

FY 2025 College and Career Pathway Endorsement Recipients

College and Career Pathway Endorsements (CCPE) are a structured set of requirements developed under Illinois’ Postsecondary and Workforce Readiness (PWR) Act that recognize when a student has completed a coherent, career-aligned high school experience that prepares them for both postsecondary education and the workforce. To earn a CCPE, students complete at least two years of career-focused coursework with opportunities for early college credit, participate in professional learning activities such as career exploration and team-based challenges, and finish at least 60 hours of authentic work-based learning experiences. The CCPE framework is designed to connect classroom learning to real career pathways and demonstrate readiness for future academic and career success.

Looking ahead, there are several key CCPE dates and implementation milestones districts should plan for. Each year, Dec. 15 is the deadline for submitting all Individualized Career Plans (ICPs), pathway applications, and opt-out applications for the current school year, while March 1 requires all of these submissions to be in approved status. By June 1, all applications close and roll over to the next school year. In terms of implementation, districts must progressively expand CCPE offerings: beginning with the Class of 2027, districts are required to offer CCPEs in at least one endorsement area; by the Class of 2029, at least two endorsement areas must be available; and by the Class of 2031, districts with more than 350 students in Grades 9-12 must offer CCPEs in at least three endorsement areas.

*Please note that Counts shown in this report may not add up exactly as some readers might expect. The “All” total reflects a distinct count of students who received one or more College and Career Pathway Endorsements. Individual endorsement categories are not mutually exclusive.

As a result, a student who earns multiple endorsements (for example, both Human and Public Services (HPS) and Health Sciences and Technology (HST)) is counted once in the “All” total but appears in each applicable endorsement category. This may cause individual endorsement totals to exceed the overall student count.

State Level	
Total Number of School Districts	212
Total Number of Students	2671

Endorsement Areas	Total Number of Earners	Total Number of Approved Pathway Applications
Arts and Communications	47	15
Agriculture, Food, and Natural Resources	116	38
