Subject: Response Requested: Spring 2023 ISBE-Provided SAT Suite of Assessments Serving School Establishment Form

To: Principals, SAT/PSAT Coordinators from Spring 2022

If your school plans to arrange for students who are required to test to return to their home school to test there instead, please complete the form indicating so. As a courtesy, please communicate this decision to each student's home high school.

College Board and ISBE are excited to begin planning for the ISBE-provided spring 2023 SAT with Essay, PSAT 10, and PSAT 8/9 School Day administrations. ISBE requires public school students, including public school students served at nonpublic facilities, to be assessed as part of its statewide accountability testing program.

At the time of testing, all students considered to be in Grade 11 according to state guidelines are required to participate in the SAT with Essay, unless they otherwise qualify for the alternate assessment (i.e., Dynamic Learning Maps-Alternate Assessment [DLM-AA]). Students in Grade 12 who have not previously earned a valid SAT score as part of any ISBE-provided SAT School Day administration and were not exempt are also required to take the SAT with Essay. More details about Grade 12 testing will be posted at www.isbe.net/Pages/sat-psat.aspx.

All students classified as being in Grade 10 at the time of testing are required to participate in the PSAT 10, and all students classified as being in Grade 9 at the time of testing are required to participate in the PSAT 8/9, unless they otherwise qualify for the alternate assessment (i.e., DLM-AA).

Below you will find the spring 2023 tests to be administered, the test dates, and the grades to be tested. College Board requires school staff to complete the school establishment form annually. We ask that you complete the form for spring 2023 as soon as possible but no later than **Tuesday, September 20, 2022**.

Please be aware that serving schools are invited, but not required, to establish as an SAT with Essay, PSAT 10, and PSAT 8/9 test site. Home and serving school staff should work closely to determine the appropriate testing location for each student. Home district/school staff are responsible for ensuring that all students who are required to test do so, regardless of their placement.

Below is important information to keep in mind when completing the form:

To complete this form, it will be helpful to have:

- Contact information for staff who will be serving in primary test day staff roles for the 2023 administration. (See **Test Day Staff** below.)
- Dates for any school holidays and closures scheduled between February and April 2023.

Test Day Staff

- **Test Coordinator:** Responsible for all aspects of test administration, including planning for rooms and staff, overseeing test day administration, and receiving/returning all test materials.
- **Services for Students with Disabilities (SSD) Coordinator:** Responsible for requesting accommodations and working with the test coordinator(s). Schools may have multiple SSD coordinators, but only one will be identified as the primary SSD coordinator who will receive communications from the College Board.

Staff Requirements

- Any staff member, including the coordinator, who will have access to test books before test day must not have a child or member of their household taking the same College Board test in the same window at any test site.
- Staff cannot have taken any College Board test within 180 days of test day.
- Staff cannot be engaged in any paid coaching or paid SAT test preparation. (The teaching and normal review of course content, including test familiarization that is part of regularly scheduled coursework, is acceptable.)

Off-site Testing

- Please indicate this in the form if your school will require a site other than your high school location for testing.
- Some reasons that you may require an off-site testing location include:
 - Need to support testing expelled students at an alternate location.
 - Not enough room to test all students across all assessments.
 - High school districts that are responsible to administer PSAT 8/9 to 15-year-old students with Individualized Education Programs who are still attending an elementary school district.
(Off-site testing allows the high school district to transport secure test materials to the elementary school district.)
- If you respond that you require off-site testing, College Board will contact you separately to gather more information about your off-site testing location(s).

It is important for all schools to complete the form no later than **Tuesday, September 20, 2022**, so you may begin receiving communications to prepare for the administration. The test coordinator(s) you identify in the form will receive an email in January to confirm your school setup is complete. If you need to make changes, you will need to resubmit the form by September 20, and the most recent submission will be taken. Once the form closes all responses will be considered final. Be sure to check the “Submitting Your Response” box at the end of the form to request a copy of your responses to be sent to you after you submit. If you have any questions while completing the form, please contact the College Board at (844) 688-9995 or write to ilsat@collegeboard.org.

Thank you,
