

Activity 3.1 Sharing is Caring

Activity Preview

The following activity has been developed in conjunction with the learning plan called *Come Together: Strategies for Improving Program Quality through the Incentive Funding Grant*. This activity is supplemental to Module 2. Local Advisory and assesses the following learned skill: *Identify key groups or individuals each quality indicator goal area could be shared with to improve program quality*. In this activity, teachers will create a list of those key groups or individuals that can help implement the plan to improve aspects of program quality.

Directions

1. Review **Quality Indicators Preview Document** 
2. For each quality indicator, identify a group or individual that can help implement that indicator. (Examples: 1.4 *Professional Development* could be School Principal, 2.2 *Student Career Experiences* could be the school guidance department, 3.6 *Career Recruitment and Development Activities* could have a different community member that helps coach each team, etc.)
3. Discuss your findings with your small group once ready.

Essential Questions

1. What is the value in “sharing” the responsibility of improving program quality?
2. What are the benefits of intentional planning through IFG v. planning without IFG in mind?
