="checkbox"/> Exited from status
<b>Reason</b>	2023 designation is <b>not</b> Commendable or Exemplary  2023 participation rate of the targeted group (CWD) was <b>not ≥</b> <b>95%</b>  <b>Will remain in Targeted Support</b> <b>status</b>	2023 designation is <b>not</b> Commendable or Exemplary  <b>Will remain in Comprehensive</b> <b>Support status</b>	2023 designation is <b>not</b> Commendable or Exemplary  <b>Will escalate to Comprehensive</b> <b>Support status</b>	2023 designation was <b>Commendable</b>  The 2023 participation rate of the <b>low income and “all” groups</b> <b>was</b> <b>≥ 95%</b>

# Identified in 2022 But Hope to Exit in 2023

31

- Two main activities of newly identified schools are:
  1. Conduct a comprehensive **school-level needs assessment**
  2. Develop a **continuous school improvement plan**
- A thorough needs assessment will always find areas for improvement, even if only students still recovering from 2020 and 2021 challenges
- A continuous school improvement plan is a good thing to have and good practice regardless of support status
- Many improvement strategies that will be in the final plan can be implemented immediately and with limited cost
  - These can contribute to any gains needed to ensure Commendable or Exemplary status in 2023.
- Engaging your teachers, families and the community early and often will ensure good news is credible

# Helpful Resources

# Summative Reports In SIS

33

The screenshot shows the SIS Reports page. The left sidebar contains a menu with the following items: SIS (circled in red with a '1'), Annie Rae Clementz, Home, Student, Assessment, Adjusted Cohort, Teacher, Early Childhood Transition, Prenatal, Reports (circled in red with a '2'), Batch File Processing, District Data Verification, Seal of Biliteracy Application, and Internal. The main content area is titled 'Reports' and features a search bar. Below the search bar is a list of report categories: Student (with a dropdown arrow), Assessment, Attendance, Bilingual, Demographics and Enrollment, Discipline, Early Learning, Homeless, Individual Student, Restraint and Time Out, Regional Safe School, Special Education, Course Assignments (with a dropdown arrow), Student and Teacher Reports, Missing Courses (circled in red with a '3'), Summative Designation (circled in red with a '4'), Summative Reports (circled in red with a '4'), and Summative Reports (SY 2018) (circled in red with a '4'). The text 'Only to look at your 2018 data' is displayed at the bottom right of the page.

# Summative Reports in SIS

34

The screenshot displays the SIS interface. On the left is a dark blue sidebar menu with the following items: SIS, Annie Rae Clementz, Home, Student, Assessment, Adjusted Cohort, Teacher, Early Childhood Transition, Prenatal, Reports, Batch File Processing, District Data Verification, Seal of Biliteracy Application, and Internal. The main content area on the right shows a list of report categories and individual reports. The 'Elementary/High School Summative Designation Scores Report' is highlighted with a red box and a circled '5'. Other reports include 'Summative Designation Roster Report', 'EL Progress to Proficiency', 'College and Career Readiness Indicator Student Roster', and 'College and Career Readiness Indicator Student Summary'. Each report has a 'Summary' or 'Details' link next to it.

# Telling Your Story Using the Summative Scores Report

Notes:

- For complete information on the business rules associated with these calculation, please refer to <https://www.isbe.net/Pages/Report-Card-Metrics.aspx>
- Missing data is due to student group being less than 20 students.
- Graduation Rate is calculated separately in SIS through the Adjusted Cohort.

NOTE: This report lists only those students included in Summative Designation calculations.

Black	Weighted Index	7.78	14.83	3.63	14.42	5.36		17.45	4.32

**Raw Asks:** Is 30.6% raw proficiency ok?

**Indicator Score Answers:** It's on par with state average performance for this group.

But something is very different about math for this student group. **What is it?**

**What about growth?**

- >50 = outperforming the state average, on average.
- 80% of the state between 40 and 60.

**What is a good rate of chronic absenteeism?**

Contextual. Goal is for it to be similar to other groups

**Why are these students not participating at the same rates as their peers?**

# Where Can I Find My Preliminary Summative Designation?

**2022 State Plan Amendment Approved**

The US Department of Education (ED) requires that new annual summative designations be issued in 2022. Much has changed since designations were last issued in 2019, so Illinois amended its state plan to respond to the impact of the pandemic on schools. The amendment submitted by Illinois to ED on January 31, 2022 was approved on August 2, 2022. An executive summary of the changes and the approved plan can be downloaded below.

- 2022 ESSA Amendment Executive Summary
- Approved Illinois State Plan (August 2, 2022)

**ACCOUNTABILITY AND SCHOOL IMPROVEMENT - THE FOUR ANNUAL SUMMATIVE DESIGNATIONS**

Schools receive an annual summative designation on the Illinois Report Card. The designation is based on the school's overall data for all of the accountability indicators, as well as the data for individual student groups.

Individual Indicators

## SCHOOL IMPROVEMENT & ACCOUNTABILITY INDIVIDUAL INDICATORS

ISBE has a multi-measures accountability system that considers school and student group performance on multiple Academic and Student Success and School Quality (SSSQ) indicators to create a holistic index score that is used to issue one of four annual summative designations - Exemplary, Commendable, Targeted Support, and Comprehensive Support. Each indicator is scored between 0 and 100. The indicator score is multiplied by the indicator weight (5 to 50 percent) to determine the indicator points and added to create an index score for the school as the whole as well as specific student groups within each school.

Schools fall into two grade spans, the elementary school (ES) band, which includes Grades 1-8, and the high school (HS), band which includes Grades 9-12. Schools that serve grades in both the ES and HS spans receive two designations. The specific indicators are a mix of federally required metrics (such as English language arts [ELA] and math proficiency) and high school graduation rate, along with state-selected indicators (such as student growth chronic absenteeism). In addition, ISBE proposed four innovative meta-indicators, which are indicators made up of multiple data points that together convey more meaning than they do individually about a particular area.

This page presents information and resources specific to the individual indicators.

### ACCOUNTABILITY SYSTEM: MULTIPLES MEASURES OF STUDENT SUCCESS

A school's annual summative designation describes how well an individual school is meeting the needs of all its students. The designations recognize schools with strong overall performance across a range of academic and student success indicators. Schools with greatest need receive the most support. The system was amended in 2022, but the indicators and weights did not change.

- Fine Arts Indicator (ES and HS) ▾

# Individual Indicators – Common Information

45

ELA and Math Proficiency (ES and HS) ▾

Federally required | Academic

**ES Weight:** 7.5 percent ELA proficiency and 7.5 percent math proficiency  
**HS Weight:** 7.5 percent ELA proficiency and 7.5 percent math proficiency

**Definition:**  
ELA and math proficiency is the percentage of students who meet proficiency criteria on the state's ELA and math accountability assessments. The federal Every Student Succeeds Act (ESSA) requires states to assess their learning standards for ELA and math annually in Grades 3-8 and at least once in high school. Each state may also have a general assessment for the majority of its students and an alternate assessment for the 1 percent of students with the most significant cognitive disabilities. A percentage is calculated by subject combining all tests.

**Scoring:**  
A school or student group's proficiency percentage is divided by the applicable annual proficiency target. Baseline targets were set using the state proficiency rate for the applicable group, and targets grow annually until all groups have 90 percent proficiency (which is expected by 2033).

**Indicator Points Formula:**  
 $[\text{Group\_Percent\_Proficient} + \text{Group\_Annual\_Proficiency\_Target}] * 100$ , scores capped at 100.

**New for 2022!**  
ISBE submitted an amendment to its State Plan that creates new ELA and math proficiency targets using the spring 2021 assessment results as the new baseline.

**Resources:**

- ELA and Math Waiver Cohort Baseline and Annual Proficiency Targets and Long-Term Goals
  - Grades 3 and 4
  - Grades 5 and 6
  - Grades 7 and 8
  - Grade 11
  - All Grades
- ELA and Math Post-Waiver Cohort Baseline and Annual Proficiency Targets and Long-Term Goals (Coming 2023)
- 2018 ELA and Math Proficiency Targets and Long-Term Goals
  - Elementary Targets
  - High School Targets
