

Activity 2.1 Advisory Membership

Activity Preview

The following activity has been developed in conjunction with the learning plan called *Come Together: Strategies for Improving Program Quality through the Incentive Funding Grant*. This activity is supplemental to Module 2. Local Advisory and assesses the following learned skill: *Identify members of the school or community that could add value in serving on a local advisory*. In this activity, teachers will create a list of potential advisory members using the IFG goal areas.

Directions

1. Review **Quality Indicators Preview Document** 
2. For each goal area, identify a school or community leader that could assist with indicators in that area.
3. Discuss your list within your small group.

Essential Questions

1. How do we ensure advisory members' time is being valued and utilized?
2. Which areas are the most difficult to identify potential advisory members?
