ADMINISTRATOR CELL PHONE - OPTIONAL (Include Area Code)	* ISBE only recognizes Kindergarten when that level appears on a school with one or more other grades; a school that is only Kindergarten may not be recognized.	

The information requested in this application is required by 23 Ill Admin. Code 425 for a nonpublic school to achieve "Recognized" status through the Illinois State Board of Education (ISBE). Questions or concerns may be directed to the Title Grants Administrative Division at 217/524-4832. An application for initial recognition may be submitted at any time; however, applications received after the cut-off date for compliance visits in a given school year will be held until the next school year.

A decision to assign recognition to a nonpublic school is based on three separate but related processes:

Completed Application. The following pages of this application must be completed fully. The chief administrator of the applying school must

- (a) In Sections I through IV, respond to each item in one of the following ways:
 - "Yes" indicates the school meets the requirements identified in the corresponding application item. A brief statement indicating where the evidence of compliance may be found (e.g., "Board policy manual," "Student files," "Chemistry laboratory," etc.) must be supplied in the space provided
 - "No" indicates the school does not meet the requirements identified in the corresponding application item. An explanation as to why the school is not in compliance (and any steps the school is taking to become compliant) must be supplied in the space provided.
 - "N/A" indicated the item does not apply to the school. This is not an option in many cases and will be rare when it is an option. An explanation as to why the school is not required to be in compliance must be supplied in the space provided.
- (b) In Section V, complete as fully and accurately as possible the information requested concerning the school's calendar.

Please note that in addition to answering the questions below, schools must supply a copy of health/life safety documents as specified in 23 Illinois Administrative Code 425.40(a)(1).

Compliance Visit. After an application has been deemed complete and in compliance with applicable rules and regulations, a compliance visit will be scheduled. The visit team will be led by an ISBE representative and will include representatives of the public and nonpublic school perspectives. The visit serves to confirm the school's compliance with each item in this application through an examination of documents and observations throughout the physical plant.

Status Determination. At some point after the compliance visit has concluded, ISBE will review all applicable information and make a determination whether the school shall be issued recognition status. A notice of this decision and a copy of the final visit report will be sent to the school along with an appropriate certificate if recognition is being awarded. Three types of recognition are possible; detailed information about these may be found in 23 Ill. Admin. Code 425.50.

This application may be completed electronically and then printed for signature or may be printed and then completed and signed. In either case, the document is submitted in paper form with an original signature to:
