

## **MEMORANDUM**

**TO:** The Honorable JB Pritzker, Governor  
James A. Rivera, Illinois State Fire Marshal

**FROM:** Dr. Tony Sanders   
State Superintendent of Education

**DATE:** March 25, 2025

**SUBJECT:** Compliance of School Districts and Nonpublic Schools with the Annual School Safety Review Requirement

This report on the Compliance of School Districts and Nonpublic Schools with the Annual School Safety Review Requirement is submitted in compliance with subsection 30(c) of the School Safety Drill Act (105 ILCS 128/30(c)). It provides information on which school districts and nonpublic schools successfully completed the required annual school safety review in school year 2023-24, and which school districts failed to do so.

The report is transmitted on behalf of the state superintendent of education. Please contact Dana Stoerger, executive director of Legislative Affairs, at 217-782-4338 or [dstoerge@isbe.net](mailto:dstoerge@isbe.net) to obtain additional copies of this report or copies of the underlying reports that were submitted by Regional Offices of Education to ISBE and used to populate this report.

# Annual School Safety Review

---

Compliance  
of School  
Districts and  
Nonpublic  
Schools

2023-24

## Annual School Safety Review Compliance Report

This report is submitted in compliance with subsection 30(c) of the [Illinois School Safety Drill Act](#) [105 ILCS 128/30(c)], which requires the Illinois State Board of Education (ISBE) to provide an annual report to the Office of the Governor and the Office of the State Fire Marshal concerning the compliance of school districts and nonpublic schools with the annual school safety review requirement.

### Public School Districts

The law requires each public school district to conduct at least one annual meeting to review:

- Each school building's emergency and crisis response plans; protocols; and procedures, including procedures regarding the school district's threat assessment team;
- The efficacy and effects of law enforcement drills; and
- Each building's compliance with the school safety drill programs.

Districts are to review and update their emergency and crisis response plans, protocols, and procedures and the school safety drill programs of the district and each of its school buildings. They must report certain information to the appropriate regional superintendent of schools at the conclusion of the annual review, verifying that it occurred and providing other details as prescribed in statute. Each regional superintendent of schools then provides an annual school safety review compliance report to ISBE that identifies those school districts that have successfully completed their annual review and those that failed to complete it. Reports are due to ISBE on or before October 1 of each year.

Based on the information ISBE received, it is reporting that 98.8 percent of districts complied with the annual school safety review requirement in school year 2023-24. Appendix A of this report lists each school district's compliance status. This year's list includes Chicago Public Schools (CPS) District 299 and the Illinois Department of Juvenile Justice District 428, which have been historically excluded from this report as their compliance is not overseen by the 38 Regional Offices of Education and Intermediate Service Centers. District 428 did not conduct an annual review in SY 2023-24, but it has already complied for SY 2024-25, and that will be reflected in next year's report. CPS did not report on SY 2023-24 compliance and is therefore marked as "No." ISBE will continue to work directly with both districts to ensure they fully understand their obligations under the Illinois School Safety Drill Act.

### Nonpublic Schools

Nonpublic schools are required to conduct a minimum of one annual meeting at which the school must review each school building's emergency and crisis response plans; protocols; and procedures, including procedures regarding the school's cardiac emergency response plan, and each building's compliance with the school safety drill programs of the school. A nonpublic school is required to invite representatives from local first responder organizations and review and update emergency plans, protocols, and procedures as necessary. Nonpublic schools report directly to ISBE as to whether the required annual safety review meeting was conducted.

Based on the information ISBE received, it is reporting that 71.7 percent of nonpublic schools complied with the annual school safety review requirement in SY 2023-24. This number includes only those nonpublic schools that registered with ISBE in SY 2023-24. Appendix B of this report lists each nonpublic school's compliance status.

Appendix A (Public School Districts)
