Changed Date 03/01/2011

1. Changed system name from “Career and Technical Education Course (CTEC) system” to “Illinois State Course System (ISCS)”.

Changed Date 01/14/2011

2. Changed Career and technical Education Course (CTEC) system Illinois State Course System.

Changed Date 06/18/2010

3. Creation.

Welcome to ISBE’s Illinois State Course System user manual. The ISBE Illinois State Course System is designed to create a standardized State course catalog and administrate the creation and mapping of a state of courses to federal course codes. The system also allows Career and Technical Education (CTE) Education for Employment (EFE) System Directors to assign course lists according to school. This system serves as the vehicle to collect course-related information electronically from ISBE personnel and EFE/school related staff. The result of successful implementation is the ability to provide the state education agency, state and federal entities, the education community, and the public with state standardized State course administration and reporting software.

The ISBE Illinois State Course System application allows authorized users at ISBE and EFE sites to access the system via IWAS - [www.isbe.net](http://www.isbe.net). This application is the creation of a course through secure online web forms. The Illinois State Course System web application is designed from the user’s perspective to include all the functions necessary to perform the user’s role effectively and efficiently.

## 2.1 Using this Manual

The ISBE Illinois State Course System User Manual introduces the user to the ISBE Illinois State Course System and provides instruction to enable each user to utilize the system effectively in a short period of time. It explains how to accomplish the most common tasks and utilize the special features within the ISBE Illinois State Course System application.

The ISBE Illinois State Course System User Manual is constructed in a manner to allow the user to find the answers to application questions easily. It uses specific language found in the Illinois State Course System, as well as application pictures to create direct references between the application and the supporting section of the manual.

For ease of use, the manual is organized as follows:

- The manual is divided into multiple sections, with each section separated with numbered tabs.
- Each section of the manual is divided into subsections with a hierarchical section number.

This section provides an overview of the ISBE Illinois State Course System project, application, and the major system functions within the application. Through this section, the user becomes familiar with the different data access levels within the application and the system functions that can be performed based on a particular Illinois State Course System user role.

## 3.1 Project Overview

The goal of the ISBE Illinois State Course System project is to develop and deploy a State Course system that provides the state education agency, state and federal entities, the education community, and the public with timely and accurate data collection and reporting for courses, schools, school districts, and the state. This course system developed and deployed for the Illinois State Board of Education, will provide secure and appropriate access for applications such as course record inquiry, retrieval, and transfer. This system will serve as the vehicle to collect all State course-related information electronically from both ISBE personnel and EFES. The system will provide for:

- Creation of a State Level Course
- Editing State Level Courses
- Retiring State Level Courses
- Mapping of State Level Course Information to a Single Federal Course
- Mapping of State Level Course Information to the appropriate CIPs
- Tracking changes, additions, and removal of courses
- Creation of CIPs
- Tracking changes, additions, and removal of CIPs

- Mapping of CIPs to Clusters
- Assignment of Courses to CIPs
- Assignment of CIPs to schools
- Assignment of courses to schools
- Reports on State courses
- Reports on CIPS and EFE assignments
- Reporting timely and accurate information/data through standardized reporting capabilities

## 3.2 System Functions

The ISBE Illinois State Course System applications facilitate online creation of a course, as well as the collection and the maintenance of course information for data reporting purposes.

Dependent on which system function is utilized; users are able to do the following:

- Search for an existing Federal or State Course
- Create a new State Course and map it to a Federal Course
- Create a CIPs mapped to Clusters
- Add courses to CIPs
- Assign CIPs to schools
- Assign courses to schools
- View reports of State Courses, CIPs, and EFE assignments

The Illinois State Course System application provides users with an online interface that uses validations to ensure the data is entered correctly.

The major functions of the ISBE Illinois State Course System and their applications are listed below:

- Online Process  
View, add, and update records through ISBE Web Application Security (IWAS) with system interfaces
  - ⇒ Allows a user to perform the following applications:
    - Search Course
    - Create State Course and map to Federal course
    - Create CIPs and map to Clusters
    - Assign Course to CIP
    - Assign CIP to School
    - Assign Course to School
    - View Reports

### 3.3 Access Levels

The ISBE Illinois State Course System allows for three types of user roles to be assigned to individuals. Each Illinois State Course System user role has certain access rights to system functions that one can operate. These roles include:

- ***View Only***

The View Only user access level grants view only access.

- ✧ View Course,
- ✧ View CIP,
- ✧ View Assignment, and
- ✧ Reports.

- ***EFE Director*** (ROE Administrator (ROE Admin))

The EFE Directors role is in charge of a district or a private entity that has been granted access to the Illinois State Course System from the Illinois State Board of Education. The role of the EFE Director is managing and granting user access to those in his or her region. In the Illinois State Course System this EFE user will have the ability to View Reports and enter EFE Course Assignments to each school located within the region.

The system functions available to the EFE Director users include:

- ✧ Grant User Access,
- ✧ View Course,
- ✧ Assign Course,
- ✧ View CIP,
- ✧ Assign CIP,
- ✧ View Assignments
- ✧ Reports, and
- ✧ Help.

- ***EFE Administrator*** (RCDT Administrator (District Admin))

The EFE Administrator has access to everything within the Illinois State Course System except the ability to Grant Access to others. These include the ability to View Reports, and enter EFE Course Assignments to each school located within the region.

- ✧ View Course,
- ✧ Assign Course,
- ✧ View CIP,
- ✧ Assign CIP,
- ✧ View Assignments
- ✧ Reports, and
- ✧ Help.

- **ISBE Administrator** (Admin)

The ISBE Administrator role is appointed by ISBE personnel for administrative purposes at a state level.

The system functions available to the ISBE Administrator users include:

- ⇒ View Course,
- ⇒ Create Course,
- ⇒ View CIP,
- ⇒ Create CIP,
- ⇒ View Assignments,
- ⇒ Reports, and
- ⇒ Help.

Below is a chart that shows the different Approval Groups and the associated user rights.

Figure 1 – User Access Levels and Functions

<b>Functions</b>	<b>View Only</b>	<b>EFE Director</b>	<b>EFE Administrator</b>	<b>ISBE Admin</b>
Approval Group Number	1	3	4	5
Create Courses				X
View Courses	X	X	X	X
Create CIPs				X
View CIPs	X	X	X	X
Assign Courses to CIPs		X	X	X
Assign CIPs to Schools		X	X	
Assign Courses to Schools		X	X	
View School Assignments	X	X	X	X
Reports	X	X	X	X

### 3.4 Audit Functions

The ISBE Illinois State Course System application generates audit trail entries for all online processes. An audit trail is maintained when the user creates a course or CIP and when courses are assigned to schools.

The following audit information is kept for all additions and modifications to the database records:

Activity code - Code designating either Creation or Update;

User ID - who is making the transaction;  
Time Stamp - Date/Time of transaction;  
Old value;  
New value; and  
Table Name.

### **3.5 Data Validations**

The ISBE Illinois State Course System performs edit checks on the student attributes for the online processes. Through the online process, the users receive interactive error messages when one or more validation checks fail. The user then has the opportunity to correct any errors on the screen and resubmit the transaction.

#### **Course Creation Validations**

- State courses created must be mapped to a Federal Course.
- A course can never be deleted, moved, or edited if students are enrolled in them.

#### **CIP Creation Validation**

- A CIP can never be deleted, moved, or edited if students are enrolled in them.

#### **Course Assignment Validations**

- CIPs and courses can only be assigned to schools within an EFE's region.
- EFEs cannot un-assign a course if students are enrolled in it.
- EFEs cannot un-assign a CIP if students are enrolled in it.

This section provides an overview of accessing the ISBE Illinois State Course System, as well as system-navigating techniques. Through this section, the user becomes more familiar with logging into the ISBE Web Application Security portal, connecting to the ISBE Illinois State Course System, and viewing the various functions of the application.

To access IWAS and Illinois State Course System, a user must have an Internet connection. The browsers used to access IWAS and Illinois State Course System must be Microsoft Explorer 6.0 or higher or Netscape Communicator 7.2 or higher.

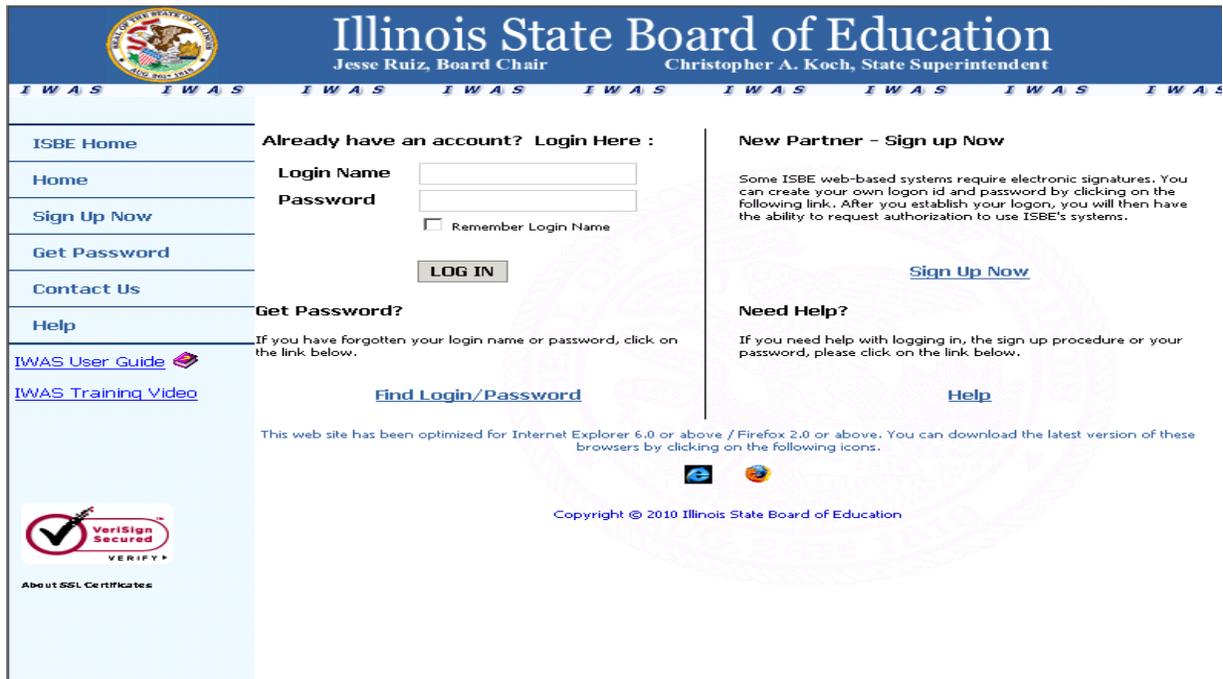

### **3.6 Connecting to IWAS**

ISBE Illinois State Course System is accessible through ISBE's Web Application Security System, (IWAS). An IWAS Login allows authorized users at a school, district, EFE , and ISBE to login into IWAS and access the system. IWAS can be accessed through the website - [www.isbe.net](http://www.isbe.net).

An IWAS link is displayed on the top of the page. Once the user clicks the IWAS link, the IWAS login page is displayed.

Below is an illustration of the IWAS *Login Screen*.

Figure 2 – IWAS Login Screen

The user must type in their IWAS **Login Name** and **Password** and click the Login button.

Once the user has successfully logged in through IWAS, the IWAS home page is displayed. Following is an illustration of the IWAS *Home Page Screen*.

About SSL Certificates

The user must click **System Listing** on the left-hand side to access the link to ISBE Illinois State Course System.

Below is an illustration of the IWAS *System Listing* Screen.

**Figure 4 – IWAS System Listing**

The ISBE Illinois State Course System is located under the Annual section of the Reporting category.

### 3.7 Logging in to ISBE - Illinois State Course System

Once the user has successfully logged in through IWAS, they must click **System Listing** on the left-hand side to access the link Illinois State Course System. If the user is not authorized for access to System, they must sign up for access and get approval from their Administrator. Once the user is authorized to access Illinois State Course System, the user is able to click the “**Illinois State Course System**” link.

After the user successfully logs in to IWAS and clicks the ISBE “**Illinois State Course System**” link, the Illinois State Course System opens in a separate window and the Home Page is displayed.

### 3.8 Home Page and Navigation

The home page allows the user to navigate throughout the entire Illinois State Course System application. All of the major functions of the Illinois State Course System application are accessed through the links on the Illinois State Course System *Home Page*.

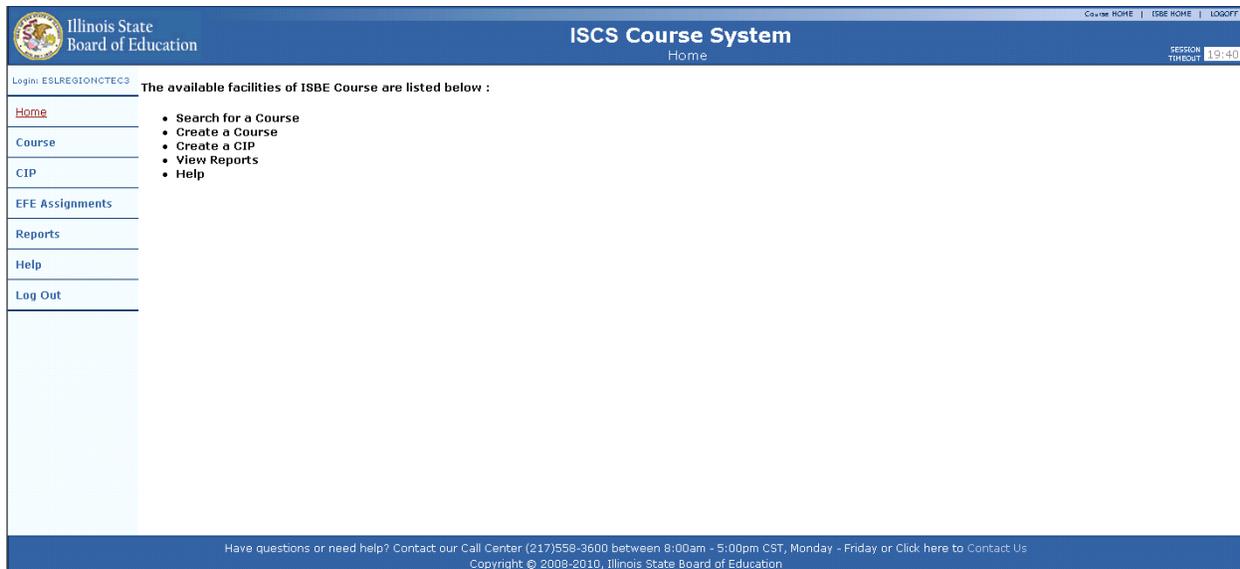

The system functions so that a particular user can have access depending on their data access role. The user is granted the level of access based on their IWAS/ Illinois State Course System login account profile. The major system functions are discussed in detail in the following sections of the User Manual.

The navigation links for accessing the major system functions appear at the left of all Illinois State Course System online screens. A user is able to access the major system functions from any page within the application.

Once the user presses the navigation link, the link title becomes underlined to indicate the function the user has activated. In the following example Home is underlined to indicate the Home Page is active.

Following is an illustration of the ISBE Illinois State Course System *Home Page* Screen.

**Figure 5 – ISBE Illinois State Course System Home Page**

Additionally, the Illinois State Course System includes a Session Timeout feature that aids in the prevention of unauthorized access and use of the system. If the user remains on a web page for 20 minutes without any activity, the user's session expires and the user is automatically logged off of the Illinois State Course System. The user must enter their IWAS Login Name and Password to re-log into the system.

This section provides information related to the functions available online in the Illinois State Course System. Illinois State Course System provides the following functions online:

- Search course (existing courses)
- Create and map State Course to a Federal Course
- Create CIPs and map to Clusters
- Assign CIPs to schools
- Assign Courses to schools
- View Reports on Courses, CIPs, and schools

Illustrated are the ISBE Illinois State Course System screen views along with the supporting information necessary to perform these system functions.

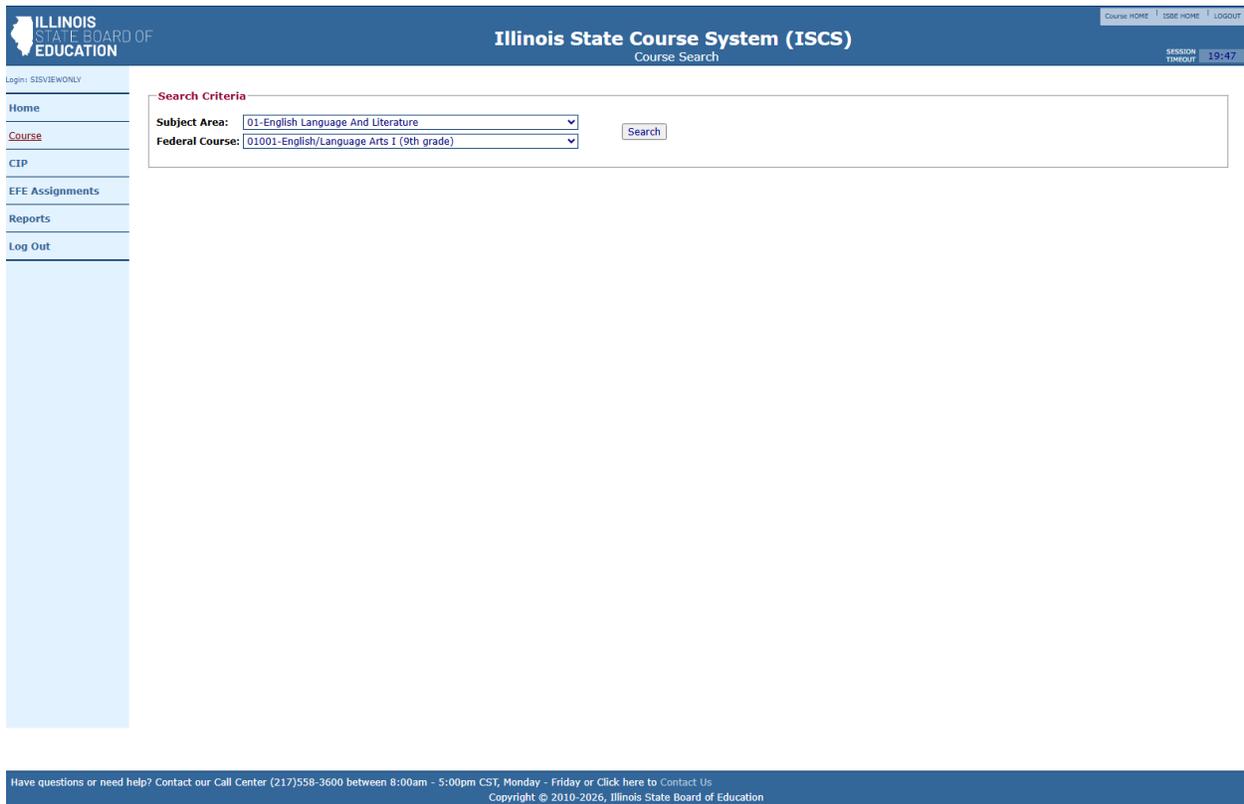

## **4.1 Course**

### **4.1.1 Search Course**

The ISBE Illinois State Course System application allows a user to search system for existing Federal and/or State Course records. A State Course will always have a Federal parent course. When a Federal Course is selected using the Subject Area and Course ID dropdowns, all State Courses that relate to the selected Federal Course are displayed back to the user. If the course needs to be added and the user would like to ensure it has not previously been entered, they may use this function to search the system for a matching course.

The following is an illustration of the Illinois State Course System *Home Page - Course Function*.

**Figure 6 – Illinois State Course System *Home Page* – Course Function**

From the Illinois State Course System Home Page, the user selects the **Course** option. The *Search Course* screen is displayed.

The following is an illustration of the ISBE Illinois State Course System *Search Course* screen.

Copyright © 2008-2010, Illinois State Board of Education

The user must input the following to search for a course in the Illinois State Course System:

- Subject Area
- and**
- Federal Course ID

When the “**Search**” button is selected, the system performs edit checks to ensure both fields are selected. If all validations pass, the Illinois State Course System returns the matching course. If State courses have already been mapped to a Federal Course, the State Course will appear at the bottom of the screen and the mapped Federal Course will appear on top. If the State course selected has not been mapped to a Federal Course, only the Federal Course will appear at top of the screen.

Below is an example of the course search screen with no matching records.

**Figure 8 – Search Course (No Matching State Records)**

The screenshot shows the ISBE Illinois State Course System interface. The top navigation bar includes the Illinois State Board of Education logo, the text 'ISCS Course System Course Search', and session information 'SESSION TIMEOUT 19:14'. A left sidebar contains navigation links: Home, Course, CIP, EFE Assignments, Reports, Help, and Log Out. The main content area is titled 'Search Criteria' and contains two dropdown menus: 'Subject Area' set to '22-Miscellaneous' and 'Federal Course' set to '22001-Standardized Test Preparation'. A 'Search' button is located to the right of these menus. Below the search criteria, there is a section for 'Federal Course' results, which is a table with three columns: 'Course Code', 'Course Title', and 'Course Description'. The table contains one row with the following data: Course Code: 22001, Course Title: Standardized Test Preparation, Course Description: Standardized Test Preparation courses help prepare students for national standardized tests such as the PSAT, SAT, and ACT. In particular, these courses assist students in developing and/or expanding their vocabulary, test-taking, and reasoning skills through study, lecture, and practice drills. Course topics may include vocabulary review; root words, prefixes, and suffixes; mathematical concepts, logic, and rules; and general. Below the federal course results, there is a section for 'State Courses' which displays 'No Records Found' and a 'Return To Search' button. At the bottom of the page, there is a footer with contact information: 'Have questions or need help? Contact our Call Center (217)558-3600 between 8:00am - 5:00pm CST, Monday - Friday or Click here to Contact Us Copyright © 2008-2010, Illinois State Board of Education'.

### 4.1.1 View Course

If there is one or more potential matching State Course records found, the Potential State Course record matches are displayed at the bottom of the screen.

Below is an illustration of the ISBE Illinois State Course System *Search Course* screen with two matching course records displayed in the State Course results section.

**Figure 9 – Search Course (Matching Records)**

The screenshot shows the ISBE Illinois State Course System interface. The top navigation bar includes the Illinois State Board of Education logo, the text 'ISCS Course System Course Search', and session information 'SESSION TIMEOUT 7:59'. A left sidebar contains navigation links: Home, Course, CIP, EFE Assignments, Reports, Help, and Log Out. The main content area is titled 'Search Criteria' and contains two dropdown menus: 'Subject Area' set to '17-Architecture and Construction' and 'Federal Course' set to '17002-Construction--Comprehensive'. A 'Search' button is located to the right of these menus. Below the search criteria, there is a section for 'Federal Course' results, which is a table with three columns: 'Course Code', 'Course Title', and 'Course Description'. The table contains one row with the following data: Course Code: 17002, Course Title: Construction--Comprehensive, Course Description: Construction--Comprehensive courses provide students with basic knowledge and skills required for construction of commercial, residential, and institutional structures. These courses provide experiences and information (typically including career opportunities and training requirements) regarding construction-related occupations such as carpentry, cabinetmaking, bricklaying, electrical trades, plumbing, concrete masonry, and. Below the federal course results, there is a section for 'State Courses' which displays a table with five columns: 'State Course Code', 'State Course Title', 'State Course Description', 'Max Carnegie Units', 'Start Year', and 'End Year'. The table contains two rows with the following data: Row 1: State Course Code: 17002A001, State Course Title: Construction Trades 1, State Course Description: This course provides experiences related to the erection, installation, and maintenance of residential buildings and related fixtures. Planned learning activities allow students to understand fundamental principles and methods, and develop technical skills related to masonry, carpentry, and finish work. Instruction includes safety principles and practices, recognition of standard lumber sizes, foundation layout methods, building concepts and procedures, local, state, and national codes, cost estimating, and blueprint. Max Carnegie Units: 3.00, Start Year: 2011, End Year: (blank), View: [View](#). Row 2: State Course Code: 17002A002, State Course Title: Construction Trades 2, State Course Description: This course provides learning experiences related to the erection, installation, maintenance, and repair of building structures and related utilities. Planned learning activities emphasize the development of more advanced knowledge and skills than those provided in Construction Occupations 1. Student technical skill experiences include instruction and activities in safety principles and practices, performing maintenance control functions, joining pipes, building water distribution lines and drains. Max Carnegie Units: 3.00, Start Year: 2011, End Year: (blank), View: [View](#). Below the state course results, there is a 'Return To Search' button. At the bottom of the page, there is a footer with contact information: 'Have questions or need help? Contact our Call Center (217)558-3600 between 8:00am - 5:00pm CST, Monday - Friday or Click here to Contact Us Copyright © 2008-2010, Illinois State Board of Education'.

## 4.1.2 Edit Course

The search function stays active at the top of the screen. The “**Subject Area**” and “**Federal Course ID**” can be selected to choose a new course. The selected Federal Course is listed next on the page. The following fields are displayed for the Federal Course.

- Federal Course Code
- Federal Course Title
- Federal Course Description

The State Courses are listed below the Federal Course. Each resulting State Course is tied to the Federal Course that is displayed above. The user can select the “**View**” link to edit an existing State Course code or select the “**Add New**” button to create a new State Course that will be appended to the displayed Federal Course code at the top of the screen. If the “**Add New**” button is selected, the user is directed to a blank “Edit State Course” screen.

When the “**View**” link is selected, the *View State Course* screen is displayed.

Following is an illustration of the ISBE Illinois State Course System *View State Course* screen.

### Figure 10 – View Course

Screenshot of the Illinois State Course System (ISCS) **Course Detail** page displaying federal course information and detailed state course information, including course title, description,

credit units, and start and end year.

The screenshot shows the ISCS Course System interface. At the top, there is a navigation bar with the Illinois State Board of Education logo, the text 'ISCS Course System Course Detail', and user options like 'HOME', 'LOGOFF', and 'SESSION TIMEOUT: 19:57'. On the left is a vertical menu with options: Home, COURSE (highlighted), CIP, EFE Assignments, Reports, Help, and Log Out. The main content area is divided into two sections:

**Federal Course**

Course Code	Course Title	Course Description
17002	Construction—Comprehensive	Construction—Comprehensive courses provide students with basic knowledge and skills required for construction of commercial, residential, and institutional structures. These courses provide experiences and information (typically including career opportunities and training requirements) regarding construction-related occupations such as carpentry, cabinetmaking, bricklaying, electrical trades, plumbing, concrete masonry, and

**State Course Details**

State Course Code: 17002A001

State Course Title	State Course Description
Construction Trades 1	This course provides experiences related to the erection, installation, and maintenance of residential buildings and related fixtures. Planned learning activities allow students to understand fundamental principles and methods, and develop technical skills related to masonry, carpentry, and finish work. Instruction includes safety principles and practices, recognition of standard lumber sizes, foundation layout methods, building concepts and procedures, local, state, and national codes, cost estimating, and blueprint reading. Curriculum for this course includes rigorous integrated academic instruction aligned with challenging academic standards, and career and technical education content that is relevant to a career cluster or occupation that prepares students for postsecondary

Additional fields for the State Course:

- Max Carnegie Units: 3.00
- Course Start Year: 2011
- Course End Year: (blank)

At the bottom of the State Course Details section are two buttons: 'Edit' and 'Return To Search'.

At the very bottom of the page, there is a footer with contact information: 'Have questions or need help? Contact our Call Center (217)558-3600 between 8:00am - 5:00pm CST, Monday - Friday or Click here to Contact Us' and 'Copyright © 2008-2010, Illinois State Board of Education'.

The Federal Course details are displayed across the top of the screen and the selected State Course now appears across the bottom. The State Course elements can be updated by selecting the “**Edit**” button at the bottom of the screen. Once selected, the user will be directed to the *Edit Course* screen. The “**Cancel**” button can also be selected returning the user to the *Search Course* screen.

Following is an illustration of the ISBE Illinois State Course System *Edit Course* screen.

**Figure 11 – Edit Course**

The screenshot displays the 'ISCS Course System Course Detail' interface. On the left is a navigation menu with links for Home, Course, CIP, EFE Assignments, Reports, Help, and Log Out. The main content area is split into two sections: 'Federal Course' and 'State Course Details'. The 'Federal Course' section contains a table with the following data:

Course Code	Course Title	Course Description
17002	Construction—Comprehensive	Construction—Comprehensive courses provide students with basic knowledge and skills required for construction of commercial, residential, and institutional structures. These courses provide experiences and information (typically including career opportunities and training requirements) regarding construction-related occupations such as carpentry, cabinetmaking, bricklaying, electrical trades, plumbing, concrete masonry, and

The 'State Course Details' section includes the following fields and options:

- State Course Code:** 17002A001
- State Course Title:**  Same as Federal;
- Max Carnegie Units:**
- Course Start Year:**
- Course End Year:**
- State Course Description:**  Same as Federal;  (with scroll arrows)

At the bottom of the form are 'Next' and 'Cancel' buttons. A footer bar contains contact information for the Call Center and copyright notice for 2008-2010.

The user must enter the following mandatory information before continuing:

- State Course Title
- State Course Description
- Max Carnegie Units
- Course Start Year

Optional information can be entered if known:

- Course End Year

Once the State Course data is updated and the user selects the “Next” button and all validations pass, the *Review Course* screen is displayed. If the user selects the “Cancel” button, the user is returned the *View Course* screen.

Following is an illustration of the ISBE - Illinois State Course System *Review Course* screen.

### 4.1.1 Create State Course

The previous section explained how to search for a course and how a course can be edited by selecting the “**Edit**” button on the *View Course* screen. This section will explain how to create State Courses and map them to a Federal Course. The “**Course**” link on the navigation bar located on the left side of the homepage can also be used to create a new State Course. When the user selects the “**Course**” link, to the Search Course screen is displayed.

The following is an illustration of the ISBE Illinois State Course System *Search Course* screen.

Copyright © 2008-2010, Illinois State Board of Education

The user must input the following to search for a course in the Illinois State Course System:

- Subject Area

**And**

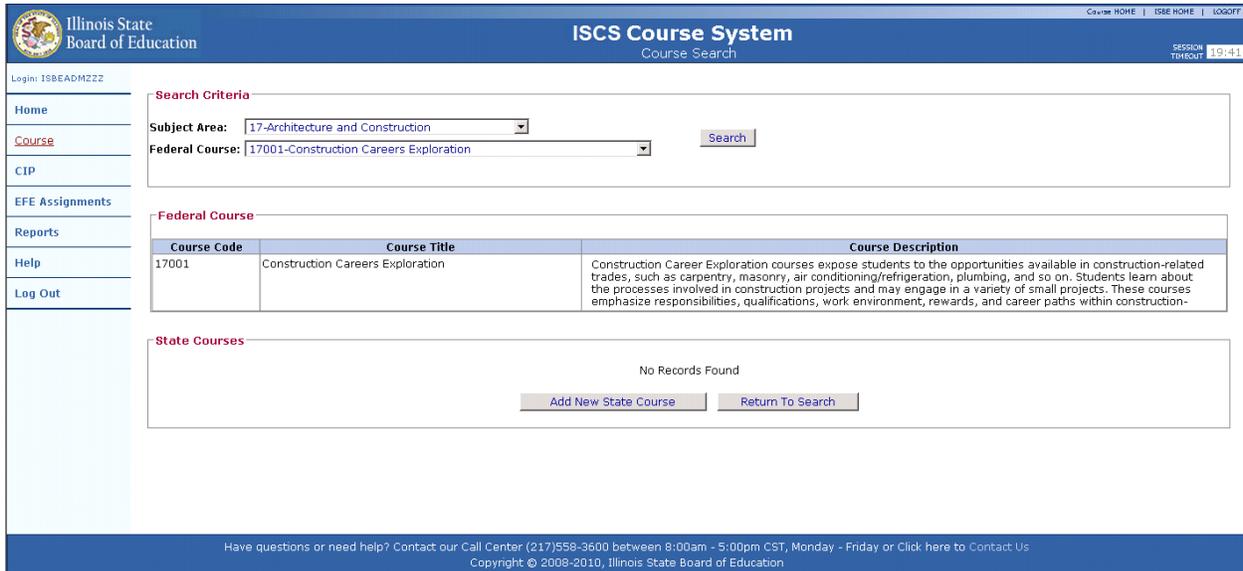

- Federal Course ID

When the “**Search**” button is selected, the system performs edit checks to ensure both fields are selected. If all validations pass, the Illinois State Course System returns a Federal Course and any related State Courses.

If there are no existing State Course records only the Federal Course will appear at the top of the screen, if state records existed for the displayed Federal code the State Courses would be displayed at the bottom of the screen.

Following is an illustration of the ISBE Illinois State Course System *Search Course screen* with no matching State Course records.

**Figure 14 – Search Course (No Match)**

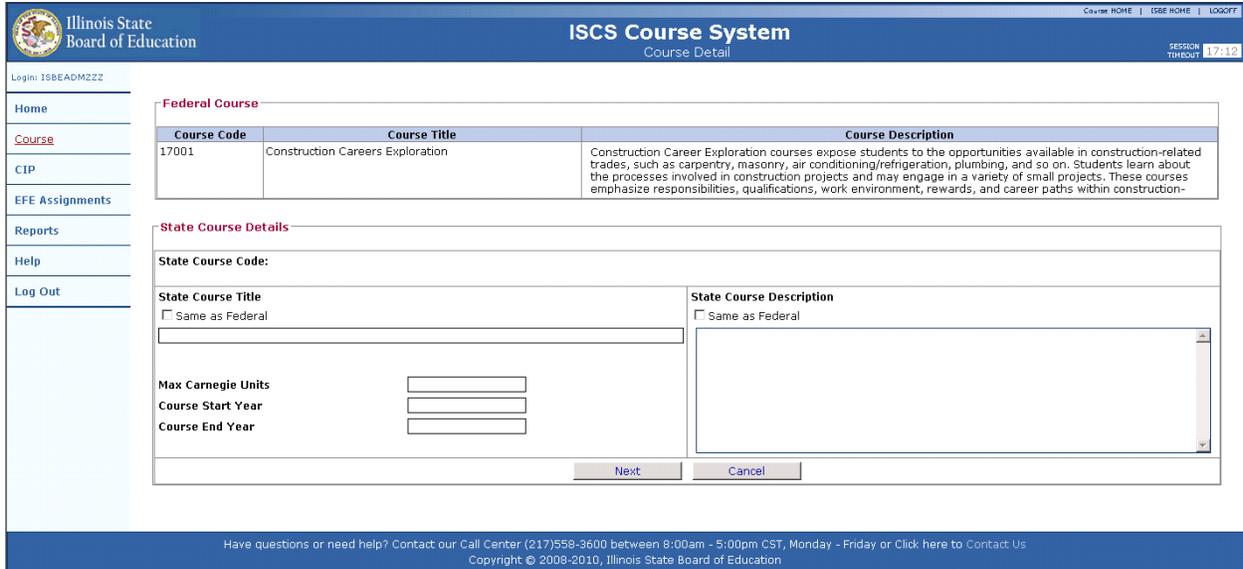

The user can select the “**Add New State Course**” button at the bottom of the screen to continue.

Once the “**Add New State Course**” button is selected a blank View Course screen is displayed to the user. The Federal Course and definition are displayed at the top of the screen and the State Course fields below are blank. In order to edit the State Course, the “**Edit**” button must be selected. Once the user selects the “**Edit**” button the *Edit Course screen* is displayed.

Below is an illustration of the Illinois State Course System *Edit Course* screen with no matching State Course records.

**Figure 15 – Edit Course**

This screen requires the user to enter the following mandatory information on a State Course record:

- State Course Title
- State Course Description
- Max Carnegie Unit
- Course Start Year

Optional information can be entered if known:

- Course End Year

Once the State Course data is edited and the user selects the “**Next**” button the *Review Course* screen is displayed. If the user selects the “**Cancel**” button, the user is returned the *View Course* screen.

Following is an illustration of the ISBE - Illinois State Course System *Review Course* screen.

**Figure 16 – Review Course**

The screenshot displays the ISCS Course System interface. At the top, the Illinois State Board of Education logo and 'ISCS Course System Course Detail' are visible. A navigation sidebar on the left includes links for Home, Course, CIP, EFE Assignments, Reports, Help, and Log Out. The main content area is split into two sections: 'Federal Course' and 'State Course Details'. The 'Federal Course' section features a table with the following data:

Course Code	Course Title	Course Description
17002	Construction—Comprehensive	Construction—Comprehensive courses provide students with basic knowledge and skills required for construction of commercial, residential, and institutional structures. These courses provide experiences and information (typically including career opportunities and training requirements) regarding construction-related occupations such as carpentry, cabinetmaking, bricklaying, electrical trades, plumbing, concrete masonry, and

The 'State Course Details' section includes the following information:

- State Course Code:** 17002A001
- State Course Title:** Construction Trades 1
- Max Carnegie Units:** 3.00
- Course Start Year:** 2011
- Course End Year:** (blank)
- State Course Description:** This course provides experiences related to the erection, installation, and maintenance of residential buildings and related fixtures. Planned learning activities allow students to understand fundamental principles and methods, and develop technical skills related to masonry, carpentry, and finish work. Instruction includes safety principles and practices, recognition of standard lumber sizes, foundation layout methods, building concepts and procedures, local, state, and national codes, cost estimating, and blueprint reading. Curriculum for this course includes rigorous integrated academic instruction aligned with challenging academic standards, and career and technical education content that is relevant to a career cluster or occupation that prepares students for postsecondary

At the bottom of the 'State Course Details' section are three buttons: 'Submit', 'Change', and 'Cancel'. A footer at the very bottom of the page provides contact information for the Call Center and copyright details for 2008-2010.

If all data entered is correct, the “**Submit**” button must be selected to commit the record. The user is returned to the *View Course screen*. The Federal Course appears at the top of the screen and the newly created State Course is now listed at the bottom of the screen.

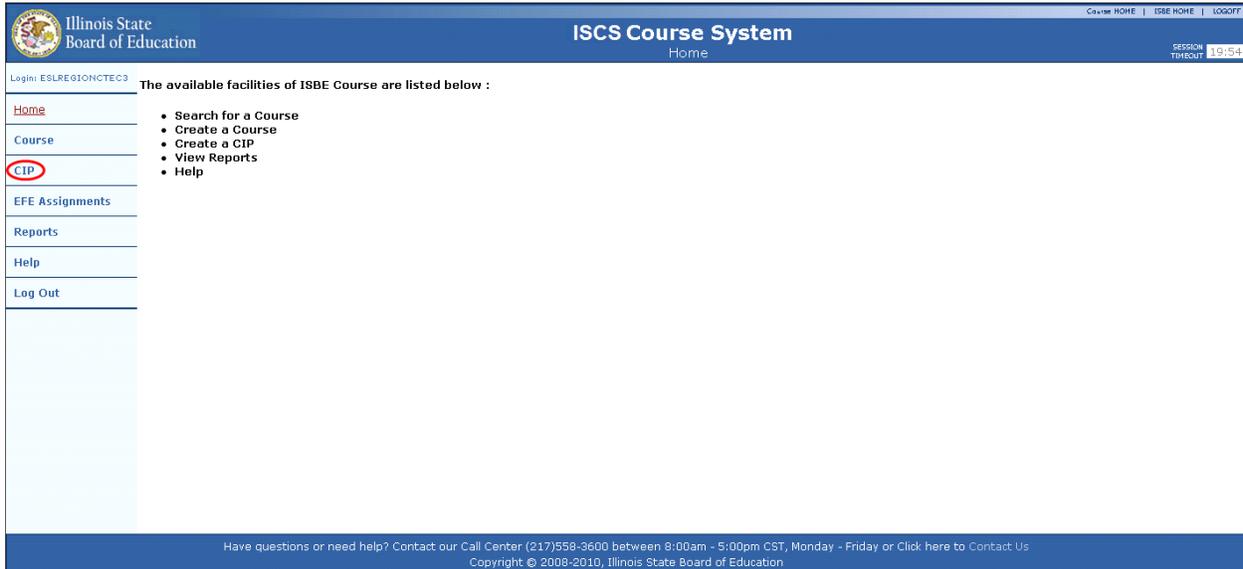

## 4.2 CIPs

### 4.2.1 Search CIPs

The ISBE Illinois State Course System application also allows a user to search the system to edit CIPs. This function can be accessed from the Illinois State Course System Home Page.

Following is an illustration of the Illinois State Course System Home Page – CIP Function.

**Figure 17 – Illinois State Course System Home Page – CIP Function**

Every state generated CIP belongs to a cluster. When a cluster is selected using the “**Cluster**” dropdown, all related CIPs are displayed back to the user. A user can also use the “**Status**” dropdown to view closed CIPs. The “**Status**” dropdown defaults to view “**Open**”. Closed CIPs are identified by a populated and expired “**CIP End Year**” field.

Following is an illustration of the Illinois State Course System Search CIP screen.

Figure 18 – Search CIP

The screenshot shows the ISCS Course System search page. The header includes the Illinois State Board of Education logo and the text 'ISCS Course System CIP Search'. A navigation menu on the left lists 'Home', 'Course', 'CIP', 'EFE Assignments', 'Reports', 'Help', and 'Log Out'. The main content area has a 'Search Criteria' section with a 'Cluster' dropdown menu set to '1-Agriculture, Food and Natural Resource Career Cluster' and a 'Status' dropdown set to 'Open'. A 'Search' button is located to the right of these dropdowns. Below the search criteria, there is a large empty box for search results. At the bottom of the page, there is a footer with contact information and copyright details.

Once the cluster has been selected from the dropdown, the related CIPs are displayed back to the user.

Following is an illustration of the Search CIP (Search Results).

Figure 19 – Search CIP (Search Results)

The screenshot shows the ISCS Course System search results page. The header and navigation menu are the same as in Figure 18. The 'Cluster' dropdown is now set to '2-Architecture and Construction Career Cluster'. Below the search criteria, there is a section titled 'State CIPs' which contains a table of search results. The table has columns for CIP Code, CIP Title, Minimum Carnegie Units, Start Year, End Year, Status, and a 'View' link. The results are as follows:

CIP Code	CIP Title	Minimum Carnegie Units	Start Year	End Year	Status	View
15.1301	Drafting and Design Technology/Technician, General.	2.00				<a href="#">View</a>
46.0000	Construction Trades, General.	2.00				<a href="#">View</a>
46.0301	Electrical and Power Transmission Installation/Installer, General.	2.00				<a href="#">View</a>
46.0302	Electrician.	2.00				<a href="#">View</a>
46.0401	Building/Property Maintenance.	2.00	2011			<a href="#">View</a>
46.0503	Plumbing Technology/Plumber.	2.00				<a href="#">View</a>
47.0201	Heating, Air Conditioning, Ventilation and Refrigeration Maintenance Technology/Technician.	2.00				<a href="#">View</a>

At the bottom of the page, there is a footer with contact information and copyright details.

## 4.2.1 View CIP

The user can select a CIP from the resulting search by selecting the “**View**” link. Once the “**View**” link is selected, the CIP is displayed to the user on the *View CIP screen*.

Following is an illustration of the *View CIP screen*.

**Figure 20 – View CIP**

Illinois State Board of Education | ISCS Course System | CIP Detail

Have questions or need help? Contact our Call Center (217)558-3600 between 8:00am - 5:00pm CST, Monday - Friday or Click here to Contact Us  
Copyright © 2008-2010, Illinois State Board of Education

## 4.2.1 Edit CIP

The *View CIP screen* includes details on the CIP selected and courses that are assigned to the CIP. If the CIP is empty, the *Review CIP screen* will look as it does in the above illustration. If data has already been entered, it will be displayed. The user can select the “**Cancel**” button and be directed back to the *Search CIP screen*, or the CIP can be edited by selecting the “**Edit**” button at the bottom of the screen. Once the “**Edit**” Button is selected the *Edit CIP screen* is displayed.

Following is an illustration of the *Edit CIP screen*.

Figure 21 – Edit CIP

The screenshot displays the 'Edit CIP' interface. At the top, the Illinois State Board of Education logo and 'ISCS Course System CIP Detail' are visible. The user is logged in as '18BEADM222'. The main content area shows the following details:

- Cluster:** Education and Training Career Cluster
- CIP:** 13.0101 - Education, General.
- Start Year:** [ ] **End Year:** [ ] **Min Carnegie Units:** 2.00

Below this, there are three expandable sections for course groups:

- Group 1:** Minimum Course Selection: School: [0] ACC: [0] Regional: [0]. No Courses Assigned.
- Group 2:** Minimum Course Selection: School: [0] ACC: [0] Regional: [0]. No Courses Assigned.
- Group 3:** Minimum Course Selection: School: [0] ACC: [0] Regional: [0]. No Courses Assigned.

At the bottom of the main content area, there are 'Next' and 'Cancel' buttons. A footer contains contact information and copyright details.

The *Edit CIP* screen allows the user to edit information directly pertaining to the CIP and what courses are assigned to the CIP. The following fields about the CIP can be edited:

- CIP Start Year,
- CIP End Year, and
- Minimum Carnegie Unit.

The course selection criterion allows the user to add courses to the groups below. The following criteria must be selected to add a course to the CIP:

- Subject Area,
- State Course Title,
- CIP Course Start Year, and
- Group.

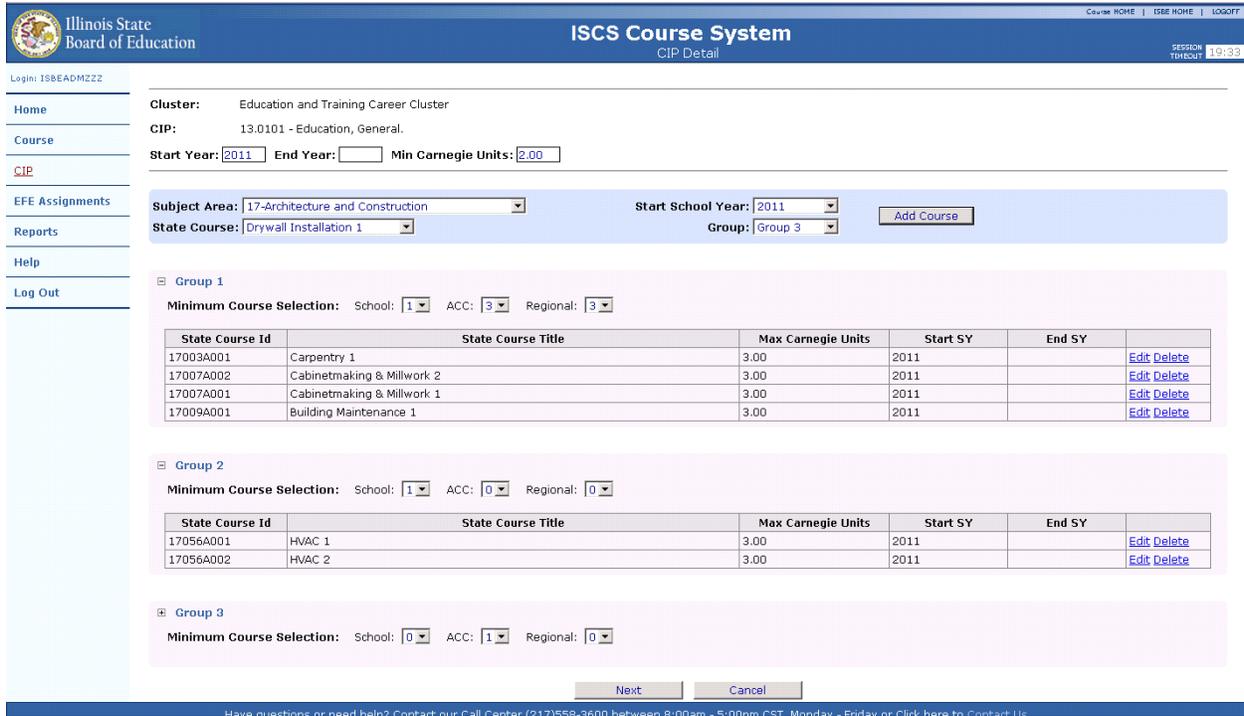

Once the criterion for the course has been selected, the course is added to the group by selecting the “**Add Course**” button. This process is repeated until **all** courses have been assigned to the CIP.

A CIP consists of three different groups. The groups were created to give priority to class selection when the EFE begins to assign courses to schools. Each group contains an editable minimum course selection for the following:

- Schools,
- ACC (Area Career Center), and
- Regional programs.

Following is an illustration of the *Edit CIP* screen.

**Figure 22 – Edit CIP**

After courses are assigned to the appropriate “**Groups**” within a CIP, the course “**Start Year**” and “**End Year**” can be edited or the course can be deleted. Each course contained in the CIP will display an “**Edit**” link and “**Delete**” link. If the “**Delete**” link is selected, the course is removed from the CIP. If the “**Edit**” link is selected, the course “**Start Year**” and the “**End Year**” fields become editable. Once edits have been made, the “**Update**” link can be selected to update the course record.

Following is an illustration of the *Edit CIP* screen – with the course “**Edit**” link selected.

Figure 23 – Edit CIP – Edit Course

**Cluster:** Education and Training Career Cluster  
**CIP:** 13.0101 - Education, General.  
**Start Year:** 2011 **End Year:**  **Min Carnegie Units:** 2.00

**Subject Area:** 17-Architecture and Construction **Start School Year:** 2011 **Add Course**  
**State Course:** Drywall Installation 1 **Group:** Group 3

**Group 1**  
**Minimum Course Selection:** School: 1 ACC: 3 Regional: 3

State Course Id	State Course Title	Max Carnegie Units	Start SY	End SY

If all data entered into the CIP is correct, the “**Submit**” button can be selected to update the CIP and the user will be returned to the *View CIP screen*. The user may also select the “**Change**” button to return to the *Edit CIP screen* to make corrections. If the “**Cancel**” button is selected the transaction is cancelled and the user is returned to the *View CIP screen*.

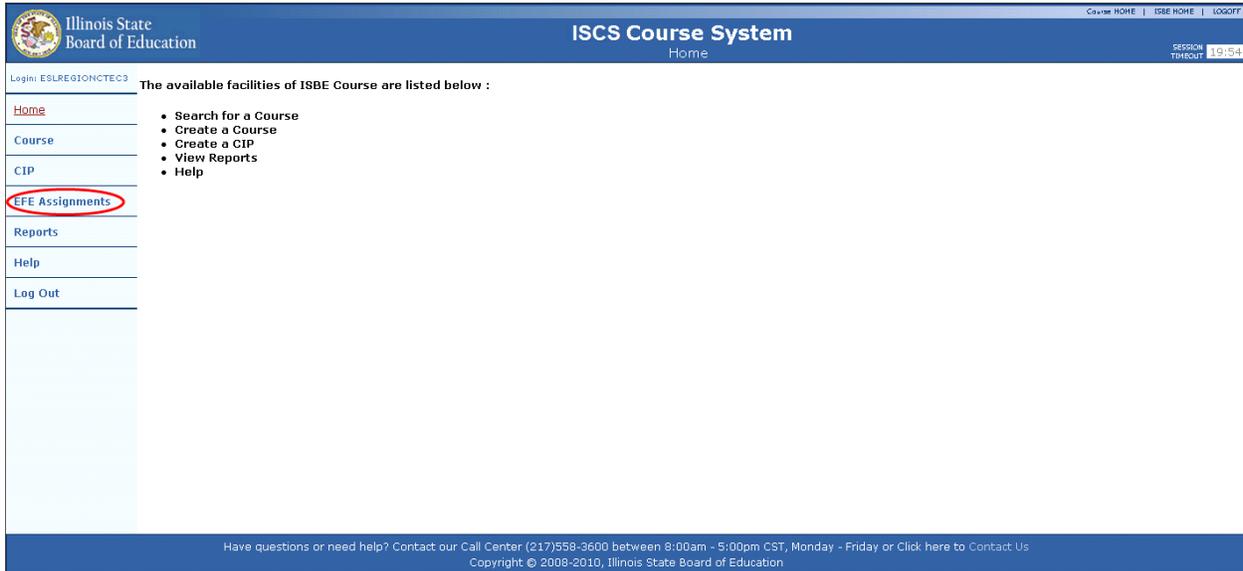

### 4.3 EFE User - Assigning Courses to Schools

After Illinois State Board of Education personnel have completed the preparation of the CIPs and courses for the year, EFEs must assign the CIPs and courses to the schools that are located within their region. To access the Illinois State Course System “**EFE Assignment**” function, the user must log in Illinois State Course System via IWAS. From the Illinois State Course System home page the “**EFE Assignment**” function must be selected

Following is an illustration of the Illinois State Course System *Homepage – EFE Assignment function*.

### 4.3.1 Search EFE Assignments

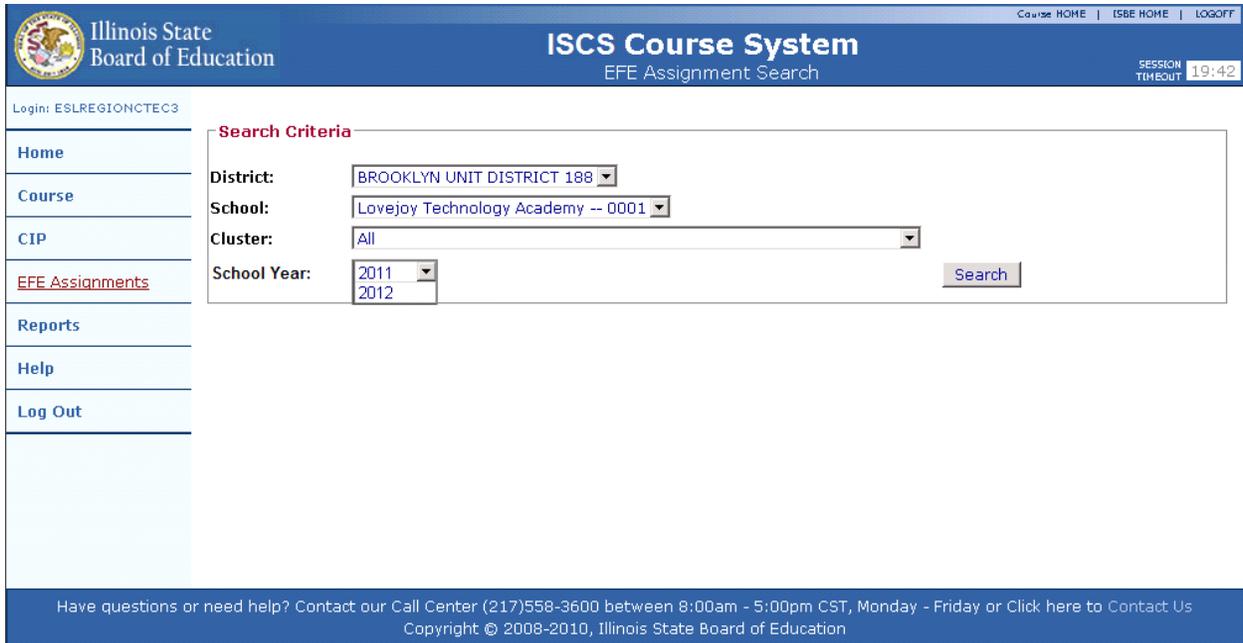

Figure 25 – Illinois State Course System Homepage – EFE Assignment Function

Once the user selects the EFE Assignment link from the Illinois State Course System home page the *EFE User - Search CIP* screen is displayed.

Following is an illustration of the *EFE User - Search CIP*.

Figure 26 – EFE User – Search CIP

User chooses all of the following and selects the “**Search**” button:

- District,
- School,
- Cluster, and
- School Year.

The following is an illustration of the *EFE User – Search CIP - Results* screen (No CIPs assigned).

**Figure 27 – EFE User – Search CIP - Results (No CIPs Assigned)**

The screenshot shows the ICS Course System interface. At the top, there is a navigation bar with the Illinois State Board of Education logo, the text 'ICS Course System', and 'EFE Assignment Search'. A session timeout indicator shows '15:15'. On the left, a vertical menu contains links for Home, Course, CIP, EFE Assignments, Reports, Help, and Log Out. The main content area is titled 'Search Criteria' and contains several dropdown menus: District (BROOKLYN UNIT DISTRICT 188), School (Lovejoy Technology Academy -- 0001), Cluster (All), and School Year (2011). A 'Search' button is located to the right of these fields. Below the search criteria, there are two sections: 'Assigned CIPs' (which is currently empty) and 'Unassigned CIPs'. The 'Unassigned CIPs' section contains a table with the following data:

CIP Code	CIP Title	Minimum Carnegie Units	
01.0101	Agricultural Business and Management, General.	10.00	<a href="#">Assign</a>
01.0201	Agricultural Mechanization, General.	2.00	<a href="#">Assign</a>
01.0601	Applied Horticulture/Horticulture Operations, General.	2.00	<a href="#">Assign</a>
03.0101	Natural Resources/Conservation, General.	2.00	<a href="#">Assign</a>
10.0202	Radio and Television Broadcasting Technology/Technician.	2.00	<a href="#">Assign</a>
11.0202	Computer Programming, Specific Applications.	2.00	<a href="#">Assign</a>

If the user is curious about the description of a State Course, the “**Course Title**” link can be selected, and the user will be presented with a pop-up box that includes the entire State description of the selected course.

Following is an illustration of the *EFE User - Edit Assignments – Description* Screen.

Figure 30 – EFE User - Edit Assignments - Description

The screenshot shows the ISCS Course System interface. On the left is a navigation menu with options: Home, Course, CIP, EFE Assignments, Reports, Help, and Log Out. The main content area displays details for a course at Lovejoy Technology Academy. A pop-up window titled 'ISBE Student Information System - Windows Intern...' is open, showing a detailed description of the course and 'Print' and 'Close' buttons. Below the pop-up, there are two tables of course assignments. The first table, under 'Group 1', lists 'Orientation to Health Occupations' and 'Nursing LPN'. The second table, under 'Group 2', lists 'Sports Management', 'Rehabilitation Aide', and 'Medical Lab Technician'. At the bottom are 'Next' and 'Cancel' buttons.

The user is displayed a *Review Assignments* screen which contains all courses and Carnegie Units assigned to the school. The user should review this information for accuracy. If all information is accurate, the user can select the “**Submit**” button to commit the course assignments. The “**Change**” button can be selected to return to the *Edit Assignments* screen if changes are identified. The user can also select the “**Cancel**” button to be returned to the *Edit Assignments* screen and cancel all transactions.

Following is an illustration of the *EFE User - View Assignments – Update Successful* screen.

**Figure 36 – EFE User – View Assignments – Update Successful**

The screenshot shows the ISCS Course System interface. At the top, there is a blue header with the Illinois State Board of Education logo and the text "ISCS Course System EFE-CIP Assignment". Below the header, a message reads "CTEC CIP Successfully Updated". The user is logged in as "ESLREGIONCTEC3" and is serving school "500821880220001 - Lovejoy Technology Academy -- 0001". The interface includes a sidebar with navigation options: Home, Course, CIP, EFE Assignments, Reports, Help, and Log Out. The main content area shows "Cluster: Agriculture, Food and Natural Resource Career Cluster" and "CIP: 01.0101 - Agricultural Business and Management, General. (Non Traditional - Female)". It also displays "School Year: 2011" and "Min Carnegie Units: 1.00".

Under the "EFE Assignments" section, there are two groups of assignments:

- Group 1**: Minimum Course Selection: 2
 

Action	State Course Id	State Course Title	Max Carnegie Units	Carnegie Units	Status
<a href="#">Select</a>	14001A001	<a href="#">Orientation to Health Occupations</a>	1.00	1.00	Assigned

Once the user has chosen to commit the record and selects the “**Submit**” button on the *Review Assignments* screen, the *View Assignments* screen is returned with a “**Successful Update**” message at the top of the screen.

### 4.3.2.2 Unassigning CIPs

Once a CIP has been assigned to a school, it can also be unassigned. To unassign a CIP, the user must first select the district, school, cluster, and school year. They can use the EFE Assignment function. Once the “**EFE Assignment**” link is selected, the user is displayed the *Search CIP* screen.

Following is an illustration of the *EFE User - Search CIP* screen.

Figure 41 – EFE User - Search CIP

The screenshot shows the ISCS Course System interface. At the top, there is a blue header with the Illinois State Board of Education logo on the left, the text "ISCS Course System" and "EFE Assignment Search" in the center, and navigation links "Course HOME", "ISBE HOME", and "LOGOFF" on the right. Below the header, the user's login information "Login: ESLREGIONCTEC3" is displayed. A vertical navigation menu on the left includes links for "Home", "Course", "CIP", "EFE Assignments" (highlighted in red), "Reports", "Help", and "Log Out". The main content area is titled "Search Criteria" and contains four search fields: "District" (set to "BROOKLYN UNIT DISTRICT 188"), "School" (set to "Lovejoy Technology Academy -- 0001"), "Cluster" (set to "All"), and "School Year" (with options "2011" and "2012"). A "Search" button is located to the right of the "School Year" field. At the bottom of the page, a blue footer contains contact information for the Call Center and copyright information for the years 2008-2010.

User chooses all of the following and selects the “**Search**” button:

- District,
- School,
- Cluster, and
- School Year.

Following is an illustration of the *EFE User - Search CIP - Results* screen.

**Figure 42 – EFE User - Search CIP - Results**

The screenshot shows the ISCS Course System interface for an EFE user. The header includes the Illinois State Board of Education logo, the system name 'ISCS Course System', and the user's session information. A navigation menu on the left lists 'Home', 'Course', 'CIP', 'EFE Assignments', 'Reports', 'Help', and 'Log Out'. The main content area is titled 'Search Criteria' and contains a search form with the following fields: District (BROOKLYN UNIT DISTRICT 188), School (Lovejoy Technology Academy -- 0001), Cluster (All), and School Year (2011). A 'Search' button is located to the right of the School Year field. Below the search criteria, there are two expandable sections: 'Assigned CIPs' and 'Unassigned CIPs'. Each section contains a table with columns for CIP Code, CIP Title, and Minimum Carnegie Units. The 'Assigned CIPs' table lists two entries: 01.0201 (Agricultural Mechanization, General) and 01.0000 (Agriculture, General). The 'Unassigned CIPs' table lists seven entries, including 01.0101 (Agricultural Business and Management, General), 01.0601 (Applied Horticulture/Horticulture Operations, General), 03.0101 (Natural Resources/Conservation, General), 10.0202 (Radio and Television Broadcasting Technology/Technician), 11.0202 (Computer Programming, Specific Applications), 11.0801 (Web Page, Digital/Multimedia and Information Resources Design), and 11.0901 (Computer Systems Networking and Telecommunications). Each entry in both tables has 'Edit' and 'Unassign' links.

Results are returned to the user. Any CIPs assigned will be listed in the “Assigned” category. The user must select the “Unassign” link next to the CIP they would like to Unassign. Once the link is selected the user is directed to the *EFE User – View Assignments* screen.

Following is an illustration of the *EFE User- View Assignments* screen.

Once the CIP to be unassigned has been selected, the *View Assignments* screen is displayed. After the user reviews the assignments, they can choose to unassign the CIP by selecting the “**Unassign**” button located at the bottom of the screen. The “**Cancel**” button can also be selected, returning the user to the *Search CIP* screen.

Following is an illustration of the *EFE User- Search CIP – Results - Successful Update* screen.

Figure 44 – EFE User- Search CIP – Results - Successful Update

The screenshot shows the ISCS Course System interface. At the top, there is a navigation bar with the Illinois State Board of Education logo, the text "ISCS Course System", and "EFE Assignment Search". A message at the top center reads "CIP has been Successfully Unassigned". Below this is a search criteria form with the following fields: District (BROOKLYN UNIT DISTRICT 188), School (Lovejoy Technology Academy -- 0001), Cluster (All), and School Year (2010). A "Search" button is located to the right of the School Year field. Below the search criteria, there are two expandable sections: "Assigned CIPs" and "Unassigned CIPs". The "Assigned CIPs" section contains one entry: CIP Code 01.0000, CIP Title Agriculture, General., Minimum Carnegie Units 2.00, with "Edit" and "Unassign" buttons. The "Unassigned CIPs" section contains seven entries, each with a CIP Code, CIP Title, Minimum Carnegie Units, and an "Assign" button.

CIP Code	CIP Title	Minimum Carnegie Units	
01.0000	Agriculture, General.	2.00	<a href="#">Edit</a> <a href="#">Unassign</a>

CIP Code	CIP Title	Minimum Carnegie Units	
01.0101	Agricultural Business and Management, General.	10.00	<a href="#">Assign</a>
01.0201	Agricultural Mechanization, General.	2.00	<a href="#">Assign</a>
01.0601	Applied Horticulture/Horticulture Operations, General.	2.00	<a href="#">Assign</a>
03.0101	Natural Resources/Conservation, General.	2.00	<a href="#">Assign</a>
10.0202	Radio and Television Broadcasting Technology/Technician.	2.00	<a href="#">Assign</a>
11.0202	Computer Programming, Specific Applications.	2.00	<a href="#">Assign</a>
11.0801	Web Page, Digital/Multimedia and Information Resources Design.	2.00	<a href="#">Assign</a>

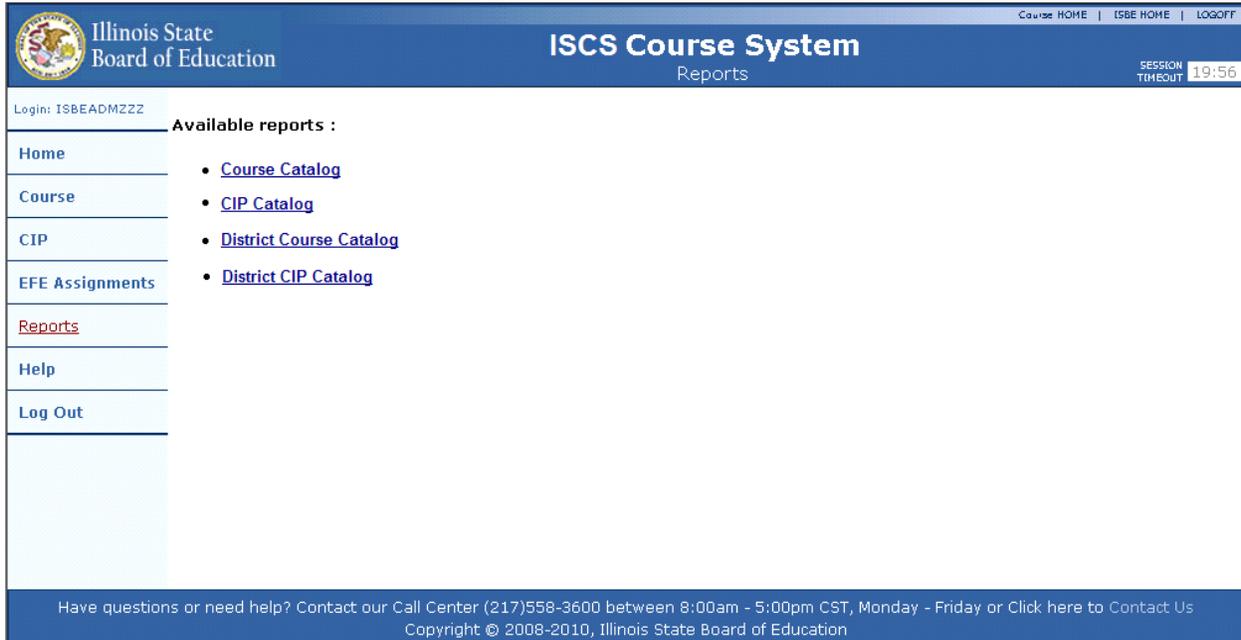

After the “**Unassign**” button has been selected, the user is returned to the *Search CIP* form with an “*Update Successful*” message displayed to the user at the top of the screen.

## 4.4 Reports

The Illinois State Course System online reports allow an authorized user to view summary and detail data. The reports may be used to verify course, CIP, and EFE assignment records.

Following is an illustration of the Illinois State Course System *Reports* Screen.

**Figure 45 – Illinois State Course System Reports Screen**

### 4.4.1 Illinois State Course System Report Navigation

All ISBE Illinois State Course System reports are displayed using a Crystal Reports viewer. The reports will display in a new browser. If reports are not displaying correctly, a user should check the pop-up blocker settings for the browser. Once the report is displayed, a user may navigate from page to page, search for a value, change the display size, export the data, as well as print the report.

Below is an illustration of the Illinois State Course System Crystal Report menu bar.

**Figure 46 - ISBE SIS Crystal Report Menu**

### 4.4.1.1 Navigation

To navigate from page to page, the user must click the right or left arrow to navigate to the next page or navigate to the first or last page of the report. To navigate, the user must click the following buttons:

Additionally, a user may navigate to a specific page by typing the page number in the following text box and clicking the “Go To” button.

### 4.4.1.2 Display Size

To change the display size, the user may click the following drop-down arrow to make the display smaller or larger.

### 4.4.1.3 Search

To search for a word or value, the user may type the value in the text box and click on the binocular icon to conduct the search. The user must click the following button to conduct the search:

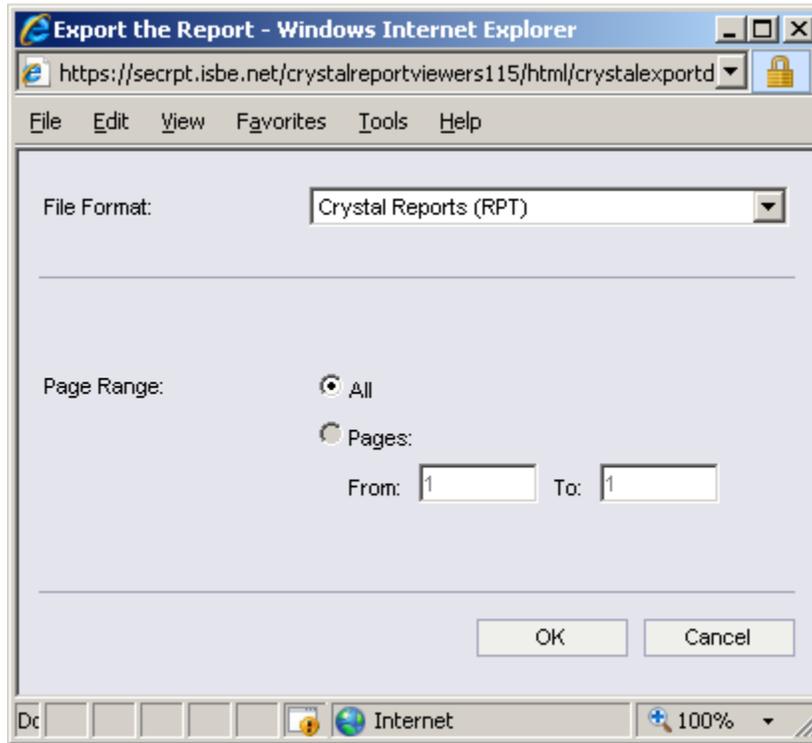

### 4.4.1.4 Export

The Crystal reports menu bar allows a user to export data to a desired format. For example, a user may select to export the report to Excel or MS Word. Additionally, a user may choose to only export specific pages of the report. The export function should only be used to review data at a local level. The user must click the following button to export the data:

Once the button is selected, an export selection screen is displayed. Following is an illustration of the Report Export Selection Criteria Screen.

**Figure 47 – Report Export Selection Criteria**

#### 4.4.1.5 Print

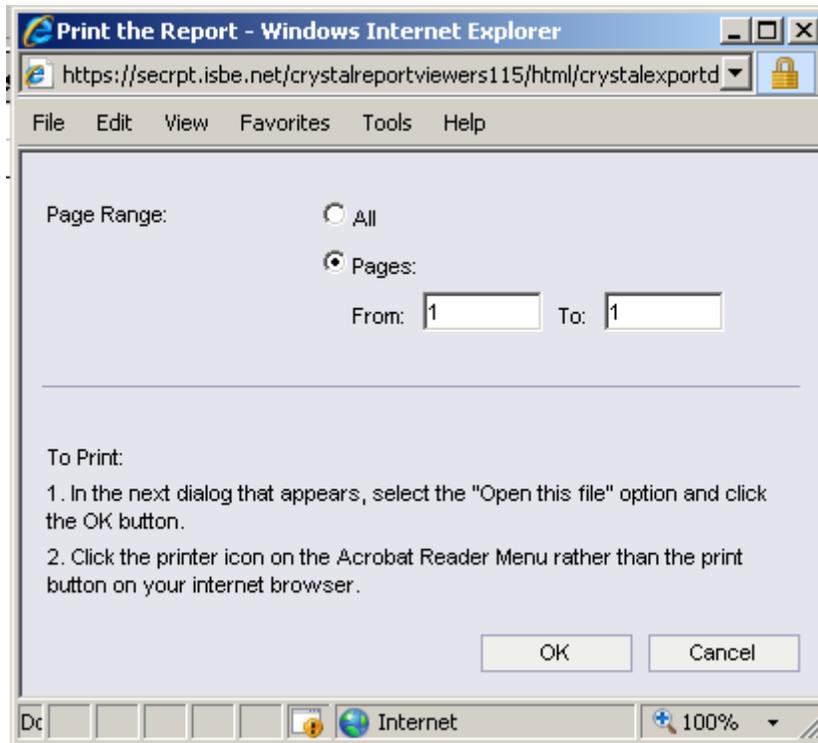

A user is given the option to print the report. The entire report or specific pages may be printed. A user must click the following button to print the report:

Once the button is selected, a print selection screen is displayed.

Following is an illustration of the Report Print Selection Criteria Screen.

**Figure 48 – Report Print Selection Criteria**

Once the **Print** button is pressed, the report is generated in Adobe Acrobat (PDF) format and the user may then print the report from the PDF format.

#### **4.4.1.6 State Course Catalog Report**

The Course Catalog report is a complete catalog of both Federal and State Courses. Once the report link is selected on the Illinois State Course System reports screen, the user is directed to the criteria screen for the course catalog report.

Following is an illustration of the selection criteria for the Course Catalog report.

**Figure 49 – State Course Catalog Criteria Screen**

The screenshot shows the ISCS Course System Reports interface. At the top, there is a navigation bar with the Illinois State Board of Education logo, the text "ISCS Course System Reports", and links for "Course HOME", "ISBE HOME", and "LOGOFF". A session timeout indicator shows "SESSION TIMEOUT 19:58". Below the navigation bar, the user is logged in as "Login: ISBEADM222". The main content area is titled "CTE Course Catalog (Detail)". On the left, there is a vertical menu with links for "Home", "Course", "CIP", "EFE Assignments", "Reports", "Help", and "Log Out". The "Reports" link is highlighted. In the main content area, there are two dropdown menus: "Subject Area" with "All" selected and "Curriculum Type" with "State" selected. Below these menus are two buttons: "Create PDF Report" and "View Report". At the bottom of the page, there is a footer with contact information: "Have questions or need help? Contact our Call Center (217)558-3600 between 8:00am - 5:00pm CST, Monday - Friday or Click here to Contact Us" and "Copyright © 2008-2010, Illinois State Board of Education".

After all criteria selections have been made, the user must select the “**View Report**” or “**Create PDF Report**” buttons to run the report.

Fields displayed on the report include:

- Subject Area
- Federal Course ID
- Federal Course Title
- Federal Course Description
- State Course ID
- State Course Title
- State Course Starting Year
- State Course Ending Year
- State Course – Maximum Carnegie Units
- State Course Description

Following is an illustration of the State Course Catalog Report.

**Figure 50 – State Course Catalog Report**

5/24/2010 11:26 am		
<b>CTE Course list - All Federal and State Courses</b>		
<b>Subject Area: 01 - English Language Arts</b>		
<b>Federal: 01001 English/Language Arts I (9th grade)</b>		
English/Language Arts I (9th grade) courses build upon students' prior knowledge of grammar, vocabulary, word usage, and the mechanics of writing and usually include the four aspects of language use: reading, writing, speaking, and listening. Typically, these courses introduce and define various genres of literature, with writing exercises often linked to reading selections.		
<b>State: 01001A001 English/Language Arts I (9th grade)</b>		
<b>Starting School Year: 2010</b>	<b>Ending School Year:</b>	<b>Maximum Carnegie Units: 2.00</b>
English/Language Arts I (9th grade) courses build upon students' prior knowledge of grammar, vocabulary, word usage, and the mechanics of writing and usually include the four aspects of language use: reading, writing, speaking, and listening. Typically, these courses introduce and define various genres of literature, with writing exercises often linked to reading selections.		

#### 4.4.1.7 CIP Catalog Report

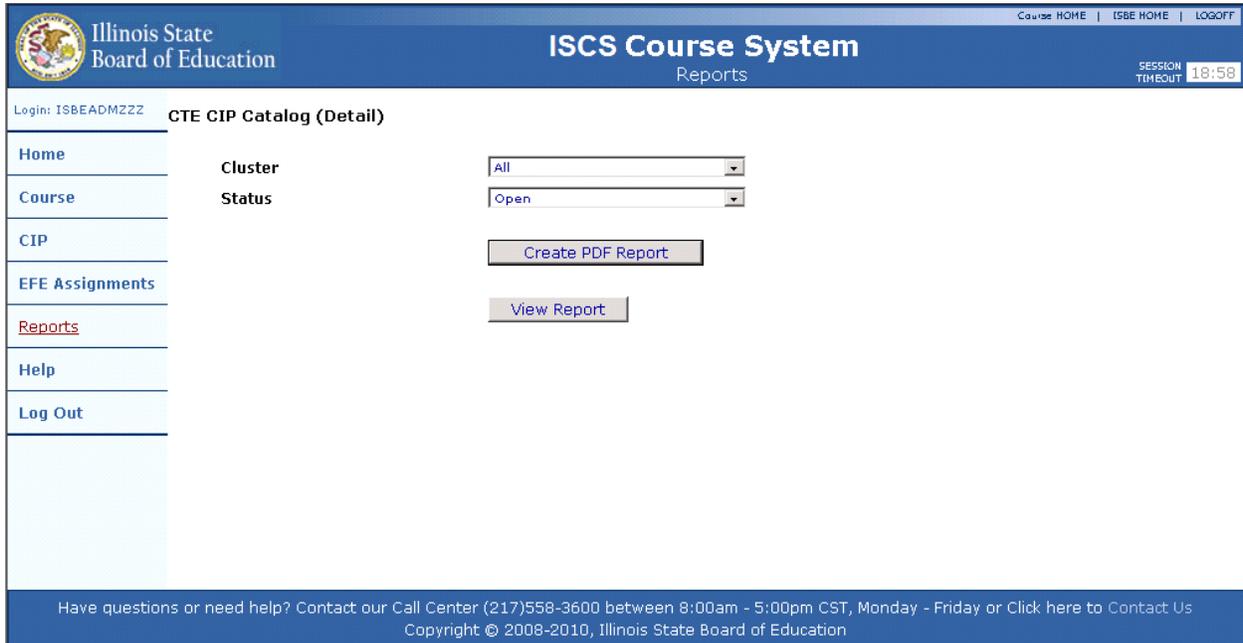

When selecting the CIP Catalog Report, an authorized user must select the school year and school (Home School) to be displayed on the report. A user may select all schools or a specific school.

The fields available to filter the report include:

- Cluster
- Status

Following is an illustration of the selection criteria for the CIP Catalog Report.

**Figure 51 – CIP Catalog Criteria Screen**

After all criteria selections have been made, the user must select the “**View Report**” or “**Create PDF Report**” buttons to run the report.

Below is an illustration of the CIP Catalog Report.

### 4.4.1.8 State Course Catalog Report

The State Course Catalog Report is a complete catalog of Federal and State Courses by district and/or school. Once the report link is selected on the Illinois State Course System reports screen, the user is directed to the criteria screen for the District State Course Catalog Report.

Following is an illustration of the selection criteria for the State Course Catalog Report.

**Figure 53 – State Course Catalog Criteria screen**

The screenshot displays the 'ISCS Course System Reports' interface. At the top, the Illinois State Board of Education logo is on the left, and the text 'ISCS Course System Reports' is centered. A navigation menu on the left includes links for Home, Course, CIP, EFE Assignments, Reports (highlighted), Help, and Log Out. The main content area is titled 'CTE Course Catalog (Detail)' and contains several dropdown menus: 'District' (Select District), 'School' (Select School), 'Subject Area' (01-English Language Arts), 'Course' (01001-English/Language Arts I (9th grade)), and 'Sort by' (Course Number, Course Title). Below these are two buttons: 'View Report' and 'Create PDF Report'. The footer contains contact information for the Call Center and copyright details for 2008-2010.

After all criteria selections have been made, the user must select the “**View Report**” or “**Create PDF Report**” buttons to run the report.

#### 4.4.1.9 State CIP Catalog Report

When selecting the State CIP Catalog Report, an authorized user must select the school (Home School), Cluster, and the CIP to be displayed on the report. A user may select all schools or a specific school.

The fields available to filter the report include:

- Home School
- Cluster
- CIP

Following is an illustration of the selection criteria for the State CIP Catalog Report.

Figure 55 – State CIP Catalog Criteria Screen

The screenshot shows the 'ISCS Course System Reports' interface. At the top, there is a navigation bar with the Illinois State Board of Education logo, the text 'ISCS Course System Reports', and links for 'Course HOME', 'ISBE HOME', and 'LOGOFF'. A 'SESSION TIMEOUT 15:23' indicator is also present. Below the navigation bar, the user is logged in as 'Login: ISBEADM2ZZ'. The main content area is titled 'CTE Course Catalog (Detail)'. On the left, there is a vertical menu with links for 'Home', 'Course', 'CIP', 'EFE Assignments', 'Reports', 'Help', and 'Log Out'. The 'Reports' link is highlighted. The main area contains four selection criteria: 'District' (dropdown menu with 'Select District'), 'School' (dropdown menu with 'Select School'), 'Cluster' (dropdown menu with '1-Agriculture, Food and Natural Resource Career Cluster'), and 'CIP' (dropdown menu with '01.0101 Agricultural Business and Management, General.'). At the bottom of the main area, there are two buttons: 'View Report' and 'Create PDF Report'. A footer bar at the bottom contains contact information for the Call Center and copyright information for the Illinois State Board of Education (© 2008-2010).

After all criteria selections have been made, the user must select the “**View Report**” or “**Create PDF Report**” buttons to run the report.

ISBE believes in the importance of collecting quality data about Illinois courses and agrees with the National Forum on Education Statistics' (NFES) recommendations for creating a "Culture of Quality Data" which is explained in their publication, "Forum Guide to Building a Culture of Quality Data." This guide expresses the need for school and district personnel to focus on the quality of the data being collected on course information that has many uses - statistics, school budget planning, a child's placement in a class, and instructional plan development.

To help your schools and districts move toward a "Culture of Quality Data," a brief overview of NFES's "Forum Guide to Building a Culture of Quality Data" is provided below.

*"The intent of this [NFES] guide is to point out some common principles that can help increase the likelihood that data will be secure, accurate, and useful."*

Individual copies of the Guide may be printed from the Forum website at:

[http://nces.ed.gov/forum/pub\\_2005801.asp](http://nces.ed.gov/forum/pub_2005801.asp). Tip sheets on the Roles of Key Players may also be found and duplicated so that each person can retain a copy of the appropriate suggestions for their role in the collection of Quality Data student information.

## 4.5 Introduction

*Quality data, like quality students, come from schools. While it is undeniably harder to teach a student than it is to collect statistics, there are procedures that can help us achieve our goals in both cases. Recently, there has been a growing awareness that effective teaching, efficient schools, and quality data are linked. The quality of information used to develop an instruction plan, run a school, plan a budget, or place a student in a class depends upon the school data clerk, teacher, counselor, and/or school secretary who enter data into a computer. With that in mind, the focus of this guide is on data entry - getting things right at the source.*

## 4.6 Orderly Information from Disorderly Setting

*Data often enter electronic systems from a school or school district office, which may not be an optimal setting for paying careful attention to numbers. Office staff members are expected to perform many tasks, from greeting parents to answering the phone, sorting the mail, producing memos, and bandaging wounded knees. While all these things are going on, often simultaneously, staff members are expected to fill out forms and enter data into computers. During conference periods in classrooms when teachers are trying to enter attendance information or grades into computers, the situation can be just as busy.*

*We want trained data entry personnel who work in an environment that assists, not hinders, data entry. When people are doing important work, we want them to concentrate on the task. We do not expect, for example, the person preparing our tax returns to be eating lunch or talking on the phone with clients while entering our itemized deductions into a computer. However, those may be the conditions of a school secretary's life. And remember, bad data about a student or school can cause bigger problems than a lost tax refund.*

*It is important to understand that "quality data" is not something that just occurs when an office clerk hits the right number on a keyboard. It is a process. We need to pay attention to the process involved because the information derived from school data is vital. The intent of data entry and collection is to produce information that reflects reality - that lets us know what is actually happening in a school. It is important for all staff members to understand the issues involved in data collection and data entry and to recognize that those issues reflect the values of the organization. Based on an analysis of these processes, we can work toward developing a "Culture of Quality Data" that will result in good information.*

## 4.7 What is a Culture of Quality Data?

*A Culture of Quality Data is the belief that good data are an integral part of teaching, learning, and managing the school enterprise. Everyone who has a role in student outcomes - teachers, administrators, counselors, office support staff, school board members, and others - shares this belief. Because good data are as much a resource as staff, books, and computers, a wise education system is willing to invest time and money in achieving useful information and respects the effort taken to produce it.*

## 4.8 NCES Components of a Culture of Quality Data

*According to the Forum, “everyone whose job touches students has a role in ensuring data quality. When a school or district embraces a Culture of Quality Data, it shows its concern in the following major areas:*

- *Accuracy. The information must be correct and complete. Data entry procedures must be reliable to ensure that a report will have the same information regardless of who fills it out.*
- *Security. The confidentiality of student and staff records must be ensured, and data must be safe.*
- *Utility. The data have to provide the right information to answer the question that is asked.*
- *Timeliness. Deadlines are discussed and data are entered in a timely manner.”*

## 4.9 Key Elements to Achieving Quality Data

- *Clear standards and guidelines for data quality:*
  - *Policies and Regulations*
  - *Standards and Guidelines*
- *School staff with the needed skills and information to enter data correctly:*
  - *Training and Professional Development*
- *Workable calendars and timelines to make sure the data are available when needed:*
  - *Timelines*
  - *Calendars*
- *Technology and technology support in place to support these efforts:*
  - *Technology (Hardware + Software + Network)*
  - *Data Entry Environment*

## 4.10 Summary

*Effective policies, guidelines, professional development, and efficient environments are all earmarks of a school or district that values data quality. It is understandable that these conditions will not develop overnight. Like the creation of any other successful program, the creation of a quality data system takes time and requires the development of a systematic process.*

*When an effective data entry and collection environment exists, staff will spend less time and money correcting data errors and more time on other tasks, such as the instructional program. This can happen when all those involved in the collection and use of data are communicating, when all those involved respect the contributions of the staff who enter the data, and when all staff understand how the data are used.*
