

The following Illinois Assessment of Readiness (IAR) spring/fall 2021 electronic reports, including the fall Individual Student Reports (ISRs) and Spring/Fall Summary Reports, are now available in PearsonAccess^{next} to those users with the roles of District or School Test Coordinator or the Report Access role.

Electronic Reports

To access these reports/files:

1. Log into PearsonAccess^{next}.
2. Confirm the correct administration Illinois > 2020-2021 > IAR Spring 2021.
3. Go to Reports>Published Reports.
4. On the left side of the screen remove any initial filters showing that may hinder your report search.
 - For example, you may see the district name listed under “Organization Name”; this would prevent ISRs from displaying, as they are posted at the school level. Remove by clicking “clear” or clicking on the “x” to the left of the district name.
5. Download the report either by:
 - Double clicking on the desired report, or
 - Check the box to the left of the report name for the reports you wish to download. Click the blue “Download” button in the upper right of the screen.

Individual Student Report (PDF)

An Individual Student Report is provided for each student record that received a valid score. A score is considered valid if the record has met the rules for attemptedness and has not been voided. This report provides information about how the student performed on the assessment. ISRs for spring and fall 2021 are posted by grade/content for English language arts/literacy and mathematics at the school level.

District Summary of Schools Report (PDF)

The District Summary of Schools Report is posted at the district level. It provides the district a summary of how students performed in each of the schools associated with that district. A District Summary of Schools Report is provided for each grade/content area.

School Student Roster Report (PDF)

The School Student Roster Report is posted at the school level for each grade/content area. This report provides the school with a list of their students, their scale scores, and student performance information on subclaim areas.

Summary Data File (.csv)

The Summary Data File is a .csv file posted at the district level (for schools associated with that district) that includes summary information for the data in the Individual Student Report, District Summary of Schools Report, and School Student Roster Reports.

January 2022

Individual Student Report Shipments

Printed ISRs for fall testers will be shipped starting January 4 with all reports arriving to districts by Tuesday, January 18. Districts should review their shipment for accuracy as soon as possible after it is received and report any discrepancies to Pearson immediately.
