- Compliance with these requirements is verified through compiling data, maintaining records and submitting required reports.

DATA COLLECTION & REPORTING

A system must be in place for the collection of racial & ethnic data.

- Family is not required to provide.
- Self- identification is the preferred method for collecting racial & ethnic data.

Not Hispanic or Latino

Race Categories:

American Indian or Alaska
Native
Asian
Black or African American
Native Hawaiian or Other
Pacific Islander

DATA COLLECTION & REPORTING

What do I need to do with the information that I collect?

- The information that is collected should be compiled and compared to data that shows the make up of your area of the state.
- We provide you with data from your county on your program application approval letter each year.

Illinois State Board of Education

Civil Rights Disclosure

The United States Department of Agriculture regulations implementing Title VI of the Civil Rights Act of 1964 requires each school-based Child Nutrition Programs sponsor to determine and have available for review data on the potential eligible beneficiaries by racial/ethnic category for the areas served by the institution.

To assist you in determining the potential beneficiaries, this office is providing the Illinois census estimates of population for your county(s).

If the figures do not accurately reflect the racial/ethnic makeup of the area from which the attendance is drawn for the school-based Child Nutrition Program(s) in which you participate; cross out and insert the information. It is not necessary to submit changes of this information to ISBE but maintain on file for review or audit. All changes must be documented with the source of your information. All records related to school-based Child Nutrition Programs must be maintained for a period of three years plus the current year.

All sponsors should annually review the civil rights brochure available on our website at http://www.isbe.net/nutrition/pdf/civil_rights.pdf. The purpose of the brochure is to notify participants of the school-based Child Nutrition Programs policies regarding civil rights and to provide guidance on nondiscrimination in the administration of the program. A copy of this brochure is available upon request.

County	Percent White	Percent Black	Percent Native American	Percent Asian	Percent Hispanic	Percent Other
Sangamon	87.42	9.65	0.21	1.10	1.06	1.21

The data that you collect should be compared to this county data annually.

DATA COLLECTION & REPORTING

➡ Why do I have to collect & compare this data?

The data is used to determine how effectively your program is reaching potentially eligible children and where outreach may be needed.

For example: if you find that 40% of your county is Asian but only 3% of applicants for the meal programs are Asian than that is an indicator that perhaps more outreach is needed to the Asian population. A solution may be that you need to have the Household Eligibility Application available in different languages in order to meet the needs of your student population.

PUBLIC NOTIFICATION

Purpose: to inform applicants, participants and potentially eligible persons of the program availability, program rights and responsibilities, the policy of nondiscrimination and the procedure for filing a complaint.

Informational materials concerning the availability & nutritional benefits of the meal programs must be provided in the appropriate translations

- The Illinois State Board of Education submits a statewide public announcement on behalf of all participating sponsors annually. However, local education agencies (LEAs) **must** submit public announcements to local employment offices and major employers contemplating large layoffs in the attendance area of the school. When submitting a public announcement for print, LEAs should request the announcement be free of charge. Copies of the public announcement must be made available upon request to any interested person. A prototype is available online.

NON-DISCRIMINATION STATEMENT

In accordance with Federal civil rights law and U.S. Department of Agriculture (USDA) civil rights regulations and policies, the USDA, its Agencies, offices, and employees, and institutions participating in or administering USDA programs are prohibited from discriminating based on race, color, national origin, sex, disability, age, or reprisal or retaliation for prior civil rights activity in any program or activity conducted or funded by USDA.

Persons with disabilities who require alternative means of communication for program information (e.g. Braille, large print, audiotape, American Sign Language, etc.), should contact the Agency (State or local) where they applied for benefits. Individuals who are deaf, hard of hearing or have speech disabilities may contact USDA through the Federal Relay Service at (800) 877-8339. Additionally, program information may be made available in languages other than English.

To file a program complaint of discrimination, complete the USDA Program Discrimination Complaint Form, (AD-3027) found online at <https://www.ascr.usda.gov/how-file-program-discrimination-complaint>, and at any USDA office, or write a letter addressed to USDA and provide in the letter all of the information requested in the form. To request a copy of the complaint form, call (866) 632-9992. Submit your completed form or letter to USDA by:

- Take place after a sponsor is approved for operation. An example would be during an Administrative Review.

- Special Reviews:

- Take place after a site has been approved due to a complaint, data collection or as follow-up to previous non-compliance.

RESOLUTION OF NON-COMPLIANCE

Non-compliance: a finding of noncompliance may be the result of a routine review, a special review or an investigation. Noncompliance is a factual finding that any CR requirement, as provided by law, regulation, policy, instruction or guidelines, is not being adhered to.

Achieving Voluntary Compliance: once noncompliance is determined, steps must be taken immediately to obtain voluntary compliance.

Termination or Suspension of Assistance: as a last resort, if voluntary compliance is not completed within the allotted time period termination or suspension of assistance may result.

ENSURE ACCESS FOR PEOPLE WITH DISABILITIES!

REASONABLE MODIFICATIONS

- Parking lot, entrances and exits, halls, elevators, rest rooms, sign language interpreters, Braille signage, and service animals
- Alternative arrangements for service

In no way is a SFA to impede with a customer's right to file a civil rights complaint. However, most conflicts are easily resolved by using appropriate tools. Conflict resolution consists of useful skills to assist with the solution of complaints. These skills include:

Using a win/win approach: change the conflict from an attack and defense to cooperation and avoid the desire to blame.

Use a creative response: turn problems into possibilities to improve the situation.

Demonstrate empathy: help others feel that they are understood by being an active listener.

Appropriate assertiveness: state your case without arousing the defenses of another person.

Remember to use "I" statements to communicate your feelings directly.

Manage emotions: stick strictly to the facts of the complaint and communicate your feelings directly.

Have a willingness to resolve- identify barriers to a resolution and overcome those barriers.

Avoid repeating the situation.
