# 2026 ILLINOIS SCIENCE SUMMIT:

## EXPLORING THE SCIENCE OF LIFE, INNOVATION & THE UNIVERSE

### DAY 3: PEORIA PLANETARIUM & CATERPILLAR VISITORS CENTER EXPERIENCE

Join us for an interactive day exploring science and engineering in Peoria, featuring experiences at the Peoria Riverfront Museum Planetarium and the Caterpillar Visitors Center.

- Morning at the planetarium: Focus on NGSS Earth and Space Science, emphasizing immersive astronomy for inquiry-based learning and scientific modeling.
- Afternoon at Caterpillar: Explore NGSS Engineering Design through exhibits, highlighting engineering challenges, innovation, and real-world applications.

Participants receive lunch, professional development hours, and classroom-ready materials. Register for this session or attend the full three-day Engaging Science Summit (June 9–11) for more STEM learning opportunities.
