Chronic Absenteeism

3

- The Chronic Absentee rate is determined by dividing the number of chronically absent students per school/district/state by the average daily enrollment and multiplying the resulting quotient by 100.
- A student is “Chronically Absent” if they missed 10% or more of the school year regardless of excuse.
 - Every school/district/state counts every student with an associated enrollment of at least 10 days. The combined total number of “Days Absent – Unexcused” and “Days Absent – Excused” per student is divided by that student’s length of enrollment.
 - If the sum of absences divided by the length of enrollment is greater than or equal to 0.10 then the student is considered Chronically Absent.
- Only for Students in Grades 1 – 12 included in calculation.
- Average Daily enrollment (for Chronic Absentee) is the sum of all “Days Present”, “Days Absent – Excused”, and “Days Absent – Unexcused” for all students per school/district/state divided by total school days.
