Review DLM-AA Correction and Scores Report for included students.

1. A student appears on a district’s DLM-AA Correction and Scores Report (and screen) when the district is the Home, Serving, or Testing school for a student enrollment during the test window based on the student’s *Grade Level* (3-11) and *DLM-AA Indicator* (Yes) in SIS. (To modify, see Notes below.) Choose the appropriate School option to view students.
- Notes: Students in Grades 3-11 and [some in Grade 12](#) are included in the report if they had an SIS enrollment during the test window March 11-May 6, 2026, and are not included on the Illinois Assessment of Readiness or ACT/PreACT Assessment Correction Report instead. Students will not appear on the DLM-AA Correction and Scores Report if the *DLM-AA indicator* is No.

2. How do I view data in the DLM-AA Correction and Scores Report?

- Step 1: Log in to SIS via [IWAS](#).
- Step 2: Click on Reports (in blue column on left), then Assessments, then DLM-AA Correction and Score (all students). Summary gives you general counts, and Details will show you a student list with details. We recommend viewing the Details Report.
- Step 3: Filters may be used as desired. Sort By is defaulted to Student Name. (Change to Error to quickly check for errors after scores are posted.) Click Create PDF Report to view your student list.
- Step 4: Review student information and make notes of any needed corrections.

3. How do I correct data on the DLM-AA Correction and Scores Report?

- Take the following steps:
 - Step 1: Log in to SIS.
 - Step 2: Click on Assessment (in blue column on left), then Correction, then DLM-AA. Enter SID number and one of the following: Last Name, First Name, or Date of Birth. Click Search.
 - Step 3: Click Edit and make the needed update(s). Click Submit.

Correct indicators as needed, paying special attention to the "First Year in U.S. School" indicator.

- Enter [RNVTA](#) codes, as applicable. Rely on your local records.

Notes about entering RNVTA codes:

- *SIS entry and exit dates are included in the Assessment Correction and Scores Report to assist with this review.*
- *If a student started testing in your school and completed testing in a different school, enter code 07 (Transferred Out Prior to Testing) as the RNVTA for all applicable content tests. Score data for all tests will be attributed to the new school.*
- *If a student enrolled in your school but had already started/completed testing in his/her previous school or transferred in too late to test feasibly, enter code 08 (Transferred In After Test Administration) as the RNVTA.*
- *Any student without a Performance Level or RNVTA will be considered to be "Absent from Testing," which negatively affects participation rate and possibly percent proficient rate.*
- *If no scores are present, the school must enter the applicable RNVTA (likely [RNVTA code 10 or 15](#), unless another code applies).*
- *If a student did not test due to being a Private School Student (must show PSS=Yes in SIS program indicators tab), apply [RNVTA 16](#).*

- To update via batch, request an Assessment DLM-AA Correction and Scores File:

- Log in to SIS.
- Click on Batch File Processing to expand section.
- Click on Request File.
- Click on the dropdown menu to select Assessment DLM-AA Correction and Scores.
- Click on Request File.

The request will be processed, and a file will be sent to the Upload/Download File link in SIS. Once the DLM-AA Correction and Scores file has been downloaded, the data will need to be inserted into a DLM-AA Correction and Scores template. The following fields can be updated: LEP Indicator, IDEA Services (IEP) Indicator, FRL/Low Income Indicator, Homeless Indicator, 21st Century Indicator, Testing School RCDTS (only if scores are not matched yet), Valid Grade at Time of Testing, Reason for No Valid Test Attempt, and First Year in U.S. School.

If a batch template is needed, the DLM-AA Correction and Scores template can be downloaded from the [SIS Excel Templates webpage](#) under Assessment. Tips for completing and uploading the DLM-AA Correction and Scores template are on this webpage.

4. What should I review in the DLM-AA Correction and Scores Report after scores are posted?

- Verify all students who tested have score data.
- Enter [RNVTA](#) codes, as applicable, for any record with error code 1. Rely on your local records. Enter [RNVTA code 10](#) unless another code applies.
- For any student who has tested but has error code 1, check the Unassigned Test Results Report for missing score data. ISBE will be contacting districts that have unresolved unassigned test results.
- If a student has score data but did not test at your school, contact the Assessment Department for assistance.
- Verify there are no error codes for any student record. (See Column S of the report.)

Error Code 1	Student score data are expected but missing. Enter an RNVTA or check for score data in Unassigned Test Results Report if you know the student tested.
Error Code 2	Student has multiple scale scores for the same content area in more than one school. Contact the Assessment Department at 866-317-6034 or assessment@isbe.net for assistance.
Error Code 3	Grade of Test Taken does not match Grade. Edit Grade in the Correction file to match the grade of the test taken or contact the Assessment Department at 866-317-6034 or assessment@isbe.net to suppress score data.

5. How do I check and resolve any unassigned DLM-AA scores?

- Step 1: Log in to SIS.
- Step 2: Click on Assessment (in blue column on left), then select Unassigned.
- Step 3: Click to open the DLM-AA Unassigned section. You can select a specific school or leave for the entire district.
