***Illinois Certification Testing System (ICTS)***  
**Content Area Tests' Pass Rates Summary: First (Initial) & Best(Cumulative) Attempt**  
*August 2015 – July 2017*

***Data Explanation***

- Data for this report include examinees who tested between August 2015 and July 2017.
- The data show the number of examinees who took any ILTS content test during the time period specified above; the number and percentage of individuals who passed on the first (initial) attempt during that time; and the number and percentage of examinees who passed on the best (cumulative attempts) during that time. The number of examinees is redacted if fewer than (10) per institution.
- Cumulative attempts are results for all examinees based on their best attempt, which may be their first, second, third, or later attempt to take the test during the three-year time period.

***Data Limitations***

- Score-report institution (that is, the institutions that examinees identified for their scores to be sent) data are used as a proxy for institution. However, some examinees may not have attended or were not currently attending, any institution they selected; additionally, examinees who later become candidates may not have selected the institutions that they ultimately attended.
- Examinees may not have taken college coursework at any institution they identified as a score report recipient.
- Since examinees may report test scores to up to three institutions, pass rates for up to three institutions may be affected by one examinee's scores whether the examinee attended that institution or not.
- There are no restrictions as to who can take the tests.
- Institutions have no input as to who is tested or who identifies them as a score-report institution.
- Pass rates for this report may be different from the pass rate reports required under Title II of the Higher Education Act because of different methodology in the data gathering and institutional review process. (Students reported under Title II have already been admitted to an educator preparation program.)
