Friday, August 25, 2023	<p>Deadline for all IAR corrections.</p>

1) Review IAR Assessment Correction Report for included students.

A student appears on a district’s IAR Assessment Correction Report (and screen) when the district is the Home, Serving, or Testing school for a student enrollment during the test window based on the student’s *Grade Level* (3-8) and *DLM-AA Indicator* (No) in SIS. (To modify, see **Notes** below.) Choose the appropriate **School** option to view students.

Notes:

- Students in Grades 3-8 are included in the report if they had a SIS enrollment during the testing school’s test window designated by their home school and are not included on the DLM-AA Assessment Correction and Score Report instead. If the testing school does not have a designated test window, the entire test window **March 6-April 21, 2023**, is used.
- Only a student’s Home district can modify the student’s SIS Correction record, Program Indicators (if enrollment is active), or Demographics by Enrollment (if enrollment is exited). An overnight process reconciles changes for active and exited students.
 - For an active student who is missing, change the *DLM-AA indicator* to “No” on the **SIS Program Indicators** page.
 - For an exited student who is missing, select the appropriate exited enrollment in SIS, click on the **Demographic by Enrollment** link, change the captured *DLM-AA indicator* to “No” and save.

(Posted May 16, 2023, Updated July 10, 2023)

2) How do I view data in the IAR Assessment Correction Report?

Step 1: Login to **SIS** via **IWAS** from www.isbe.net under "System Quick Links."

Step 2: Click on **Reports** (in blue column on left), then **Assessments**, then **IAR Assessment Correction**. "Summary" gives you general counts, and "Details" will show you a student list with details. We recommend viewing the "Details" report.

Step 3: Filters may be used as desired. **Sort By** is defaulted to "Reason for No Valid Test Attempt" but can be changed as desired. Click **Create PDF Report** to view your student list.

Step 4: Review student information and make notes of any needed corrections.

3) How do I correct data on the IAR Assessment Correction Report?

To update online, take the following steps:

Step 1: Login to **SIS** via **IWAS** from www.isbe.net under "System Quick Links."

Step 2: Click on **Assessment** (in blue column on left), then **Correction**, then **IAR**. Enter SID number and one of the following: Last Name, First Name, or Date of Birth. Click "Search."

Step 3: Click "Edit" and make the needed update(s) for each test record (English language arts [ELA] and math). Click "Submit."

Correct indicators as needed, paying special attention to the "First Year in U.S. School" indicator.

Enter [RNVTA](#) codes, as applicable. Rely on your local records.

Notes about entering RNVTA codes:

- *SIS Entry and Exit dates have been included in the Assessment Correction Report to assist with this review.*
- *An IAR scale score is generated in a content area only when students respond to at least one item on the ELA assessment, or at least one item in two out of three units (for the math assessment). Any attempt that does not meet these criteria will require an RNVTA.*
- *If a student started testing in your school and completed testing in a different school, enter code 07 (Transferred Out Prior to Testing) as the RNVTA for both content tests. Score data for both tests will be attributed to the new school.*
- *If a student enrolled in your school but had already started/completed testing in his/her previous school or transferred in too late for testing to be feasible, enter code 08 (Transferred in After Test Administration) as the RNVTA.*
- *Any student without a scale score or "Reason for No Valid Test Attempt" will be considered to be "Absent from Testing" which negatively affects participation rate and possibly percent proficient rate.*
- *If no scores are present, the school must enter the applicable RNVTA (likely [RNVTA code 10 or 15](#), unless another code applies).*
- *If a student did not test due to being a Private School Student (must show PSS=Yes in SIS program indicators tab), apply [RNVTA 16](#).*

To update via Batch, request an Assessment IAR Correction File:

1. Log in to SIS.
2. Click on "Batch File Processing" to expand section.
3. Click on "Request File."
4. Click on the dropdown menu to select Assessment IAR Correction.
5. Click on "Request File."

The request will be processed, and a file will be sent to the Upload/Download File link in SIS. Once the IAR Correction File has been downloaded, the data will need to be inserted into an IAR Correction template. The following fields can be updated: LEP Indicator, IDEA Services (IEP) Indicator, FRL/Low Income Indicator, Homeless Indicator, 21st Century Indicator, Testing School RCDTS (only if scores are not matched yet), Valid Grade at Time of Testing, Reason for No Valid Test Attempt, and First Year in U.S. School.

If a Batch template is needed, the IAR Correction template can be downloaded from the [SIS Excel Templates webpage](#) under "Assessment." Tips for completing and steps for creating and uploading the IAR Correction template are located at this webpage.
