<p>Friday, July 31, 2026</p>	<p>Deadline for all ISA corrections.</p>

1. Review ISA Correction Report for included students.

A student appears on a district’s **ISA Correction Report** (and screen) when the district is the Home, Serving, or Testing School for a student enrollment during the test window based on the student’s *Grade Level* (5 and 8) and *DLM-AA Indicator* (No) in SIS. (To modify, see **Notes** below.) Choose the appropriate **School** option to view students.

Notes

Only a student’s Home District can modify the student’s SIS Correction record or Program Indicators (if enrollment is active). An overnight process reconciles changes for active and exited students. For an active student who is missing, change the *DLM-AA indicator* to No on the SIS Program Indicators page.

2. How do I view data in the ISA Correction Report?

- Step 1: Log in to SIS via [IWAS](#).
- Step 2: Click on Reports (in blue column on left), then Assessments, then ISA Correction. Summary gives you general counts, and Details will show you a student list with details. We recommend viewing the Details Report.
- Step 3: Filters may be used as desired. Sort By is defaulted to Reason for No Valid Test Attempt but can be changed as desired. Click Create PDF Report to view your student list.
- Step 4: Review student information and make notes of any needed corrections.

3. How do I correct data on the ISA Correction Report?

- To update online, take the following steps:
 - Step 1: Log in to SIS.
 - Step 2: Click on Assessment (in blue column on left), then Correction, then ISA. Enter SID number and one of the following: Last Name, First Name, or Date of Birth. Click Search.
 - Step 3: Click Edit and make the needed update(s) for the test record. Click Submit.
- Correct indicators as needed, paying special attention to the First Year in U.S. School indicator.
- Enter [RNVTA](#) codes, as applicable. Rely on your local records.
 - **Notes about entering RNVTA codes:**
 - *SIS Entry and Exit dates have been included in the Assessment Correction Report to assist with this review.*
 - *An ISA scale score is generated only when students respond to at least one item in two out of three units. Any attempt that does not meet these criteria will require an [RNVTA](#).*
 - *If a student started testing in your school and completed testing in a different school, enter [code 07](#) (Transferred Out Prior to Testing) as the [RNVTA](#).*
 - *If a student enrolled in your school but had already started/completed testing in his/her previous school or transferred in too late for testing to be feasible, enter [code 08](#) (Transferred in After Test Administration) as the RNVTA.*
 - *If the accountability codes were entered in the testing platform, then verify to make sure that this code still applies and edit, if necessary.*
 - *Any student without a scale score or [RNVTA](#) will be considered to be "Absent from Testing," which negatively affects participation rate.*
 - *If no scores are present, the school must enter the applicable [RNVTA](#) (likely [RNVTA code 10 or 15](#), unless another code applies).*
 - *If a student did not test due to being a Private School Student (must show PSS=Yes in SIS program indicators tab), apply [RNVTA 16](#).*
- To update via batch, request an Assessment ISA Correction file:
 - Log in to SIS.
 - Click on Batch File Processing to expand section.
 - Click on Request File.
 - Click on the dropdown menu to select Assessment ISA Correction.
 - Click on Request File.

The request will be processed, and a file will be sent to the Upload/Download File link in SIS. Once the ISA Correction file has been downloaded, the data must be inserted into an ISA Correction template. The following fields can be updated: LEP Indicator, IDEA Services (IEP) Indicator, FRL/Low Income Indicator, Homeless Indicator, 21st Century Indicator, Testing School RCDTS (only if scores are not matched yet), Valid Grade at Time of Testing, Reason for No Valid Test Attempt, and First Year in U.S. School.

If a batch template is needed, the ISA Correction template can be downloaded from the [SIS Excel Templates webpage](#) under Assessment. Tips for completing and steps for creating and uploading the ISA Correction template are located on this webpage.

4. How do I view the ISA Scores Report in SIS (available only after scores are posted)?

- Step 1: Log in to SIS.
- Step 2: Click on Reports (in blue column on left), then Assessments, then ISA Scores. Summary gives you general counts, and Details will show you a student list with scores. We recommend viewing the Details Report.
- Step 3: Filters may be used as desired. You can select Show Errors Only (recommended) to see if you have any errors to resolve. Sort By may be used as desired. (Selection will shift applicable records to the top of the report.) Click Create PDF Report to view your students' scores and any error codes. Click on View Report to export data.
- Step 4: Review scores and resolve error codes, if any. Column Q of the report will show the error code if any exist.

5. What should I review in the ISA Scores Report (available only after scores are posted)?

- Open the ISA Scores (Details) report and review the following:
 - Verify all students who tested have score data.
 - Enter [RNVTA](#) codes, as applicable, for any record with error code 1. Rely on your local records. Enter [RNVTA code 10](#) unless another code applies.
 - For any student who tested but has error code 1, check the Unassigned Test Results Report for missing score data. ISBE will be contacting districts that have unresolved unassigned test results.
- If a student has score data but did not test at your school, contact the Assessment Department for assistance. Verify there are no error codes for any student record (See Column Q of the report.)

Error Code 1	Student score data are expected but missing. Enter an RNVTA or check for score data in Unassigned Test Results Report if you know the student tested.
Error Code 2	A student has scores in more than one school or has more than one score. Contact the Assessment Department at 866-317-6034 or assessment@isbe.net for assistance.
Error Code 3	Grade at Time of Testing does not correspond to the Test Taken/To Be Taken. Edit Grade in the Correction file to match the grade of the test taken or contact the Assessment Department at 866-317-6034 or assessment@isbe.net to suppress score data.

- Step 3: Click to open the ISA Unassigned section. You can select a specific school or leave for the entire district.
- Step 4: Click Select next to the unassigned record to review the vendor-provided data. Enter the SID number to review SIS student enrollment(s) during the test window(s). Click the Match button on the appropriate enrollment and click OK.
