Chronic Truancy

- The chronic truancy rate is determined by dividing the number of chronically truant students per school/district/state by the average daily enrollment and multiplying the resulting quotient by 100.

- A student is "Chronically Truant" if they missed 5% or more of the previous 180 school days without an excuse.

    - For every school/district/state, every student with an associated enrollment of at least **21 days** is counted. The total number of "Days Absent – Unexcused" per student is divided by that student's length of enrollment.

    - If the sum of Days Absent - Unexcused divided by the length of enrollment is greater than or equal to 0.05 then the student is considered Chronically Truant.

- Average Daily enrollment (for Chronic Truancy) is the sum of all "Days Present," "Days Absent – Excused," "Days Absent – Unexcused," "Days Medically Homebound," and "Days Hospitalized" for all students per school/district/state divided by total school days.
