Student Information System

The Every Student Succeeds Act increased accountability and reporting requirements regarding student academic achievement. ISBE and the IBM Corp. developed a state-level Student Information System (SIS) to fulfill these and other federal and state reporting requirements. Students are assigned a unique identification number. All data to and from the state will use that unique identifier. The use of individual student records:

- Increases the state's capacity to follow a student's progress over time,
- Provides better quality data to drive more enlightened policy decisions resulting in enhanced educational opportunities for all children,
- Reduces data collection burden on schools and districts, and
- Enhances the use and relevance of state data by districts and schools.

IEP- Student Tracking and Reporting Plus (I-Star Plus)

I-Star Plus is an enhanced version of the existing IEP-Student Tracking and Reporting (I-Star) System application and serves as the agency’s web-based system that allows school districts and special education cooperatives to input, manage, and approve data for students with disabilities. Data can be entered and edited using online screens or submitted via batch file processing. I-Star Plus serves as the primary approval process for students with disabilities who are claimed for reimbursement under Sections 14-7.02 (Private Facility Tuition and Separate Public Day School); 14-7.02b (Students with Excess Cost); 14-7.03 (Orphanage); and 14-13.01b (Special Transportation) of the School Code [105 ILCS 5]. Many data elements are collected to comply with the Individuals with Disabilities Education Act Section 611 Part B Flow Through for students ages 3-21 and Section 619 Preschool for students ages 3-5.

Per Section 2-3.30 of the School Code, I-Star Plus compiles an unduplicated count of students with disabilities reported annually to the federal government. It is critical that all students with disabilities who are receiving services as of December 1 each year are reported accurately in an approved status in I-Star Plus. ISBE will only use approved student data to compile and report the December 1 child count, as well as process state reimbursement to districts that file claims. I-Star Plus validates all student entries via coordination and alignment with the Student Information System (SIS). A required SIS identification allows student demographics to automatically be populated, eliminating duplicate entry for school districts.

In addition, I-Star Plus verifies all personnel entries via coordination and alignment with the Employment Information System (EIS), which collects and analyzes employee-related information directly from districts. Personnel entries for proper licensure and endorsements are confirmed against the Educator Licensure Information System (ELIS), which allows all ISBE associate roles such as educators, administrators, district employees, licensure officers, and Regional Offices of Education to operate in one system. Please note that I-Star Plus also is used to collect data on select indicators of the State Performance Plan (SPP). Indicator data is used to make Local Education Agency (LEA) determinations and issue letters of noncompliance. It is critical that accurate indicator data is submitted regularly into I-Star Plus to avoid any findings of noncompliance and/or corrective actions that a district must address.

Why Does ISBE Collect Special Education Data?

IDEA gives OSEP the authority to collect data from states for the purposes of:

- ✓ **Monitoring compliance of implementation of special education programs.**
- ✓ **Analyzing the use of IDEA to improve outcomes for students with disabilities.**
- ✓ **Determining the technical assistance OSEP will provide states to meet IDEA requirements.**

Part B and Part C Section 616 Public Reporting Requirements

Per 34 CFR 300.602, states must:

- Report annually to the public the performance of the Local Education Agency (LEA) on the targets in the State Performance Plan as soon as practicable, but no later than 120 days following submission of the Annual Performance Report.
- Make each of the following items available through public means:
 - The state's performance plan, under §300.601(a);
 - Annual performance reports, under paragraph (b)(2) of this section;
 - And the state's annual reports on the performance of each LEA located in the state under paragraph (b)(1)(i)(A) of this section.
- In doing so, the state must, at a minimum, post the plan and reports on the State Education Agency (SEA) website and distribute the plan and reports to the media and through public agencies.
- The state must report annually to the secretary of the U.S. Department of Education (ED) on the performance of the state under the state's performance plan.

Part B and Part C Section 618 Data Submission Requirements

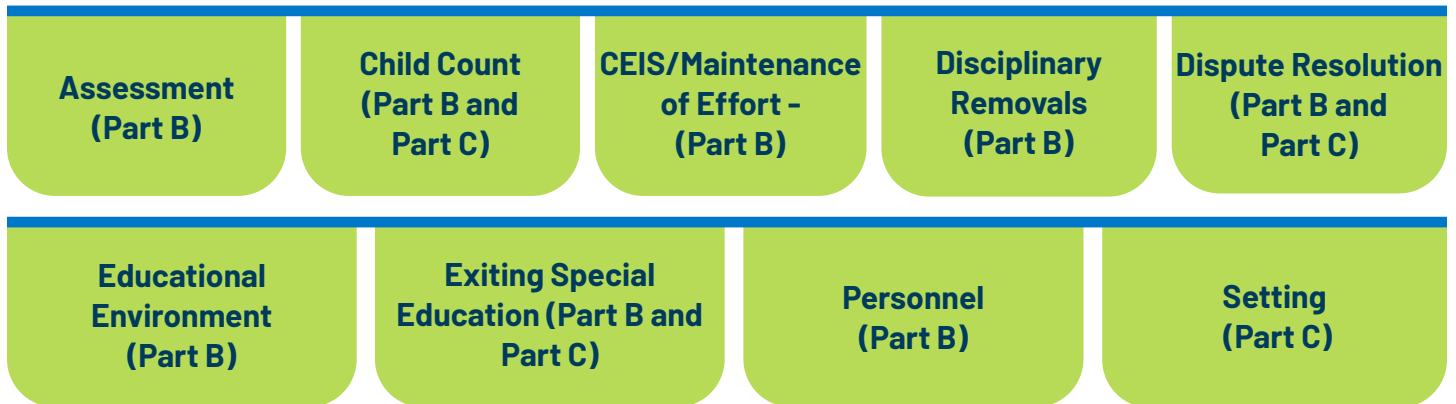

Per 34 CFR 300.640,

- The SEA must annually report to the ED secretary on the information required by Section 618 of the Act at the times specified by the secretary.

Section 618 of the IDEA requires each state to submit data about:

1. Infants and toddlers who receive early intervention services under Part C of the IDEA.
2. Children with disabilities who receive special education and related services under Part B of the IDEA.

IDEA Section 618

State Performance Plan/ Annual Performance Report

In accordance with 20 U.S.C 1416(b)(2)(C)(ii)(II) of the Individuals with Disabilities Education Act (IDEA), the Illinois State Board of Education (ISBE) is required each February to submit an Annual Performance Report (APR) to the Office of Special Education Programs (OSEP) regarding the state’s overall performance in relation to the 18 Indicators included in the State Performance Plan (SPP).

The SPP is developed as a six-year plan that is composed of compliance indicators, including Suspension/Expulsion (Race/Ethnicity), Disproportionality, Early Childhood Transition, Evaluation Timelines (Child Find), Secondary Transition, and results indicators, including Graduation, Drop Out, Assessment, Educational Environments, Early Childhood Outcomes, Parent Involvement, Post-School Outcomes, Resolution/Mediation Sessions, and the State Systemic Improvement Plan. Each indicator incorporates a measurable and rigorous target for each year of the SPP cycle, and these targets are used as a basis for analyzing each district’s data for students with disabilities.

Compliance Indicators	Results Indicators
Indicator 4b - Suspension/Expulsion	Indicator 1 - Graduation
Indicator 9/10 - Disproportionality	Indicator 2 - Drop Out
Indicator 11 - Evaluation Timelines (Child Find)	Indicator 3 - Assessment
Indicator 12 - Early Childhood Transition	Indicator 4a - Suspension/Expulsion
Indicator 13 - Secondary Transition	Indicator 5/6 - Educational Environments
Indicator 18- General Supervision	Indicator 7 - Early Childhood Outcomes
	Indicator 8 - Parent Involvement
	Indicator 14 - Post-School Outcomes
	Indicator 15/16 - Resolution Sessions/Mediation
	Indicator 17 - State Systemic Improvement Plan

Additional information regarding the State Performance Plan, including the Annual Performance Report, can be found on the [ISBE Special Education webpage](#) under the State Performance Plan & Annual Performance Plan button.

Indicator 1: Graduation

Indicator 1 is a results indicator that measures the percentage of youth with IEPs graduating from high school with a regular diploma.

Data Source

The ISBE data source is the same data as used for reporting to ED under Section 618 of IDEA, using the definitions in EDFacts file specification FS009. **The data for this indicator lags one year.** See table below.

School Year	LEA Determination Year
2020-21	2021-22
2021-22	2022-23
2022-23	2023-24
2023-24	2024-25
2024-25	2025-26

Measurement

Number of youth with IEPs (ages 14-21) who exited special education due to graduating with a regular diploma in the numerator and the number of all youth with IEPs who left high school (ages 14-21) in the denominator (in a single year).

Targets for Federal Fiscal Years 2020-25

- SPP 1 - FFY 2020-24 target of 82.6%
- SPP 1 - FFY 2025 target of 84%

Indicator 2: Drop Out

Indicator 2 is a results indicator that measures the percentage of youth with IEPs dropping out of high school.

Data Source

The ISBE data source is the same data as used for reporting to ED under Section 618 of IDEA, using the definitions in EDFacts file specification FS009. **The data for this indicator lags one year.** See table below.

School Year	LEA Determination Year
2020-21	2021-22
2021-22	2022-23
2022-23	2023-24
2023-24	2024-25
2024-25	2025-26

Measurement

Number of youth with IEPs (ages 14-21) who exited special education due to dropping out in the numerator and the number of all youth with IEPs who left high school (ages 14-21) in the denominator (in a single year).

Targets for Federal Fiscal Years 2020-25

- SPP 2 - FFY 2020-24 target of 13.7%
- SPP 2 - FFY 2025 target of 13%

Indicator 3a: Assessment – Participation

Indicator 3a is a results indicator that measures the participation of children with IEPs on statewide assessments.

Data Source

Same data as used for reporting to ED under Title I of the Elementary and Secondary Education Act (ESEA), using EDFacts file specifications FS185 and FS188.

Measurement

3a. Percent Calculation

Number of children with IEPs participating in an assessment.

Total number of children with IEPs enrolled during the testing window.

The participation rate is based on all children with IEPs, including both children with IEPs enrolled for a full academic year and those not enrolled for a full academic year.

Indicator 3b: Assessment – Proficiency Rate for Regular Assessment

Indicator 3b is a results indicator that measures the proficiency rate of children with IEPs against grade level academic achievement standards.

Data Source

Same data as used for reporting to the ED under Title I of ESEA, using EDFacts file specifications FS175 and FS178.

Measurement

3b. Percent Calculation

Number of children with IEPs scoring at or above proficient against grade level academic achievement standards.

Total number of children with IEPs who received a valid score and for whom a proficiency level was assigned for the regular assessment.

The proficiency rate includes both children with IEPs enrolled for a full academic year and those not enrolled for a full academic year.

Targets for Federal Fiscal Years 2020-25

- SPP 3b - Gr11 - FFY 2020-24 target of 6.5% and FFY25 target of 7%

Indicator 3c: Assessment - Proficiency Rate for Regular Alternate Assessment

Indicator 3c is a results indicator that measures the proficiency rate of children with IEPs against alternate achievement standards.

Data Source

Same data as used for reporting to ED under Title I of ESEA, using EDFacts file specifications FS175 and FS178.

Measurement

3c. Percent Calculation

Number of children with IEPs scoring at or above proficient against alternate academic achievement standards).

Total number of children with IEPs who received a valid score and for whom a proficiency level was assigned for the alternate assessment.

The proficiency rate includes both children with IEPs enrolled for a full academic year and those not enrolled for a full academic year.

Indicator 3d: Assessment - Proficiency Gap

Indicator 3d is a results indicator that measures the gap in the proficiency rate of children with IEPs against grade level academic achievement

Data Source

Same data as used for reporting to the ED under Title I of ESEA, using ED Facts file specifications FS175 and FS178.

Measurement

3d. Percent Calculation

Proficiency rate for children with IEPs scoring at or above proficient against grade level academic achievement standards for the school year.

Proficiency rate for all students scoring at or above proficient against grade level academic achievement standards for the school year.

The proficiency rate includes all children enrolled for a full academic year and those not enrolled for a full academic year.

Indicator 4a: Suspension/Expulsion (Overall)

Indicator 4a is a results indicator that measures the rates of suspension/expulsion (percentage of districts that have a significant discrepancy in the rate of suspensions/expulsions greater than 10 cumulative days in a school year for children with Individualized Education Programs [IEPs]).

Data Source

The federal data source is data collected as specified under Section 618 of the Individuals with Disabilities Education Act (IDEA)(Report of Children with Disabilities Subject to Disciplinary Removal). This includes FS006 Children with Disabilities Suspensions/Expulsions, FS002 Children with Disabilities (IDEA) School Age, and FS089 Children with Disabilities (IDEA) Early Childhood. The ISBE data source is the Discipline De-identified Table in the Student Information System. **The data for this indicator lags one year.** See table below.

School Year	LEA Determination Year
2020-21	2021-22
2021-22	2022-23
2022-23	2023-24
2023-24	2024-25
2024-25	2025-26

Measurement

4a. Percent Calculation

Number of LEAs that meet the state-established n and/or cell size (if applicable) that have a significant discrepancy, as defined by the state, in the rates of suspensions and expulsions for more than 10 days during the school year of children with IEPs.

Number of LEAs in the state that meet the state-established n and/or cell size (if applicable).

The state-specific calculations are:

District Level:

Total number of students with IEPs with more than 10 cumulative days of qualifying suspensions/expulsions in the district times 100 divided by the total number of students with IEPs in the district.

State Level:

Total number of students with IEPs with more than 10 cumulative days of qualifying suspensions/expulsions in the state times 100 divided by the total number of students with IEPs in the state. A statewide standard deviation is calculated for total population using the formula: Square root (percentage expelled or suspended times (100 minus the percent expelled or suspended)/total enrollment).

For Indicator 4a, a district is considered to have a significant discrepancy if:

- The district rate is greater than the state rate plus one standard deviation for three consecutive years, AND
- There are at least five students with IEPs suspended or expelled more than 10 days in each of the three school years.

Targets for Federal Fiscal Years 2020-25

- SPP 4a – FFY 2020 target of 3.80%
- SPP 4a – FFY 2021 target of 3.60%
- SPP 4a – FFY 2022 target of 3.40%
- SPP 4a – FFY 2023 target of 3.20%
- SPP 4a – FFY 2024 target of 3.20%
- SPP 4a – FFY 2025 target of 3.00%

Indicator 4b: Suspension/Expulsion (Race/Ethnicity)

Indicator 4b is a compliance indicator that measures the rates of suspension and expulsion (percentage of districts that have [a] a significant discrepancy, by race or ethnicity, in the rate of suspensions and expulsions greater than 10 days in a school year for children with Individualized Education Programs (IEPs), and [b] policies, procedures, or practices that contribute to the significant discrepancy and do not comply with requirements relating to the development and implementation of IEPs, the use of positive behavioral interventions and supports, and procedural safeguards.

Data Source

The federal data source is data collected under Section 618 of IDEA (Report of Children with Disabilities Subject to Disciplinary Removal). This includes FS006 Children with Disabilities Suspensions/Expulsions, FS002 Children with Disabilities (IDEA) School Age, and FS089 Children with Disabilities (IDEA) Early Childhood. The ISBE data source is the SIS Discipline De-identified Table.

Measurement

4b. Percent Calculation

Number of LEAs that meet the state-established n and/or cell size (if applicable) for one or more racial/ethnic groups that have (a)* and (b)*

Number of Local Education Agencies (LEAs) in the state that meet the state-established n and/or cell size (if applicable) for one or more racial/ethnic groups

× 100

***(a)** a significant discrepancy, as defined by the state, by race or ethnicity, in the rates of suspensions and expulsions of more than 10 days during the school year of children with IEPs;

***(b)** policies, procedures, or practices that contribute to the significant discrepancy, as defined by the state, and do not comply with requirements relating to the development and implementation of IEPs, the use of positive behavioral interventions and supports, and procedural safeguards) divided by the (number of Local Education Agencies (LEAs) in the state that meet the state-established n and/or cell size (if applicable) for one or more racial/ethnic groups)

The state-specific calculations are

District Level:

Total number of students with IEPs with more than 10 cumulative days of qualifying suspensions/expulsions in the district times 100 divided by the total number of students with IEPs in the district.

State Level:

Total number of students with IEPs with more than 10 cumulative days of qualifying suspensions/expulsions in the state times 100 divided by the total number of students with IEPs in the state.

The calculations are performed for the race subgroup at district and state levels if there are five or more students in the subgroup.

A statewide standard deviation is calculated for total population using the formula: Square root (percentage expelled or suspended times (100 minus the percent expelled or suspended)/total enrollment).

- For 4b, a district is considered to have a significant discrepancy if:
 - The district rate within a particular race/ethnicity subgroup is greater than the state rate plus one standard deviation for three consecutive years, AND
 - There are at least five students with IEPs within a particular race/ethnicity suspended or expelled more than 10 days in each of the three school years. The district is considered to have a significant discrepancy if the above conditional is met by at least one racial subgroup.

Targets for Federal Fiscal Years 2020-25

- SPP 4b – FFY 2020-25 target of 0%

Indicator 5: Educational Environment (K-21)

Indicator 5 is a results indicator that measures the percentage of school-aged students with Individualized Education Programs (IEPs) served:

- A) Inside the general education classroom 80% or more of the school day,**
- B) Inside the general education classroom less than 40% of the day, or**
- C) In separate schools/residential facilities/home/hospital placements.**

Data Source

The same data as used for reporting to the U.S. Department of Education under Section 618 of the IDEA, using the definitions in ED Facts file specification FS002. The ISBE data source is the I-Star Plus Pupil Count Table.

Measurement

5a. Percent Calculation

[(Number of children with IEPs aged 5 who are enrolled in kindergarten and aged 6 through 21 served inside the regular class 80% or more of the day) divided by the (total number of students aged 5 who are enrolled in kindergarten and aged 6 through 21 with IEPs)] times 100. This includes ISBE educational environment code 01.

5b. Percent Calculation

Indicator 6: Educational Environment (3-5)

Indicator 6 is a results indicator that measures the percentage of preschool children with Individualized Education Programs (IEPs) attending:

- A A regular early childhood program and receiving the majority of special education and related services in the regular early childhood program,**
- B A separate special education class/separate school/residential facility, or**
- C In the home.**

Data Source

The same data as used for reporting to the U.S. Department of Education under Section 618 of IDEA, using the definitions in EDFacts file specification FS002. The ISBE data source is the I-Star Plus Pupil Count Table.

Measurement

6a. Percent Calculation

[(Number of children ages 3, 4, and 5 with IEPs attending a regular early childhood program and receiving the majority of special education and related services in the regular early childhood program) divided by the (total number of children ages 3, 4, and 5 with IEPs)] times 100. This includes ISBE educational environment codes 30 and 32.

6b. Percent Calculation

[(Number of children ages 3, 4, and 5 with IEPs attending a separate special education class, separate school or residential facility) divided by the (total number of children ages 3, 4, and 5 with IEPs)] times 100. This includes ISBE educational environment codes 23, 24, and 25.

6c. Percent Calculation

[(Number of children ages 3, 4, and 5 with IEPs receiving special education and related services in the home) divided by the (total number of children ages 3, 4, and 5 with IEPs)] times 100. This includes ISBE educational environment code 26.

The total number of children ages 3, 4, and 5 with IEPs includes ISBE educational environment codes 23, 24, 25, 26, 27, 30, 31, 32, and 33.

Indicator 7: Early Childhood (Preschool) Outcomes

Indicator 7 is a results indicator that measures the percentage of preschool children aged 3 through 5 with IEPs who demonstrate improved:

- A Positive social-emotional skills,**
- B Acquisition and use of knowledge and skills, and**
- C Use of appropriate behaviors to meet their needs.**

Data Source

The ISBE data collection source is the SIS Early Childhood data and the Early Childhood Outcomes (state-selected data source). The source of the data is the Data Warehouse, including the updated operational database, and a snapshot database called the Reporting Data Store.

Measurement

- A** The progress rating will rate each of the three outcomes in one of five progress categories/levels of functioning:
- B** Did not improve functioning,
- C** Improved functioning, but not sufficient to move nearer to functioning comparable to same-aged peers,
- D** Improved functioning to a level nearer to same-aged peers but did not reach it,
- E** Improved functioning to reach a level comparable to same-aged peers, and
- F** Maintained functioning at a level comparable to same-aged peers

Indicator 8: Parent Involvement

Indicator 8 is a results indicator that measures the percentage of parents with a child receiving special education services who report that schools facilitated parent involvement as a means of improving services and results for children with disabilities.

Data Source

The ISBE data source is the Parent Survey (first 25 items) developed by the National Center for Special Education Accountability Monitoring.

Measurement

8. Percent Calculation

Number of respondent parents who report schools facilitated parent involvement as a means of improving services and results for children with

Total number of respondent parents of children with disabilities.

100

The proficiency rate includes all children enrolled for a full academic year and those not enrolled for a full academic year.

Indicator 9: Disproportionality (Special Education)

Indicator 9 is a compliance indicator that measures the percentage of districts with disproportionate representation of racial and ethnic groups in special education and related services that is the result of inappropriate identification. Indicator 9 compares the enrollment of all students to those students with Individualized Education Programs (IEPs) by race/ethnicity at a school, district, and state level.

Data Source

The federal data source is state child count data collected under IDEA Section 618 (Report of Children with Disabilities Receiving Special Education under Part B of IDEA, as Amended). This includes FS002 Children with Disabilities School Age, ages 5 (in kindergarten) through 21 served under IDEA). The ISBE data source is I-Star Plus special education Dec. 1 and SIS Sept. 30 counts.

Measurement

9. Percent Calculation

Number of districts, that meet the state-established n and/or cell size (if applicable) for one or more racial/ethnic groups, with disproportionate representation of racial and ethnic groups in special education and related services that is the result of inappropriate identification.

Number of districts in the state that meet the state established n and/or cell size (if applicable) for one or more racial/ethnic groups.

Indicator 10: Disproportionality (Specific Disability Category)

Indicator 10 is a compliance indicator that measures the percentage of districts with disproportionate representation of racial and ethnic groups in specific disability categories that is the result of inappropriate identification. Indicator 10 compares the enrollment of all students to those students with IEPs by race/ethnicity at a school, district, and state level.

Data Source

The federal data source is state child count data collected under IDEA Section 618 (Report of Children with Disabilities Receiving Special Education under Part B of IDEA, as Amended). This includes FS002 Children with Disabilities (IDEA) School Age, ages 5 (in kindergarten) through 21 served under IDEA). The ISBE data source is I-Star Plus special education 12/1 counts and SIS 9/30.

Measurement

10. Percent Calculation

Number of districts, that meet the state-established n and/or cell size (if applicable) for one or more racial/ethnic groups, with disproportionate representation of racial and ethnic groups in specific disability categories that is the result of inappropriate identification.

Indicator 11: Evaluation Timelines (Child Find)

Indicator 11 is a compliance indicator that measures the percentage of children who were evaluated within 60 school days of receiving parental consent for initial evaluation.

Data Source

The ISBE data source is I-Star Plus.

Measurement

- A** Number of children for whom parental consent to evaluate was received.
- B** Number of children whose evaluations were completed within 60 school days.

Percent = [(b) divided by (a)] times 100.

Targets for Federal Fiscal Years 2020-25

Indicator 12: Early Childhood Transition

Indicator 12 is a compliance indicator that measures the percentage of children referred by Part C prior to age 3, who are found eligible for Part B, and who have an Individualized Education Program (IEP) developed and implemented by their third birthdays.

Data Source

The ISBE data sources are the SIS Early Childhood Transition database and the ISBE Data Warehouse.

Measurement

- A** Number of children who have been served in Part C and referred to Part B for Part B eligibility determination.
- B** Number of those referred determined to be NOT eligible and whose eligibility was determined prior to their third birthdays.
- C** Number of those found eligible who have an IEP developed and implemented by their third birthdays.
- D** Number of children for whom parent refusal to provide consent caused delays in evaluation or initial services or to whom exceptions under 34 CFR §300.301(d) applied.
- E** Number of children who were referred to Part C fewer than 90 days before their third birthdays.
- F** Number of children whose parents chose to continue early intervention services beyond the child's third birthday through a state's policy under 34 CFR §303.211 or a similar state option.

Percent = [(c) divided by (a - b - d - e - f)] times 100.

Category F is to be used only by states that have an approved policy for providing parents the option of continuing early intervention services beyond the child's third birthday under 34 CFR §303.211 or a similar state option. This has been applicable in Illinois since the start of the 2021-22 school year.

Indicator 13: Secondary Transition

Indicator 13 is a compliance indicator that measures the percentage of youth with Individualized Education Programs (IEPs) aged 16 and above with an IEP that includes appropriate measurable postsecondary goals that are annually updated and based upon age-appropriate transition assessments; transition services, including courses of study, that will reasonably enable the student to meet those postsecondary goals; and annual IEP goals related to the student's transition service needs.

Data Source

The ISBE data source is I-Star Plus.

Measurement

13. Percent Calculation

Number of youth with IEPs aged 16 and above with an IEP that includes appropriate measurable postsecondary goals that are annually updated and based upon an age-appropriate transition assessment; transition services, including courses of study, that will reasonably enable the student to meet those postsecondary goals; and annual IEP goals related to the student's transition services needs. There also must be evidence that the student was invited to the IEP team meeting where transition services are to be discussed and evidence that, if appropriate, a representative of any participating agency that is likely to be responsible for providing or paying for transition services, including, if appropriate, pre-employment transition services, was invited to the IEP team meeting with the prior consent of the parent or student who has reached the age of majority

Indicator 14: Post-School Outcomes

Indicator 14 is a results indicator that measures the percentage of youth who are no longer in secondary school, had IEPs in effect at the time they left school, and were:

- A** Enrolled in higher education within one year of leaving high school,
- B** Enrolled in higher education or competitively employed within one year of leaving high school, or
- C** Enrolled in higher education or in some other postsecondary education or training program; or competitively employed or in some other employment within one year of leaving high school.

Data Source

The ISBE data source is I-Star Plus.

Measurement

- A** Percent enrolled in higher education = $\left[\frac{\text{Number of youth who are no longer in secondary school, had IEPs in effect at the time they left school and were enrolled in higher education within one year of leaving high school}}{\text{number of respondent youth who are no longer in secondary school and had IEPs in effect at the time they left school}} \right] \times 100$
- B** Percent enrolled in higher education or competitively employed within one year of leaving high school = $\left[\frac{\text{Number of youth who are no longer in secondary school, had IEPs in effect at the time they left school, and were enrolled in higher education or competitively employed within one year of leaving high school}}{\text{number of respondent youth who are no longer in secondary school and had IEPs in effect at the time they left school}} \right] \times 100$.
- C** Percent enrolled in higher education, or in some other postsecondary education or training program; or competitively employed or in some other employment = $\left[\frac{\text{Number of youth who are no longer in secondary school; had IEPs in effect at the time they left school and were enrolled in higher education, or in some other postsecondary education or training program; or competitively employed or in some other employment}}{\text{number of respondent youth who are no longer in secondary school and had IEPs in effect at the time they left school}} \right] \times 100$.

Indicator 17: State Systemic Improvement Plan

Indicator 17 [The State Systemic Improvement Plan (SSIP)] is a results indicator that measures the proficiency rate for fourth grade children with IEPs against grade-level academic achievement standards on the state reading/language arts assessment.

Data Source

ISBE data source is the Illinois Assessment of Readiness. This is the same data as is used for reporting to ED under Title I of ESEA, using EDFacts file specifications FS175 and 178.

Measurement

17. Percent Calculation

Number of children with IEPs scoring at or above proficient against grade level academic achievement standards

Total number of children with IEPs who received a valid score and for whom a proficiency level was assigned for the regular assessment

Targets for Federal Fiscal Years 2020-25

Indicator 18: General Supervision

SPP/APR indicator focuses on the State’s exercise of its general supervision responsibility to monitor its local educational agencies (LEAs) for requirements under Part B of the Individuals with Disabilities Education Act (IDEA) through the State’s reporting on timely correction of noncompliance (20 U.S.C. 1412(a)(11) and 1416(a); and 34 C.F.R. §§ 300.149, 300.600).

In reporting on findings under this indicator, the State must include findings from data collected through all components of the State’s general supervision system that are used to identify noncompliance. This includes, but is not limited to, information collected through State monitoring, State database/data system, dispute resolution, and fiscal management systems as well as other mechanisms through which noncompliance is identified by the State.

Data Source

ISBE uses data collected through all components of the State’s general supervision system that are used to identify noncompliance. This includes, but is not limited to, information collected through State monitoring, State database/data system, dispute resolution, and fiscal management systems as well as other mechanisms through which noncompliance is identified by the State.

Measurement

Percent of findings of noncompliance corrected within one year of identification:

- A** Number of findings of noncompliance issued the prior Federal fiscal year (FFY) (e.g., for the FFY 2023 submission, use FFY 2022, July 1, 2022 - June 30, 2023)
- B** Number of findings of noncompliance the State verified were corrected no later than one year after the State’s written notification of findings of noncompliance.

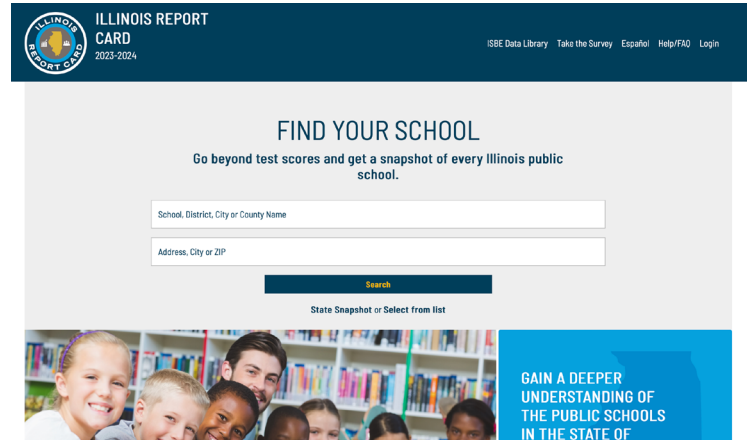

Percent = [(b) divided by (a)] times 100.
