Overview and Response to Feedback

This process is supportive, not punitive.

LEA's priority should always be to appropriately identify students with the most significant cognitive disabilities to take the alternate assessment.

ISBE provides information and supports and professional learning events allow districts to learn from each other and provide feedback to ISBE.

ISBE acknowledges the difficulties that small districts face. We are working on solutions for this in the future. For the time being, meaningful participation by all identified districts is important.

Assurances Review

- Decision to take the alternate assessment is NOT based solely on the following criteria:
 - Disability Category;*
 - Poor attendance or extended absences;
 - Native language or social, cultural, or economic difference;
 - Expected poor performance on the general education assessment;*
 - Academic and other services the student receives;
 - English learner status;*
 - Low reading or achievement level;*
 - Anticipated disruptive behavior;*
 - Impact of student scores on the accountability system;*
 - Administration decision;*
 - Anticipated emotional duress;* and/or
 - Need for accommodations

Assurances, cont.

- General and special educators are knowledgeable about assessments and use of accommodations
- IEP team members regularly trained on participation guidelines and can determine which students meet criteria
