TO: The Honorable John J. Cullerton, Senate President
The Honorable William E. Brady, Senate Minority Leader
The Honorable Michael J. Madigan, Speaker of the House
The Honorable Jim Durkin, House Minority Leader

FROM: Tony Smith, Ph.D. 
State Superintendent of Education

DATE: June 2018

SUBJECT: FY 2016 through FY 2017 Preschool for All (PFA) Biennial Report

The Illinois State Board of Education (ISBE) respectfully submits this two year, FY 2016 through FY 2017 Preschool for All (PFA) report to the General Assembly in fulfillment of the requirements of Section 2-3.71(a)(6) of the Illinois School Code.

This report considers the demographics of PFA children during the relevant period. It also provides analyses of the academic performance of former PFA students on the Partnership for Assessment of Readiness for College and Career (PARCC) assessment.

If you have any questions regarding this report, please contact Lynn Burgett, Division Supervisor, Early Childhood Division, at (217) 524-4835.

Enclosure

Foreword

This Preschool for All (PFA) Biennial Report for fiscal years 2016 and 2017 intends to fulfill the requirements outlined in Section 2-3.71 (a) (6) of the Illinois School Code:

"The State Board of Education shall report to the General Assembly by November 1, 2018 and every 2 years thereafter on the results and progress of students who were enrolled in preschool educational programs, including an assessment of which programs have been most successful in promoting academic excellence and alleviating academic failure. The State Board of Education shall assess the academic progress of all students who have been enrolled in preschool educational programs."

Collection of program information contained herein occurred in FY 2016 and FY 2017 from various sources as outlined in the Discussion of Data section. Analysis and commentary of these data center on the deliverables outlined in the legislation above:

1. Demographic and risk indicator characteristics of students served by entities that received funding from PFA programs
2. Program evaluation results from the ExceleRate Illinois Quality Rating and Improvement System (QRIS) for programs evaluated during FY 2016 and FY 2017
3. Academic progress of former PFA children performance as measured by the Partnership for Assessment of Readiness for College and Career (PARCC) for 3rd graders in FY 2016 and FY 2017

For more information, please contact Lynn Burgett, Division Supervisor, Early Childhood Division, at (217) 524-4835.

Program Background

In 1985, the Illinois State Board of Education (ISBE) adopted a policy on early childhood education and was authorized by legislation to administer grants to school districts to operate prekindergarten programs for children 3 to 5 years of age. Other eligible entities have been able to receive the grant since FY 2004. The eligible population to be served in this program is defined in Section 2-3.71 (a) (4.5) of the Illinois School Code. The Preschool for All program has received funds since FY 2007.

Children who are at risk are eligible under this grant. Also, children can be eligible if the family income is less than four times the Federal Poverty Level. Children are identified for the program through individual screening and assessment, not by their membership in a given group or the characteristics of their families. Individual projects establish their own eligibility criteria and methods for screening based on local needs. ISBE requires the following to be included in screening: fine and gross motor skills, cognitive development, visual-motor integration, language and speech development, vocabulary, English proficiency, and social competence. Information on family history is also collected. Criteria such as low income, homelessness, single parenting, teen parenting, the parents' education level, drug/alcohol abuse, etc. are also used by projects to determine program eligibility. No single uniform eligibility standard or screening system is applied to all age-appropriate populations. Program eligibility is based on local needs; therefore, the characteristics and services of the programs vary according to the needs of the participants.

Executive Summary

Data Highlights

Enrollment Counts

From FY 2016¹ to FY 2017 children served declined by nearly 1,000 as shown in Figure 1. The decline in enrollment is almost exclusively due to CPS enrollments, down over 1,000 from FY 2016 to FY 2017. Enrollments have experienced a similar trend going back at least through FY 2014 with CPS enrollments down 3,500 children from FY 2014 to FY 2017. The data suggest out migration from the Chicago area may be a possible reason for lower enrollment totals over this timeframe.

Figure 1 - Number of participating children served in FY 2016 and FY 2017 split by CPS and Downstate

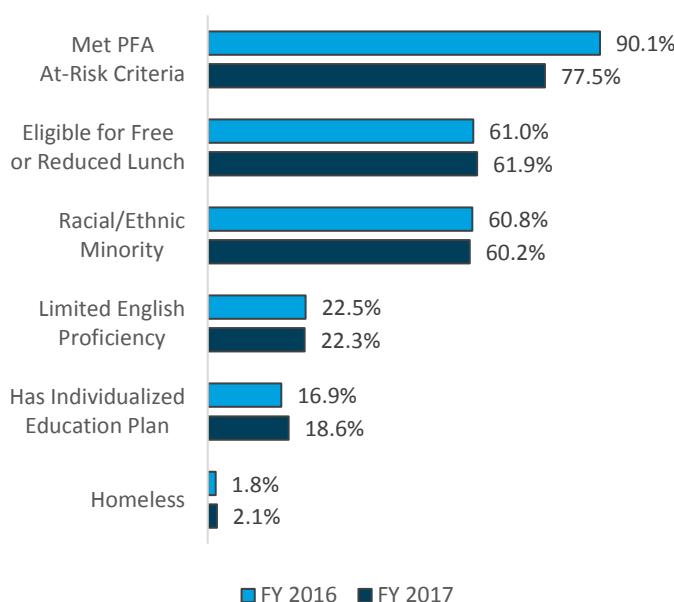

Figure 2 - Demographic traits and risk indicator percentages in FY 2016 and FY 2017

Program Quality

Over 375 program evaluations were completed between FY 2016 and FY 2017 as part of the ExceleRate Illinois Quality Rating and Improvement System (QRIS)³. A Gold Circle of Quality Award was granted to more than 50 percent of the 167 programs evaluated in FY 2016 and to over 70 percent of the 210 programs evaluated in FY 2017. Over 97 percent of programs evaluated in each fiscal year received a Silver or Gold Circle of Quality Award as shown in Figure 3.

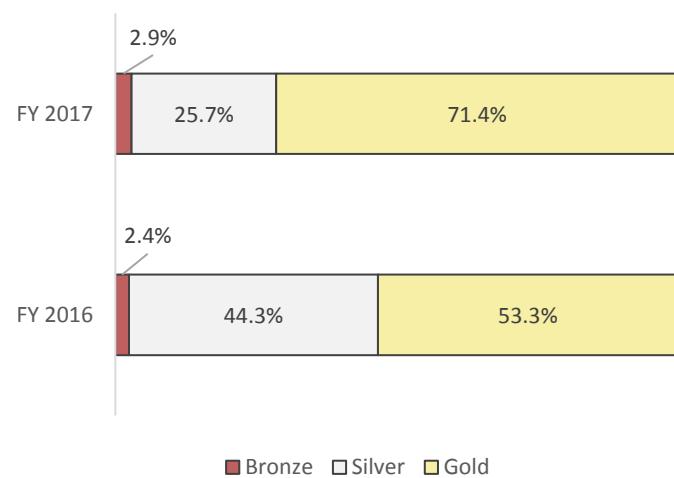

Figure 3 - Circle of Quality award percentage of all programs evaluated in FY 2016 and FY 2017

¹ See Data Limitations for more information on FY 2016 children served totals

² Volatility is influenced heavily by the intentionally dynamic definition of “at-risk” in context of the local community of service

³ See Quality Rating and Improvement System for more detailed information

Discussion of Data

Data Limitations

Program data submitted through IWAS is self-reported information for each PFA program. To ensure data quality, SIS provides a comprehensive data import process that validates information uploaded into SIS follows required element guidelines including appropriate data types, field length and business logic. SIS also provides a data quality dashboard where programs can review uploaded data and identify missing elements. Finally, SIS provides programs the ability to indicate erroneous records to prevent their inclusion into final reports. A complete list of validations is maintained in the Student Information System (SIS) System Validations⁴ document. SIS also provides a data quality dashboard where programs can identify potential issues.

Some SIS child records contained incomplete and/or erroneous demographic and risk indicator information in FY 2016. The impacted population was less than 100 records and as such makes up a very small portion of the overall population. Because this impacts data aggregates, the reader will note slight discrepancies when comparing demographic subtotals to overall program totals. These differences have been noted where appropriate throughout this report.

Sources

ISBE Web Application Security (IWAS)

PFA programs across the state interact with ISBE through a common access point known as IWAS. IWAS allows credential provisioning and authentication for all ISBE data systems. Programs are granted access to a number of data systems ranging in function from simple data collection to end to end grant application processing. ISBE staff can communicate with programs through IWAS blasts that include reminders on due dates, changes in data collection or other data related notifications.

Student Information System (SIS)

SIS is a statewide data system developed by ISBE and IBM Corp. PFA programs submit child and caregiver records with the required elements outlined in the SIS Data Elements⁵ documentation. These data include demographic information, enrollment details and risk indicators. In addition to data collection, SIS allows programs to view descriptive reports of their data.

Electronic Grants Management System (eGMS)

The eGMS provides a common and consistent grant process for education agencies as well as ISBE staff. Programs can apply, amend, and submit grant applications directly to ISBE. Data contained in eGMS include financial/budgetary information, program details, estimated enrollment counts, and directory information.

Illinois Early Childhood Asset Map (IECAM)

IECAM is an early childhood access point for data, legislation and resources partially funded by ISBE. IECAM's stated goals are to provide assistance in the legislative process, to make public resource allocation transparent and to enhance access to data germane to early childhood (IECAM, 2018). For purposes of this report, IECAM provides access to U.S. Census Bureau demographic data and risk indicator population estimates. IECAM uses Public Use Microdata Sample (PUMS) data, ISBE data, and geographic data to provide geographical context to early childhood needs and services across the state.

⁴ See Links section for hyperlink to SIS validation documentation

⁵ See Links for hyperlink to SIS data elements documentation

ExceleRate Illinois

ECERS-R evaluation and ISBE compliance checklist data for PFA program evaluations are collected by National Louis University and provided to ISBE for rating calculation. Ratings are calculated per the definitions stipulated in the ExceleRate Illinois Circles of Quality chart (ExceleRate Illinois, 2017). ExceleRate provides access to PFA program awards through their website.

Data Tables

The following data tables provide a demographic profile of the population being served by PFA programming, funding summary information, program quality evaluations, and budgetary/service level information. Broadly, these data are used to ensure program accountability, to ensure equity and accessibility, to confirm priority populations are being served, and to identify future needs.

Demographics

PFA programming aims to serve children most at risk of academic failure due to several risk factors. Demographic data collected in both fiscal years confirms that an overwhelming majority of children served meet one or both of two key risk indicators – PFA at-risk criteria and free or reduced lunch eligibility (FRL). Over 90 percent served in FY 2016 and 75 percent served in FY 2017 met PFA at-risk criteria. FRL eligible children made up 60 percent of those served in both years. These populations are important because research indicates these children are most at-risk of academic failure, especially when in combination (Rathbyn, West, & Walston, 2005).

Simply serving these children is not enough. Quality service is paramount in providing them a foundation for academic and social growth. QRIS evaluations allow ISBE and the public to identify high performance programs. During the FY 2016 and FY 2017 evaluations, 97 percent of programs were awarded the Gold or Silver designation. These awards give caregivers confidence that children are served appropriately given their unique needs and give ISBE confidence that funding is being used effectively.

Table 1 - Number and percentage of participating children by race/ethnicity

	FY 2016 ⁶		FY 2017

Geographical Need for Services

Research shows that two primary factors can contribute to a child's future academic stagnation, when present at an early age: **poverty** and **limited parental education**. In addition to correlating with lower academic achievement, these factors are more likely to be present in the lives of children with multiple other risk factors (e.g, singleparent household, primary home language other than English). (Rathbyn, West, & Walston, 2005)

In the State of Illinois, approximately 465,000 parents lack a completed high school education, accounting for 13 percent of parents and guardians statewide⁸. Meanwhile, more than 210,000 children age 5 and under live at or below the 100 percent Federal Poverty Level, or almost a quarter (22.6 percent) of children age 5 and under statewide⁹. Visually exploring the spread of poverty and limited education in Illinois can yield a better understanding of where PFA program sites are meeting the population's needs, and where needs are waiting to be met. The next two pages include an overlay of FY 2017 PFA sites on top of poverty and education data by county throughout the state of Illinois.

⁸ Data represent most recent year publicly available – FY 2015, sourced from IECAM

Cohort PARCC Performance

FY 2016 marks the first year where substantial assessment data exist for former PFA students. Partnership for Assessment of Readiness for College and Career (PARCC) assessment begins in third grade, requiring at least four school years for former PFA students to show up in achievement results. In the previous PFA Triennial Report, limited data was available, but data available for FY 2016 and FY 2017 includes nearly 70,000 individual achievement results in each year.

Restrictions have been placed on these data to ensure a consistent data set. For purposes of this report, cohorts are populated based on the last year a child was enrolled in a PFA program and the first year they received the PARCC assessment as a third grader. PARCC data with missing or incomplete scores across mathematics (Math) and English language arts (ELA) subjects are excluded.

To help illustrate how a cohort is populated in this report, suppose a child was enrolled in a PFA program in 2012. This child moves on to kindergarten and finally in 2016 is enrolled in a third grade classroom. The child receives the PARCC assessment for the first time. This child would be placed in the 2012 Cohort. Any further results (e.g. in 2017 as either a fourth grader or third grader again) are excluded from this data set for this child.

2012 and 2013 cohort performance is virtually identical. Between assessment subjects, the most notable difference was that student performance that fell into the lowest performance level in ELA was nearly 9 points higher than the same performance level for Math. Students approaching or meeting expectations in Math (56 percent in both years) was almost 5 points higher than the same group for ELA (close to 51 percent in both years). FY2012 and FY2013 PFA demographic data indicate 1 in 5 children were identified as limited English proficiency (LEP), which is close to double the broader state population. This may be a factor in the performance difference between Math and ELA subjects.

Figure 6 - Count (top) and percentage (bottom) of PARCC achievement results for children previously enrolled in a PFA program

Budget, Expenditures, and Service Levels

The following table contains data used by ISBE to identify programs meeting the budgetary requirements for receiving PFA funding. Service levels are the most important expression of how programs use PFA funds. Comparing the “To Be Served” total with the “Actually Served” total is a simple way to identify programs using PFA funds effectively.

Table 6 - Budget, Expenditures and Service Levels by program in FY 2016 and FY 2017

Table 7 - Budget, Expenditure, and Service Level Totals for all Programs in FY 2016 and FY 2017

Total Budget (\$)	Total Expenditures (\$)	Administrative Expenditures (\$)	Children To Be Served (#)	Children Actually Served (#)
FY 2016 ^{11,12}	246,406,090	244,454,928	8,870,487	72,573
FY 2017 ¹²	299,505,168	295,374,445	8,846,795	72,713

¹¹ See Data Limitations for more information on FY 2016 children served totals

¹² Prior to FY 2018, the disbursement split between programs was not tracked for CPS; CPS values in these totals are from budgeted amounts in IWAS

Additional Resources

Quality Rating and Improvement System

Preschool for All began to participate in the ExceleRate Illinois Quality Rating and Improvement System (QRIS) in FY 2012. PFA programs are monitored at least once every three years. Programs that receive ISBE coaching services may be monitored more than once in an evaluation cycle. PFA programs are rated for quality based upon the Early Childhood Environment Rating Scale (ECERS-R) metric, as well as certain items of the ISBE PFA Compliance Checklist (beginning FY 2015). From these metrics, the evaluated program is determined to fall into one of three Circles of Quality - Gold, Silver, or Bronze.
