Background

Under 105 ILCS 5/27-23.7, all public school districts, non-sectarian nonpublic schools, and charter schools in Illinois are required to develop and implement policies concerning bullying prevention. The policies are required to be updated every two (2) years and filed with the Illinois State Board of Education—including each revision. Additionally, state statute specifically requires certain content and components to be included in a bullying policy, which is outlined in this document.

A. Bullying” includes “cyber-bullying” and means any severe or pervasive physical or verbal act or conduct, including communications made in writing or electronically, directed toward a student or students that has or can be reasonably predicted to have the effect of one or more of the following: (1) placing the student or students in reasonable fear of harm to the student's or students' person or property; (2) causing a substantially detrimental effect on the student’s or students’ physical or mental health; (3) substantially interfering with the student’s or students' academic performance; or (4) substantially interfering with the student's or students' ability to participate in or benefit from the services, activities, or privileges provided by a school.

1) Bullying, as defined in 105 ILCS 5/27-23.7, may take various forms, including without limitation one or more of the following: harassment, threats, intimidation, stalking, physical violence, sexual harassment, sexual violence, theft, public humiliation, destruction of property, or retaliation for asserting or alleging an act of bullying. This list is meant to be illustrative and non-exhaustive.

2) Cyberbullying, as defined in 105 ILCS 5/27-23.7, is bullying through the use of technology or any electronic communication, including without limitation any transfer of signs, signals, writing, images, sounds, data, or intelligence of any nature transmitted in whole or in part by a wire, radio, electromagnetic system, photo-electronic system, or photo-optical system, including without limitation electronic mail, Internet communications, instant messages, or facsimile communications. "Cyberbullying” includes the creation of a webpage or weblog in which the creator assumes the identity of another person or the knowing impersonation of another person as the author of posted content or messages if the creation or impersonation creates any of the effects enumerated in the definition of bullying in this Section. "Cyberbullying" also includes the
distribution by electronic means of a communication to more than one person or the posting of material on an electronic medium that may be accessed by one or more persons if the distribution or posting creates any of the effects enumerated in the definition of bullying in [105 ILCS 5/27-23.7(b)].

i. Prohibition on Cyberbullying. Bullying is prohibited through the transmission of information from a computer that is accessed at a nonschool-related location, activity, function, or program or from the use of technology or an electronic device that is not owned, leased, or used by a school district or school if the bullying causes a substantial disruption to the educational process or orderly operation of a school. This item applies only in cases in which a school administrator or teacher receives a report that bullying through this means has occurred and does not require a district or school to staff or monitor any nonschool-related activity, function, or program.

ii. The Process to Determine if an Incident is Within the Scope of the Policy. 105 ILCS 5/27-23.7 also requires that a district’s bullying policy or implementing procedure shall include a process to investigate whether a reported act of bullying is within the permissible scope of the district’s or school’s jurisdiction. Also, shall require that the district or school provide the victim with information regarding services that are available within the district and community; such as counseling, support services, and other programs.
