

Illinois State Board of Education

Illinois Early Childhood Outcomes Committee Faculty Newsletter

Basics of Early Childhood Outcomes January, 2020

The purpose of the Early Childhood Outcomes (ECO) System Stakeholders Committee is to assist the Illinois State Board of Education in the development and enhancement of the Early Childhood Outcomes Measurement System in Illinois. The ECO Faculty Training sub-committee was developed to work towards the goal of increasing knowledge and competencies of both higher education faculty and new graduates in understanding the federal and state ECO requirements.

Goal: Identify the three Early Childhood Outcomes and describe the uses of outcomes measurement.

Resource	Description
Applied Practice for Childhood Outcome Summary Skill Building Activity.	This resource includes case study information for three different aged children in order to practice completing an early childhood outcomes rating.
<p>Resource Link: https://ectacenter.org/~pdfs/eco/COS-Applied-Practice_Activity.pdf Illinois Summary Form Instruction Document: https://www.isbe.net/Documents/II-Child-Outcome-Summ-Form-Sample-Instr.pdf Illinois Summary Form: https://www.isbe.net/Documents/ec_outcomes_sum_1pg.pdf</p>	
<p><u>Course integration Idea:</u> Ask students to review one of the case studies. Provide the Illinois Summary Form and instruction document. Students complete the form and practice collecting evidence and rating the child</p>
