Chronic Truancy

3

- The chronic truancy rate is determined by dividing the number of chronically truant students per school/district/state by the average daily enrollment and multiplying the resulting quotient by 100.
- A student is “Chronically Truant” if they missed 5% or more of the previous 180 school days without an excuse.
 - Every school/district/state counts every student with an associated enrollment of at least **21 days**. The total number of “Days Absent – Unexcused” per student is divided by that student’s length of enrollment.
 - If the sum of Days Absent - Unexcused divided by the length of enrollment is greater than or equal to 0.05 then the student is considered Chronically Truant.
- Only for Students in Grades 1 – 12 included in calculation
- Average Daily enrollment (for Chronic Truancy) is the sum of all “Days Present”, “Days Absent – Excused,” “Days Absent – Unexcused”, “Days Medically Homebound” and “Days Hospitalized” for all students per school/district/state divided by total school days.
