

FY21 Truants' Alternative and Optional Education Program (TAOEP) Request for Proposal (RFP)

Frequently Asked Questions (FAQs)

As a Program Administrator, how do I get access to the RFP application in IWAS?

- A. Access to the grant application is commonly granted by the District Administrator through IWAS. However, if the District Administrator does not have access to the grant application in IWAS, he/she must sign up for the TAOEP RFP. If there are still access issues, please contact ISBE IT Help Desk at 217-558-3600 for assistance. Please have your RCDT code available when contacting ISBE.

Is it allowable for an entity, such as a school district, to submit more than one proposal?

- A. No, only one proposal can be submitted per entity. See [Section 205](#) of the 23 Ill. Admin. Code for rules regarding eligible applicants.

If a Regional Office of Education (ROE) or Intermediate Service Center (ISC) applies or currently has a TAOEP grant and another eligible entity within the region wants to complete an application, what is required to allow both entities to have a TAOEP program?

- A. Two eligible entities can separately apply for TAOEP programs that propose to serve the same population of students if the proposed services are not duplicative in nature. In that case, both entities can apply by providing a Service Agreement in the upload section of both grant applications. The Service Agreement must outline the services being provided by each entity and describe how services complement each other. Signatures from both entities will be required.

On the Districts Served page in the RFP, do I need to send the signature page to the Illinois State Board of Education?

- A. No, however the eligible entity must print the signature page and acquire original signatures from all participating districts. The form will be kept on file with the eligible entity and may also be uploaded to the grant application.

Can an entity create a proposal for both truancy intervention services and an optional education program?

- A. Yes, an entity can submit a proposal for both truancy intervention and an optional education program.

On the Projected Sites page, do I need to complete if providing truancy intervention services to school districts?

- A. Yes, please identify all schools that are receiving services in your proposal.

On the Projected Sites page, when and why would I check the box for claiming students for EBF?

- A. The box for claiming students may be checked if students are attending a serving site for an optional education program full-time. Check the box even if only one student will be claimed out of the total number entered.

Why are the GATA pages missing from the RFP application?

- A. The GATA pages will not be included in the RFP proposals. After the Merit Based Review Process and application scoring, entities will be selected for grant awards. The selected grantees will then complete all GATA requirements and GATA pages uploaded into their applications.

On the Budget Detail page, how do I know what function and object coding to use?

- A. Click on the instructions link located near the upper right of the page. This link will provide information on how to complete the budget detail. For additional grant-related information, please use this link from our Funding and Disbursements Department: [State and Federal Grant Administration Policy, Fiscal Requirements, and Procedures](#).

On the Projected Sites Page, there is a section to enter the RCDTS code for the alternative school. For regional programs, do we need to include the additional school site code?

- A. Yes, please include the entire code.
As an example, the ROE #2 will have a RCDTS code of 02-000-0000-00-9201 for the alternative school. New regional program sites will have to request a school site code through a process with the Entity Profile System (EPS). Please contact the TAOEP grant consultant for additional information.
